#### Statement regarding the use of the term "Parts"

There are three Practice Assessment Documents in total, which incorporate the range of Future Nurse Standards of proficiency (NMC 2018). "Parts" in this context is used to represent the range of outcomes to be achieved by students at different levels. These parts may differ from the parts of the education programme that will be defined locally by each university provider.

#### Welcome to the Practice Assessment Document (PAD)

#### Student responsibilities

This Practice Assessment Document is designed to support and guide you towards successfully achieving the criteria set out in the *Future nurse: Standards of proficiency for registered nurses* and *Standards for education and training* (NMC 2018).

The PAD makes up a significant part of your overall programme assessment. It will need to be processed through formal University systems. Continuous assessment is an integral aspect of assessment in practice and you are expected to show evidence of consistent achievement. You should engage positively in all learning opportunities, take responsibility for your own learning and know how to access support. You will work with and receive written feedback from a range of staff including Practice Supervisors and Practice Assessors and you are required to reflect on your learning.

You are responsible for raising concerns with a nominated person in the practice setting in a timely manner. You should also alert staff to any reasonable adjustments that may be required to support your learning.

You should ensure you are familiar with your university assessment and submission processes for this document and contact the academic representative from your university, or refer to your university's intranet if you require support or advice on specific university procedures.

The Ongoing Achievement Record (OAR) is a separate document that summarises your achievements in each placement and with the main document provides a comprehensive record of your professional development and performance in practice.

You are responsible for the safekeeping and maintenance of the PAD. It should be available to your Practice Supervisor, Practice Assessor and Academic Assessor at all times when you are in placement together with the OAR. Alterations should be made in this document by crossing through with one line, with a signature and date.

You will have access to confidential information when in practice placements. The PAD should not contain any patient/service user/carer identifiable information. Contents must not be disclosed to any unauthorised person or removed, photocopied or used outside the placement or university.

People must be offered the opportunity to give and if required withdraw their informed consent to student participation in their care and staff in practice will provide guidance as required. Before approaching any patient/service user/carer for feedback you must discuss with your Practice Supervisor/Practice Assessor who will facilitate consent.

**Practice Supervisor responsibilities** (Registered nurse/midwife or other registered health/social care professional)

In many practice areas the student will be supported by a number of Practice Supervisors. Some areas may adopt a team based approach due to the nature of the experience.

As a Practice Supervisor you have an important role in supporting and guiding the student through their learning experience to ensure safe and effective learning. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. It is your responsibility to contribute to the student's assessment through the recording of regular feedback on their progress towards, and achievement of their proficiencies. Specific feedback must be provided to the Practice Assessor on the student's progress.

**Supervision in other placement areas** (i.e. those areas where there are no health/social care registrants)

A range of staff can support student learning and have a vital role in student learning and development though may not be contributing formally to assessment of proficiencies.

However, these staff members are encouraged to support learning and can provide valuable student feedback within the PAD on the *Record of communication/additional feedback pages*.

#### Practice Assessor responsibilities (Registered Nurse)

As a Practice Assessor you have a key role in assessing and confirming the student's proficiency providing assurance of student achievements and competence. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. You will observe the student, conduct and record student assessments informed by student reflections, feedback from Practice Supervisors and other relevant people to confirm achievement. You will liaise with the Academic Assessor scheduling communication at relevant points.

Practice Assessors must have appropriate equivalent experience in the student's field of practice.

There are numerous elements requiring assessment in practice. One or more Practice Supervisors can contribute to the assessment of some of the proficiencies in discussion with you, but they must be working in their scope of practice.

When assessing the student, you should take into account sources of evidence that encompass knowledge, skills, attitudes and the views of those receiving care. Comments should acknowledge those exceptional students who are exceeding expectations for their stage in practice or who have particularly commendable attitudes, behaviours, knowledge or skills.

If the student is not meeting the required standards this should be highlighted as a development need. If there is a cause for concern or a fitness for practice issue that requires prompt action, an Action Plan should be instigated to address specific needs or concerns within a specified timeframe. In the event of this, seek guidance from the Academic Assessor and/or senior practice representative.

#### Academic Assessor responsibilities

Academic Assessors are Registered Nurses and are nominated for each part of the educational programme. The same Academic Assessor cannot contribute to the student assessment in consecutive parts. The Academic Assessor will work in partnership with the Practice Assessor to evaluate and recommend the student for progression for each part of the educational programme. The Academic Assessor will enable scheduled communication and collaboration with the Practice Assessor and this communication can take a variety of forms.

All communications/ additional feedback (not already recorded in the scheduled interviews) from the Practice Supervisors, Practice Assessor and Academic Assessor and other staff members needs to be recorded on the relevant pages in the PAD.

