Compliance

G1  All stakeholders are required to comply with the Academic Regulations, Appendices and associated Academic Policies.

G2  Academic Regulations and programme specifications in force when a student registers will normally apply to that student until completion of the programme. Academic Policies are subject to regular review and updated versions apply irrespective of the year of a student’s registration.

G3  The College offers teaching and research at undergraduate, postgraduate taught and postgraduate research levels, leading to a range of awards.

G4  Deviations from the regulatory framework may be considered in exceptional circumstances.

G5  All stakeholders must comply with other College Regulations and policies.

Admission

G6  Students who meet the general entrance requirements and the specific requirements of an approved programme may be admitted to the College.

G7  Conditions apply for enrolment on a programme with recognition of previous experience.

Enrolment

G8  Completion of online enrolment and ID verification must take place within two weeks of the official start date of the programme or module. For King’s Online Managed programmes and credit bearing MOOCs, initial registration must take place within two days of the official start date and in subsequent years, registration takes place at modular level. Failure to enrol, by any student, may result in loss of a deposit. It is a student’s responsibility to provide up to date addresses for correspondence.
All periods of study must be continuous unless an interruption has been permitted and students must adhere to the requirements of minimum and maximum periods of registration.

Students may not be registered concurrently for more than one award within the higher education setting unless dual registration has been permitted.

Students may transfer registration within the College or to another institution under certain conditions.

Fees are payable in accordance with the College’s Fee Payment Terms and Conditions. The payment of the correct fees is the responsibility of the student.

Students must comply with the Academic Policy on attendance.

Members of the Students’ Union holding elected office may be granted student status by the Principal.

The Academic Year runs from 1 September to 31 August.

This regulation has been suspended for one year.

Between noon and 1pm on Mondays during Semesters one and two no lectures or other classes at which attendance is obligatory will normally be held to allow students to attend the Associateship of King’s College lectures.

Students registered for assessments are expected to be present or submit on the dates specified.

Students may apply for Personalised Assessment Arrangements.
Award

G20 The College has the authority to confer and revoke awards under the Charter and Statutes of King’s College London. All awards have regard to the provisions of the QAA UK Quality Code for Higher Education.

G21 Except under the provisions of an academic appeal, no decision of a properly convened and constituted Assessment Sub-Board, acting within its terms of reference and within the regulations governing the degree may be modified.

G22 Once awarded a student may not register for the same qualification in the same subject but may register for the same qualification in a different subject provided that the procedures for enrolment are met, modules previously taken are not reattempted and overlapping modules are not taken.

G23 Certificates state the name of the College, the qualification, the classification (where appropriate), the field of study (where appropriate), the name of the student, and shall carry the signatures of the Principal & President and the Chair of Council.

G24 For awards made by the College, the date of award is the first month following ratification. The date of award may be different for joint, double and dual awards.

Interruption, withdrawal, suspension and termination

G25 If a student or a third party on behalf of the student, is found to have provided untrue or inaccurate information, or to have omitted information at enrolment or during the application process, registration can be terminated without notice. However, the student will have a right to appeal that decision.

G26 The Principal has emergency powers to exclude or suspend a student pending the outcome of a misconduct hearing, a fitness to practise hearing, a criminal charge or who is the subject of a police investigation. These powers also extend to a student who has breached the College’s policy statements on health, safety and environmental protection and/or is considered a danger to others.

G27 Students are expected to maintain good conduct at all times whilst on College premises or engaged in College activities. Failure to do so is considered misconduct.
G28  A student’s registration may be terminated for failure to make sufficient academic progress.
View more on G28  Glossary

G29  A student’s registration may be terminated as a result of a fitness for registration and fitness to practise hearing. When conferring awards which lead to professional qualifications registerable with a Professional, Statutory and Regulatory Body, the College must be satisfied that the student would be a safe and suitable entrant to the given profession, and as such would be fit for registration and fit to practise.
View more on G29  Glossary

G30  The College may interrupt a student if it is in the best interests of the students or the King’s community.
View more on G30  Glossary

