Travel hierarchy: Text version

The travel hierarchy lists in order from best to worst travel options in terms of environmental impact.

In descending order from best (1) to worst (9), the options are:

1. Attending virtually – not travelling at all
2. Active travel options such as walking or cycling
3. Taking a train
4. Taking a ferry
5. Taking a coach
6. Using a rideshare
7. Individual driving using an electric vehicle
8. Individual driving using a petrol or diesel car
9. Flying