#### Guidance for using the PAD to facilitate learning and assessment in practice

Assessment criteria in the PAD are based on the NMC *Future nurse: Standards of proficiency for registered nurses* and *Standards for education and training* (NMC 2018). The outcome statements have been designed by the NMC to apply across all four fields of nursing practice and all care settings (NMC 2018). *Students must be able to demonstrate a greater depth of knowledge and the additional more advanced skills required to meet the specific care needs of people in their chosen fields of nursing practice (NMC, 2018, p6).* This Practice Assessment Document can be used in any field of practice.

#### Components of Assessment and Feedback (see individual university guidance/regulations)

**Professional Values**: Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code (NMC 2018). All must be achieved by the end of each placement.

**Proficiencies:** These reflect aspects of the 7 Platforms, communication and relationship management skills and nursing procedures (NMC 2018). These can be assessed in a range of placements but must be achieved at least once *by the end of the Part*. If a proficiency is assessed as achieved early in the Part it is expected that the student maintains that level of competence and could be re -assessed in subsequent placements during the part

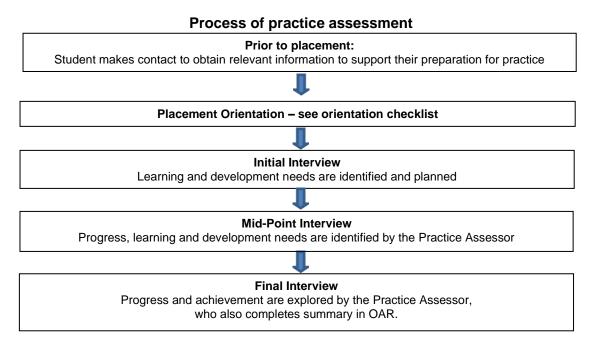

**Episode of Care:** This holistic assessment(s) facilitates and demonstrates the student's progress and must be achieved by the end of the Part. An episode of cate must be completed in both placements in part one.

**Medicines Management**: A medication management assessment *must be completed in both placements in part three.* 

**Patient/Service User/Carer Feedback Form:** Feedback will be sought in relation to how the student cared for the person receiving care. This is not formally assessed, but will contribute to overall student feedback.

**Recording Additional Experiences and Feedback:** There are additional pages for the student to record reflections on their own learning and pages to record communication and additional feedback from all those supporting learning and assessment.

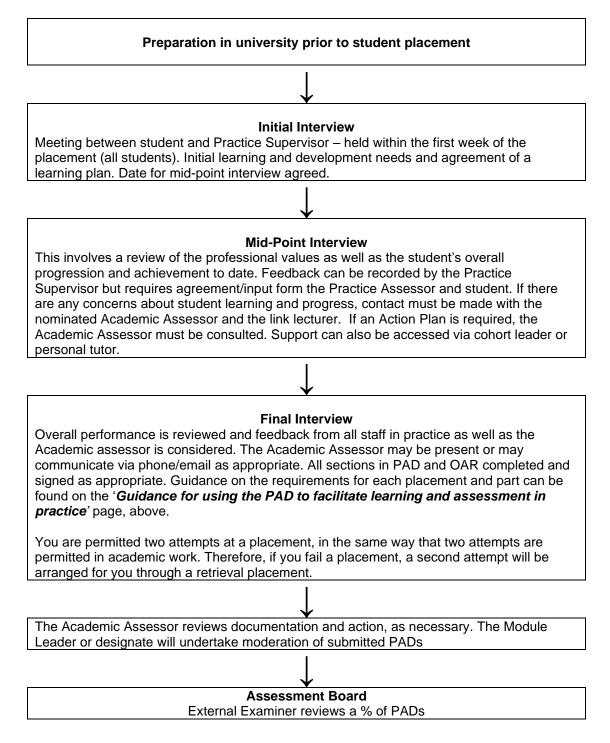

**Ongoing Achievement Record:** The OAR summarises overall achievements and provides a comprehensive record of student development and overall performance.