Student complaints

G31  Complaints from students are carefully considered and, if appropriate, shall be investigated by the Head of Student Conduct and Appeals.
View more on G31  Glossary

G32  A student may ask the OIA to consider any unresolved complaint against the College.
View more on OIA  Glossary
Compliance

T1 In addition to the General Regulations, which apply to all students, the Academic Regulations for Taught Programmes apply to students registered on undergraduate or taught postgraduate programmes at the College. The Regulations for Taught Programmes exclude the Associateship of King’s College, the King’s Experience Awards, programmes offered by RADA, programmes offered by the Inns of Court College of Advocacy and programmes of less than four months run by the King’s Foundations.

T2 All students are required to abide by the regulatory framework governing assessments and examinations. Failure so to do constitutes an offence and may be dealt with in accordance with G27.

Modules, programmes and progression

T3 All modules are required to have a published module specification, a credit level and credit value.

T4 All programmes of study are required to have a published programme specification which is updated annually.

T5 Programmes may define specific modules as having special status.

T6 Progression requirements apply and deviations from or additions to minimum progression requirements are detailed in programme specifications.

T7 To be awarded credit the whole module must be passed.

T8 The pass mark at levels 4, 5 and 6 is 40. The pass mark at level 7 is 50. Exceptions may apply to programmes leading to professional registration and to the Executive LLM which applies pass/fail marking criteria.

T9 Modules which require a qualifying mark in order to pass the module overall will specify the details in the module specification.
T10 Credit can be awarded for condoned fails where permitted by the programme specification.
View more on T10 Glossary

Assessment

T11 No Regulation (intentionally left blank)
---

T12 Modules are assessed by one or more methods appropriate to the level as defined in the module specification.
View more on T12 Glossary

T13 Under exceptional circumstances provision may be made for alternative forms of assessment in line with college policy.
View more on T13 Glossary

T14 The setting of assessments and the drawing up of marking schemes are responsibilities of the Assessment Sub-Boards.
---

T15 Examiners shall preserve the secrecy of unseen examination papers until taken by students.
View more on T15 Glossary

T16 The identity of students shall be withheld from examiners where possible.
View more on T16 Glossary

T17 Examination scripts are the property of the College but provisions shall be made for students to view scripts.
View more on T17 Glossary

T18 Results of assessments are confidential until the Assessment Sub-Board has met to ratify the results.
View more on T18 Glossary

T19 Assessment results are communicated to all students within a cohort at the same time and in the same manner once ratified by the relevant Assessment Sub-Board.
View more on T19 Glossary

T20 All assessments are marked out of 100 in accordance with the generic marking criteria and discipline specific criteria, where issued. Examiners should use the full range of marks.
View more on T20 Glossary

T21 Reassessment is at the discretion of the Assessment Sub-Board. For failed assessment, two reassessment opportunities may be permitted at levels 3 or 4 and one reassessment opportunity may be permitted at levels 5, 6 & 7. The final module mark following reassessment is capped at the relevant pass mark.
View more on T21 Glossary
In some circumstances a student may be permitted to substitute a failed module with an alternative module or modules of the same credit value.

Confirmed marks of 69, 59, 49, 39 and 32 indicate agreement that the assessment is not deserving of the class above.

---

Off-site study

Students taking level 4, 5, 6 or 7 modules at other University of London Colleges can transfer marks and credits.

Students taking level 4 or 5 modules at other institutions can transfer credits only.

Students taking level 6 or 7 modules at other institutions can transfer marks and credits using annually approved mark translation schemes.

Schemes for awards

Students who have transferred onto a programme from another institution transfer credits only and the student’s classification shall be based entirely upon performance in modules assessed by the College.

All module marks from Year Two onwards will be used in the degree algorithm. Marks obtained in Year One will not be used in determining a student’s C score. Where credit has been awarded for a condoned fail the final module mark will be the highest overall mark achieved. Where a substitute module is taken, the mark from this module is used.

