## Who are UCB?

- Vision:** To build a **global biopharmaceutical leader**, based on unique blending of **innovation**, entrepreneurship and proven experience, bringing to **specialists** first, new medicines to treat patients suffering from **severe diseases**.
- Focus:** central nervous system disorders (CNS), immune and inflammatory disorders and selective oncology indications
- In just three years, UCB realized two major acquisitions – Celltech and Schwarz Pharma – which propelled UCB to become a global biopharmaceutical company with one of the richest late stage pipelines

## R&D at UCB – Potential for breakthrough

- Focused Research & Development Centres
  - Based on a strong understanding of selected therapeutic areas and disease mechanisms
- Connecting science in new ways, notably chemistry and biology, to leverage the potential of these two disciplines
  - Technology breaks new grounds e.g. A2Hit®

the next generation biopharma leader | 1 August 2008

## New UCB The next generation biopharma leader

Significant long-term growth

**Execution**  
New product launches  
R&D investments  
Continuous cost improvement  
Change in product portfolio

**Intense growth**  
Rich pipeline bears fruits

**Breakthrough**  
Unique science for unique medicines to meet unmet medical needs

2007      2010      ... and beyond