Further information / guidance is included in the university specific pages (overleaf) and in the Practice Assessment Document Guide

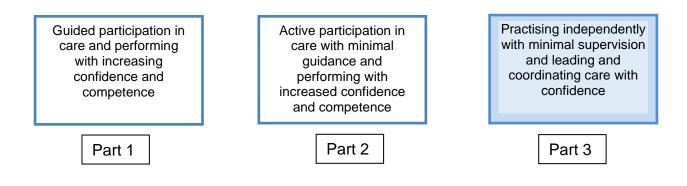

#### King's College London – Pan London Practice Assessment Document Guidelines

#### **Criteria for Assessment in Practice**

#### Overall Framework Parts 1 – 3 to be achieved by the end of the part

The decision on the level of supervision provided for students should be based on the needs of the individual student. The level of supervision can decrease with the student's increasing proficiency and confidence. (NMC, 2018, p 5)

#### Part 3: Leads and coordinates care

#### 'Achieved' must be obtained in all three criteria by the student

| Achieved | Knowledge   | Skills   | Attitude and Values   |
|----------|---|--|---|
| YES      | Has a comprehensive<br>knowledge-base to<br>support safe and<br>effective practice and<br>can critically justify<br>decisions and actions<br>using an appropriate<br>evidence-base.       | Is able to safely,<br>confidently and<br>competently manage<br>person centred care in<br>both predictable and<br>less well recognised<br>situations,<br>demonstrating<br>appropriate evidence<br>based skills. | Acts as an accountable<br>practitioner in<br>responding proactively<br>and flexibly to a range<br>of situations. Takes<br>responsibility for own<br>learning and the<br>learning of others. |
| NO       | Is only able to identify<br>the essential<br>knowledge-base with<br>poor understanding of<br>rationale for care. Is<br>unable to justify<br>decisions made leading<br>to unsafe practice. | With minimal<br>supervision is not able<br>to demonstrate safe<br>practice despite<br>guidance.  | Demonstrates lack of<br>self-awareness and<br>professionalism. Does<br>not take responsibility<br>for their own learning<br>and the learning of<br>others.                                  |

#### **Professional Values in Practice (Part 3)**

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

#### **Record of peer feedback**

Feedback is an essential part of the learning process. Through engaging in peer review and receiving feedback from a number of peers, students are exposed to a greater diversity of perspectives as well as enabling students to develop skills in peer review and feedback.

These records can be completed by peers i.e. other students who have worked alongside you or have had the opportunity to discuss your learning needs with you. If you have facilitated a teaching session on placement you can use the form below to obtain feedback.

#### **Professional Values in Practice (Part 3)**

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

### Progression towards registration –

#### record of weekly meetings in final placement (consolidation placement)

Registered nurses play a vital role in providing, leading and co-ordinating care that is compassionate, evidence-based, and person-centred. They are accountable for their own actions and must be able to work autonomously, or as an equal partner with a range of other professionals and in interdisciplinary teams. (NMC, 2018, p3).

During your final placement a Practice Supervisor (registered nurse with more than six months experience) or nominated Practice Assessor should schedule a weekly meeting of one hour per week for the student to reflect, receive feedback and record achievements and confirm that the student is practising independently with minimal supervision and leading and coordinating care with confidence.

# **Assessment of Proficiencies**

Incorporating Platforms 1 – 7 Annexe A: Communication and relationship management skills Annexe B: Nursing procedures

These proficiencies "apply to all registered nurses, but the level of expertise and knowledge required will vary depending on the chosen field(s) of practice". (NMC, Future Nurse, 2018, p22, 26)

Assessment of Proficiencies are undertaken across the Part. These can be assessed in a range of placements but need to be assessed as Achieved (YES) at least once by the end of the Part. If a proficiency is assessed as Achieved (YES) early in the Part it is expected that the student maintains that level of competence and can be re-assessed in subsequent placements at the Practice Assessor's discretion.

The Grade Descriptors are 'Yes' (this proficiency has been achieved), 'No' (this proficiency has not been achieved). Refer to Criteria for Assessment in Practice for further details.

Some of the proficiencies may be met within simulated learning as per the individual university's policy.

Proficiencies marked with an \* can be met in either Part 2 or Part 3 and please refer to pages 60 – 62 and to the OAR to confirm achievement of these.

Part 3 Assessment of Performance: The individual completing the assessment should draw on a range of observed experiences in which the student demonstrates the required knowledge, skills, attitudes and values in co-ordinating high quality person/family centred care, ensuring all care is underpinned by effective communication skills. *Those marked with an \* may have been met in Part 2. Record achievement of Part 3 proficiencies marked \* in OAR as well.*

The following proficiencies can be achieved in Part 2 or Part 3. These are currently reflected in the Part 2 document and the OAR. The Practice Assessor should check the student record in the OAR to confirm if the proficiencies have been achieved or not in Part 2. If the student is achieving these proficiencies in Part 3, record achievement below and in the OAR

## Part 3 Episode of Care 1 Placement One

#### This assessment must be undertaken and assessed by a Practice Assessor by the end of Part 3 Guidelines

The student will be given the opportunity to supervise and teach a junior learner/colleague in practice and provide a written reflection on this experience. This needs to be based on the delivery of direct person-centred care. Professionalism underpins all aspects of the student's performance.)