There are no exceptions to the award rules. Boundaries cannot be lowered, and exceptions cannot be made.
This scheme applies to Bachelor and Integrated Masters Degrees:

**T30**  
Weighting schemes apply and a c-score between 0-100 is calculated by the formula below:

\[
\text{c-score} = \frac{\text{the sum of the weighted marks} \times \text{mark} \times \text{relevant credit volume} \times \text{weight}}{\text{the sum of credit volume} \times \text{weighting}}
\]

View more on T30  Glossary

**T31**  
A c-score of at least 40 must be achieved for award and classifications are indicated by the following scores:

- 70-100 inclusive  First Class Honours
- 60-69 inclusive  Upper Second Class Honours
- 50-59 inclusive  Lower Second Class Honours
- 40-49 inclusive  Third Class Honours
- 0-39 inclusive  Academic Fail

View more on T31  Glossary

**T32**  
A c-score within two percent of a higher classification boundary (i.e. 68/58/48) is automatically upgraded to the higher classification where at least 60 credits at level 6 (level 7 for Integrated Masters programmes) or above are in a higher classification.

This scheme applies to Undergraduate Certificates, Undergraduate Diplomas, Graduate Certificates, Graduate Diplomas and Foundation Degrees:

**T33**  
An overall score between 0-100 is calculated as detailed below:

*The weighted average of all individual module marks where each module is weighted by its credit volume.*

---

**T34**  
An overall score of at least 40 must be achieved for award and classifications

- 70-100 inclusive  Pass with Distinction
- 60-69 inclusive  Pass with Merit
- 40-59 inclusive  Pass
- 0-39 inclusive  Academic Fail

---

This scheme applies to Masters Degrees (excluding Integrated Masters):

**T35**  
An overall score between 0 – 100 is calculated as detailed below:

*The weighted average of all individual module marks where each module is weighted by its credit volume.*

---
To be eligible for award students require:
- an overall average of at least 50 with no module mark below 40 and
- a mark of at least 50 in 150 credits (300 credits for MClinDent) including
  the dissertation, and a mark of at least 40 in the remainder.

Classifications are indicated by the following overall scores:
70 - 100 inclusive  Pass with distinction
60 - 69 inclusive  Pass with merit
50 - 59 inclusive  Pass
0 - 49 inclusive  Academic Fail

This scheme applies to Postgraduate Diplomas and Postgraduate Certificates:

An overall score between 0 – 100 is calculated as detailed below:

The weighted average of all individual module marks where each module is
weighted by its credit volume

To be eligible for award students require:
- an overall average of at least 50 with no module mark below 40 and
- a mark of at least 50 in 90 credits (PGDip) or 45 credits (PCCert), and a mark
  of at least 40 in the remainder

Classifications are indicated by the following overall scores:
70 - 100 inclusive  Pass with distinction
60 - 69 inclusive  Pass with merit
50 - 59 inclusive  Pass
0 - 49 inclusive  Academic Fail

Where a final year undergraduate student has completed the full period of study
but is absent from the final examinations, the student may be eligible for
consideration under the aegrotat provisions.

Where a student has failed to satisfy the examiners in one or more elements of
the programme an Exit Award may be available under the exit award provisions.

Mitigating circumstances

The College considers mitigating circumstances to be recognisably disruptive or
unexpected events beyond the student’s control that might have a significant
and adverse impact on their academic performance. The Mitigating
Circumstances Policy applies to students on taught programmes. Marks will
never be raised due to mitigating circumstances.
There is an academic appeals process available to undergraduate and taught postgraduate students. This cannot be used to challenge academic judgement.

View more on T44  Glossary
Compliance

R1  In addition to the General Regulations, the Regulations for Research Degrees apply to all students registered on research degree programmes at the university. For research degree programmes with taught elements, the Regulations for Taught Programmes will also apply. Appendices attached to these regulations setting out the framework for the management of research degrees and research degree students are reviewed annually by the Centre for Doctoral Studies.

Programme

R2  A research degree programme incorporates a substantial research component which is carried out during the period of registration and which results in the submission of a thesis for examination at research degree level.

Enrolment

R3  Students may enrol on research degree programmes that are offered in formal collaboration with external partner institutions.

