

King's Sustainability Awards

2021

For the 2021 Sustainability Awards year, due COVID-19, a large in-person ceremony was not possible. Instead, the King's Sustainability team organised x5 smaller sustainability awards – one for each campus. These were hosted on campus and some offsite at local sustainability businesses, such as the Green Greengrocers for the St Thomas' awards celebration.

In 2021, we celebrated the 535 Sustainability Champions and the 64 Sustainability Champions teams. The 64 teams were awarded:

- 5 Sustainability Dozen
- 1 Working Towards Bronze
- 6 Bronze
- 1 Working Towards Silver
- 12 Silver
- 39 Gold

Two volunteering events were organised as part of these celebrations – with one session at the King's Community Garden [\[link\]](#) and one at [Borough Food Cooperative](#), allowing staff Sustainability Champions to use one day of their three allocated [Service Time](#) days.

Gold

Office

- Lavington Street
- Fundraising & Supporter Development
- Geography
- Green Libraries x4