The aim of this assessment is to demonstrate the student's progression in the following five platforms within the *Future Nurse: Standards of proficiency (including skills from annexe A and B)* (NMC 2018) in the context of their intended field(s) of practice:

- Assessing needs and planning care
- Providing and evaluating care
- Improving safety and quality of care
- Leading nursing care and working in team
- Coordinating care

Effective communication and relationship management skills underpin all aspects of care.

Students are required to use appropriate approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying understanding of mental capacity and health legislation as appropriate.

#### Learning outcomes

#### The student is able to:

- 1. Supervise and teach less experienced students and colleagues, appraising the quality of the nursing care they provide, documenting performance, promoting reflection and providing constructive feedback.
- 2. Demonstrate an understanding of the factors that both facilitate and impede learning in practice.
- 3. Demonstrate leadership potential in the assessment, planning, implementation and evaluation of care.
- 4. Apply the appropriate knowledge and skills in appraising the quality of the nursing care provided by the junior learner colleague.
- 5. Demonstrate effective verbal, non-verbal communication and interpersonal skills in engaging with the learner and others involved in the care and act as a positive role model.
- 6. Critically reflect on their own role and the role of the nurse in the supervision, facilitation and evaluation of learning for the whole team.

## Part 3 Episode of Care 2 Placement Two

## This assessment must be undertaken and assessed by a Practice Assessor by the end of Part 3 Guidelines

The practice assessor and student will identify an appropriate episode of direct care involving the organisation and management of care for a group/caseload of people with complex care needs. Professionalism underpins all aspects of the student's performance. (BAP 1)

The aim of this assessment is to demonstrate the student's progression in the following six platforms within the *Future Nurse: Standards of proficiency (including skills from annexe A and B)* (NMC 2018) in the context of their intended field(s) of practice:

- Promoting health and preventing ill health
- Assessing needs and planning care
- Providing and evaluating care
- Improving safety and quality of care
- Leading and managing nursing care and working in teams
- Coordinating care

Effective communication and relationship management skills underpin all aspects of care. (Annex A)

Students are required to use appropriate therapeutic approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying understanding of mental capacity and health legislation as appropriate.

#### Learning outcomes

#### The student is able to:

- 1. Demonstrate the knowledge, skills and ability to coordinate the care for a group of people with complex and multiple care needs and act as a role model in managing person centred, evidence based approach to care.
- 2. Evaluate a team based approach to the quality of care delivery and demonstrates understanding of the roles. responsibilities and scope of practice of all team members.
- 3. Demonstrate leadership potential in the assessment, planning, implementation and evaluation of care within the practice setting through effective interaction and engagement with people, services and communities.
- 4. Critically appraise the quality and effectiveness of nursing care, demonstrate how to use service delivery evaluation in practice and how to bring about service improvement and audit findings to improve care.

#### Part 3 Placement One Medicines Management

This assessment must be completed by the end of Part 3 where the student safely administers medicines to a group of patients/service users or a caseload of patients/service users in community settings.

During Part 3 the student should be consolidating their knowledge, skills and competencies in relation to the safe administration of medicines. This assessment should normally be undertaken with a small group of patients/service users or caseload. **Professionalism underpins all aspects of the student's performance.** 

The student must be allowed a number of practice opportunities to administer medicines under supervision prior to this assessment.

The student must work within the legal and ethical frameworks that underpin safe and effective medicines management and work within national and local policies.

**Regulatory requirements:** Future Nurse: Standards of proficiency (including skills from annexe A and B) (NMC 2018) The Code (NMC 2018), A Competency Framework for all Prescribers (The Royal Pharmaceutical Society 2016)

The aim of this assessment is to demonstrate the student's knowledge and competence in administering medications safely.

#### Learning outcomes

#### The Student is able to:

- 1. Apply knowledge of pharmacology, how medicines act and interact in the systems of the body, and their therapeutic action.
- 2. Prepare medications where necessary, safely and effectively administer these via common routes, including all injection routes where appropriate and maintains accurate records.
- 3. Demonstrate proficiency and accuracy when calculating dosages for a range of prescribed medicines.
- 4. Administer and monitor medications using vascular access devices and enteral equipment, where appropriate.
- 5. Recognise and respond to adverse or abnormal drug reactions to medications.
- 6. Maintain safety and safeguard the patient from harm, including awareness of non-adherence, demonstrating understanding of the Mental Capacity Act (DH 2005) and the Mental Health Act (DH 1983, amended 2007), where appropriate.