R4  Students must adhere to the minimum and maximum periods of registration for the degree they undertake as set out under the Research degree minimum and maximum periods of registration appendix.

R5  Faculties may register students under the Research degree advanced standing and transfer appendix.

R6  Students may be permitted to undertake paid work, including teaching, during their research degrees.

Supervision

R7  Faculties are responsible for arranging the supervision of a research degree student as governed by the Research degree supervision appendix.

Mitigating circumstances

R8  The Faculty can approve an interruption of study in the case of mitigating circumstances.
Progression

R9  Students are required to participate fully in the procedures of the university and faculties to monitor progress. Failure so to do will result in registration being terminated. Students are required to pursue a formal programme of study including induction and training programmes where prescribed or desired.

Assessment

R10  The decision to submit a thesis for examination rests with the student, subject to the faculty in which the student is registered confirming that the student has completed the programme of study, that the student meets the requirements of the programme and that they conform to submission timescales.

R11  The method of assessment for research degrees theses is by oral examination. The requirements for the conduct of the examination, including appointment of the examiners, are set out in the Conduct of research degree examination appendix.

Award

R12  The criteria for theses and award vary according to the specific research degree, as set out in the Criteria for research degree thesis and award appendix.

R13  The recommendations available to examiners as results for ratification by the Research Degrees Exam Board are set out in the Research degree examination outcomes appendix.

R14  Theses resulting from a research degree undertaken at the university must be placed within the public domain once awarded. Students may apply for restriction of access on certain grounds.

Academic appeals

R15  There are two academic appeals processes available to research degrees students: a) to appeal the PhD upgrade and MD(Res) transfer decisions; b) to appeal the outcome of the thesis and oral examination. Neither appeal process can be used to challenge academic judgement.
G1 All stakeholders are required to comply with the Academic Regulations, Appendices and associated Academic Policies.

G1.1 Stakeholders are:
- Enrolled students (as a condition of continuing enrolment), enrolled on:
  - Programmes of study;
  - Free-standing credit bearing modules;
  - Credit bearing Massive Online Open Courses (MOOCs).
- Academic Staff;
- Professional Services Staff;
- External Examiners.

G1.2 Stakeholders must comply with the regulatory framework in order to:
  a) avoid putting the College at risk;
  b) safeguard the quality and standards of programmes and awards offered by the College;
  c) adhere to principles of natural justice;
  d) comply with external legislation;
  e) ensure the quality of the student experience.

G3 The College offers teaching and research at undergraduate, postgraduate taught and postgraduate research levels, leading to a range of awards.

Awards of King’s College London

Taught awards at level 4
- Undergraduate Certificate (UGCert) (available as exit award only)

Taught awards at level 5
- Undergraduate Diploma (DipHE) (available as exit award only)
- Ordinary degree (Ord) (available as exit awards only): BA, BSc, BEng, BScEng, BMus, LLB

Taught awards at level 6
- Honours degree (Hons)
  Bachelor of Arts (BA)
  Bachelor of Engineering (BEng)
  Bachelor of Laws (LLB)
  Bachelor of Music (BMus)
  Bachelor of Science (BSc)
  Bachelor of Science (Engineering) (BEng)
  - Professional Graduate Certificate in Education (PGCE Professional)
  - Graduate Certificate (GradCert)
  - Graduate Diploma (GradDip)

Taught awards at level 7
- First degrees
  Bachelor of Dental Surgery (BDS)
  Bachelor of Medicine and Bachelor of Surgery (MB BS)
- First degrees - integrated Masters degrees
  Master of Engineering (MEng)
  Master of Pharmacy (MPharm)
  Master in Science (MSci)
  - Postgraduate Certificate (PGCert)
  - Postgraduate Certificate in Education (PGCE)
  - Postgraduate Diploma (PGDip)
  - Masters degrees
  Master of Arts (MA)
  Master of Clinical Dentistry (MClinDent)
  Master of Laws (LLM)
  Master of Music (MMus)
Master of Public Health (MPH)
Master of Research (MRes)
Master of Science (MSc)

