

CLASS STARTER

Spit! What your saliva says about you

with Professor Gordon Proctor, Dental Institute.

Watch the video at www.kcl.ac.uk/3MinT

LINKED SUBJECTS:

Biology,

DISCUSSION POINTS FOR... **Biology**

1. What is the UK Biobank and why is it significant for salivary research?
2. Why would disease detection via salivary swabs be a better option than blood tests?
3. What are the three major salivary glands around the mouth?
