

Programme

LAGB Annual Meeting 2007

King's College London

There are three parallel sessions at all times, apart from during the workshop, the AGM and during invited speakers' talks.

A **data projector** (for Powerpoint and similar presentations) will be available.

All **meals and coffee breaks** take place in the Franklin-Wilkins Building, first floor dining area.

On Saturday, some sessions overlap with an independently organised, but LAGB-associated *Workshop on Features*, which also continues on Sunday. Brief details of the workshop programme are given at the end of the LAGB programme, and participants in both events can attend sessions from either event on the Saturday.