Research degrees at level 7
- Master of Philosophy (MPhil)
- Master in Philosophical Studies (MPhilStud)

Research degrees at level 8
- Doctor in Clinical Psychology (DClinPsy)
- Doctor in Education (EdD)
- Doctor in Health Care (DHC)
- Doctor of Medicine (Research) (MD(Res))
- Doctor of Medicine (MD)
- Doctor in Theology and Ministry (DThM)
- Doctor in Ministry (DMin)
- Doctor of Philosophy (PhD)
- Doctor in Professional Studies (DrPS)

Higher doctorates
- Doctor of Science (DSc)
- Doctor of Letters (DLitt)

Other awards/programme
- Associateship of King’s College London (AKC)
- Extended King’s International Foundation programmes
- King’s Experience Awards
- King’s International Foundation programmes
- Pre-sessional English programmes
- Massive Open Online Courses (MOOCs) – credit bearing

Exemptions: not anticipated. For advice contact exemptions@kcl.ac.uk.

Last reviewed: May 2020
Updates approved: ASSC May 2020, AB June 2020
G4 Deviations from the regulatory framework may be considered in exceptional circumstances.

G4.1 Deviations from the Academic Regulations are categorised in three ways: exceptions, exemptions and emergency regulations. See below for further details on each.

Exceptions

G4.2 Where appropriate, exceptions to specific regulations are detailed in the relevant Appendix.

Exemptions

G4.3 Exemptions may be considered in exceptional circumstances beyond those specified above. Each Regulation Appendix or Policy states whether exemptions are anticipated or not.

G4.4 Where it is stated that exemptions may be permitted under exceptional circumstances, the route this should take is defined to indicate who should request the exemption, who will approve the exemption and the Board or Committee to which the outcome will be reported. The form to request the exemption is linked to all relevant Appendices or Policies.

G4.5 Where it is stated that exemptions are not anticipated, this does not mean that they are prohibited, however, advice should be sought from Exemptions in the first instance.

G4.6 For exemptions for an entire cohort, relating to programme specifications, it is usually expected that a programme modification form will be submitted.

Emergency Regulations

G4.7 The Principal or nominee may declare a College-wide or campus specific emergency which will authorise the Emergency Regulations to be implemented for a prescribed period of time.

G4.8 The Emergency Regulations provide a framework to allow progression and/or award where performance is prevented by acts or events which may be beyond the control of the College.
Marking during a College-wide or campus specific emergency

G4.9 In the event that marking cannot be completed in accordance with the marking model assigned to a module, an Assessment Board may, with the approval of the Chair or Deputy Chair of Academic Standard Sub-Committee, use an alternative marking model. This may include relaxing some of the rules contained within the marking models.

G4.10 If External Examiners are unable to fulfil their duties, the assessment process may proceed, with the approval of the Chair or Deputy Chair of Academic Standard Sub-Committee.

Progression during a College-wide or campus specific emergency

G4.11 In the event that students are unable to be assessed in the original format, the method of assessment of a module and/or the relative weighting of the assessment components, as defined in the module specification, may be modified by the Assessment Board.

G4.12 In the event that students are unable to be assessed in any format and/or results are unavailable for some or all students, Assessment Boards may, if appropriate, progress students pending assessment and/or ratification at a later date, unless prohibited by a Professional, Statutory and Regulatory Body.

Boards during a College-wide or campus specific emergency

G4.13 In the event that the Assessment Sub-Board and/or the Assessment Board is inquorate, the Head of Faculty, in consultation with the Chair or Deputy Chair of the Assessment Board, may allow progression, ratify results and/or ratify awards.

G4.14 Decisions may be made using the information available to Assessment Sub-Boards and/or Assessment Boards at the time, however the decision could be reviewed if new information became available at a later stage which was not available at the time the original decision made.

Research Degree considerations during a College-wide or campus specific emergency

G4.15 Thesis submission deadlines and maximum duration of study may need to be extended to cover the period of the College-wide or campus specific emergency by the Faculty Vice Dean for Doctoral Studies.

