King's Sustainability achievements this year include:

- 42% carbon reduction achieved (by July 2020), keeping us on track to achieve the 43% carbon reduction goal by the end of 2020.
- Improving waste recycling rates to an overall recycling rate of 69%.
- 53 students trained and got involved in the Sustainability Champions programme – as both Sustainability Champion Assistants (SCA's) to staff teams and/or as IEMA Sustainability Auditors.
- 22 events held in [Sustainability Week \(Feb 2020\)](#). Staff and student champions attended these events, helped to promote and event put on their own events and campaigns in this week.
- Established the [King's Climate Action Network](#) – a network to bring staff and students together to help shape the net-zero carbon strategy for King's, to be achieved by 2025.
- The third [King's Sustainability Report \(2018/19\)](#) published this Summer.
- King's awarded [9th in the world for Social Impact in the THE Rankings](#).
