Admissions statistics for Undergraduate Medicine (UCAS code: A100)

Our data has been collated using applications received for Medicine (UCAS code: A100) for admissions cycles 2020 to 2024.

For clarity, each admissions cycle runs for the year preceding the date given with standard entry being in that year. For example, the 2024 cycle ran from 2023 to 2024, with standard entry being in 2024. Applications for deferred entry are included in the cycle in which the applications were made.

Acceptance counts are based on the number of applicants who fulfil all three of the following criteria:

- Are 'unconditional firm' offer holders for the course (i.e. applicants that have been offered a place)
- Have met all conditions of their offer
- Have indicated that they wish to accept their offer

Enrolment counts are based on the number of those who accepted a place on the specified course, who went on to join that same course.

Region of domicile rather than fee status has been used to split data for home and overseas applications, using the UK/Non-UK distinction. This is to enable consistent comparisons across cycles since domicile was not affected by changes to fee status conditions following Brexit or unconfirmed fee statuses decisions.

Where there were no occurrences matching the specified criteria, 0 values have been replaced with blanks.

Admissions statistics for Medicine (UCAS code: A100) by domicile

All domiciles

The following table show the number of applications through to number of enrolments for applications made by all domiciles.

UCAS cycle	Applications	Interviews	Offers	Acceptances	Enrolments
2020	2881	1060	740	340	338
2021	3911	1049	703	328	321
2022	3703	1101	553	330	322
2023	3457	1116	645	341	337
2024	2810	982	762	332	328

UK domiciles

The following table shows the number of applications, interviews, offers, acceptances and enrolments for UK domiciled applicants between the years 2020 and 2024.

UCAS cycle	Applications	Interviews	Offers	Acceptances	Enrolments
2020	2036	936	652	305	304
2021	2837	959	626	288	285
2022	2741	1005	513	306	299
2023	2557	1006	595	311	307
2024	1981	796	609	256	256

Non-UK domiciles

The following table shows the number of applications, interviews, offers, acceptances and enrolments for non-UK domiciled applicants between the years 2020 and 2024.

UCAS cycle	Applications	Interviews	Offers	Acceptances	Enrolments
2020	845	124	88	35	34
2021	1074	90	77	40	36
2022	962	96	40	24	23
2023	900	110	50	30	30
2024	829	186	153	76	72

The University Clinical Aptitude Test (UCAT)

All applicants are required to sit the UCAT (previously known as UKCAT) prior to applying to this course. The UCAT must be taken in the same year you apply in order to be valid.

Please refer to the UCAT website for all information, including details on registration, test dates and access arrangements. The website also provided details of the Test Incident policy.

UCAT score statistics refer only to total UCAT scores.

Minimum UCAT scores for those invited to interview and for offer holders are not 'cut-off' scores, and it is not necessarily the case that all applications with UCAT scores above the stated values received invitations to interviews or offers.

Mean averages have been rounded to the nearest integer.

UCAT applications by domicile

Aggregation figures are presented here for applications made with UCAT scores associated to them.

All domiciles

UCAS cycle	Lowest UCAT score	Mean UCAT score	Highest UCAT score	Highest SJT band	Lowest SJT band	Modal SJT band
2020	1440	2607	3440	1	4	2
2021	1480	2669	3440	1	4	1
2022	1490	2713	3420	1	4	2
2023	1400	2732	3480	1	4	2
2024	1720	2744	3510	1	4	2

UK domiciles

2024	2720	3078	3420	1	3	1

Interview scores by all interviewees and offer-holders by domicile

Minimum interview scores for those who received an offer are not 'cut-off' scores, and it is not necessarily the case that all applications with an interview score above the stated values received invitations to interviews or offers.

Interview scores have been given as percentages and rounded to the nearest integer value.

The following section begins with three tables displaying a distribution of interview scores by domicile. Then concluded with the distribution shown for those who eventually went on to receive offers.

All domiciles

UCAS cycle	Lowest interview score	Mean interview score	Highest interview score
2020	47%	76%	95%
2021	26%	74%	99%
2022	25%	75%	100%
2023	33%	74%	100%
2024	31%	75%	100%

UK domiciles

UCAS cycle	Lowest interview score	Mean interview score	Highest interview score
2020	47%	77%	95%
2021	26%	74%	99%
2022	25%	75%	100%
2023	33%	74%	100%
2024	31%	75%	100%

Non-UK domiciles

UCAS cycle	Lowest interview score	Mean interview score	Highest interview score
2020	51%	76%	91%
2021	36%	75%	98%
2022	45%	73%	98%
2023	37%	73%	99%
2024	36%	74%	100%

The next three tables show the distribution of interview scores for those who went on to receive offers.

All domiciles

UCAS cycle	Lowest interview score	Mean interview score	Highest interview score
2020	58%	80%	95%
2021	51%	81%	99%
2022	61%	83%	100%
2023	65%	82%	100%
2024	51%	79%	100%

UK domiciles

UCAS cycle	Lowest interview score	Mean interview score	Highest interview score
2020	58%	80%	95%
2021	51%	82%	99%
2022	63%	83%	100%
2023	65%	82%	100%
2024	51%	80%	100%

Non-UK domiciles

UCAS cycle	Lowest interview score	Mean interview score	Highest interview score
2020	64%	79%	91%
2021	58%	78%	98%
2022	61%	82%	98%
2023	68%	83%	99%
2024	61%	78%	100%