Awards during a College-wide or campus specific emergency

G4.16 Regulations T29 and R12 will continue to apply in the event of a College-wide or campus specific emergency. There are no exceptions to the award rules. Boundaries cannot be lowered and exceptions cannot be made. The method of
assessment for research degrees is by oral examination.

G6 Students who meet the general entrance requirements and the specific requirements of an approved programme may be admitted to the College.

General entrance qualification and requirements

G6.1 To be admitted to the College a student must:

a) satisfy the general admission requirements for the level of study (see below);

b) have satisfactorily demonstrated, taking into account individual circumstances, the intellectual maturity necessary to gain full advantage from the educational experience offered by the programme of study;

c) have satisfied any arrangements considered necessary if the applicant is under 18 years of age on the official start date of the programme, as detailed on the offer letter;

d) satisfy any additional criteria for the relevant programme;

e) demonstrate a satisfactory criminal records check as applicable;

f) disclose a criminal record as applicable;

g) have an appropriate visa, where applicable and have satisfied the requirements of UK Visa and Immigration (UKVI);

h) comply with the enrolment procedure;

i) act reasonably and fairly, and treat the admissions process in a respectful manner;

j) have received clearance to undertake the programme where an occupational health assessment is required.

G6.2 Except for specified modules, the language of instruction is English, and all students must be proficient and able to apply this in an academic environment. Competency in English must be confirmed before registration. The entry requirements are outlined in the Online Prospectus.

G6.3 For recognition of prior experience see Academic Regulation G7.
Admission requirements for undergraduate programmes

G6.4 Applicants are required to demonstrate a standard of education, both general and specific to the discipline to be studied, to equip them to benefit from instruction at levels 4, 5 and 6 of the framework for higher education qualifications of UK Degree Awarding Bodies as appropriate.

Admission requirements for taught postgraduate programmes

G6.5 The minimum entrance requirements for registration on a taught postgraduate programme are:

   a) a Second Class Honours degree of a UK university or equivalent overseas qualification obtained after at least two years study or

   b) a Masters degree of the Royal College of Art or

   c) a registrable qualification appropriate to the programme awarded by a UK university in Medicine or Dentistry, or equivalent overseas qualification appropriate to the programme or

   d) professional or other qualification obtained by a formal examination and approved by the Faculty in consultation with the Director of Students and Education (or nominee).

G6.6 Provided that the Admissions Service and the relevant department are in agreement, applicants who do not meet the minimum requirements stated above may be admitted if they hold an alternative qualification of an equivalent or higher level, experience which satisfies the Faculty that the applicant can follow and complete the programme or satisfies the Faculty in any qualifying examination or other condition, including a qualifying period of study, required by the Faculty. In the event of disagreement, the Vice-Principal (Education), or nominee, will make the final decision.

Admission requirements for postgraduate research degree programmes

G6.7 The minimum entrance qualification is an Upper Second Class Honours degree in a relevant subject, or an equivalent overseas qualification obtained after at least three years study. Any additional requirements will be detailed in the online prospectus.

G6.8 Students who do not meet the minimum entrance requirements may be admitted if they hold an alternative qualification of an equivalent or higher level in a relevant subject, or can prove relevant professional experience which satisfies the Vice-Dean for Doctoral Studies in the Faculty that the applicant can follow and complete the programme.
G6.9 To be eligible for registration for the MD(Res) degree, an applicant must have obtained the MBBS degree or another registrable primary qualification in medicine from a higher education institution and be eligible for full registration or hold limited registration with the General Medical Council.

G6.10 It is the responsibility of the Faculties to have transparent selection procedures in place in order to accept student onto postgraduate research programmes. Following an initial screening, selection will be by interview either face to face or for some international students by another communication method as deemed appropriate by the Faculty. Offers for a place can then only be made by the appropriate authority within the Faculty and via the offer letter from the Postgraduate Admissions office.

Updates approved: ASSC May 2020, AB June 2020
G7 Conditions apply for enrolment on a programme with recognition of previous experience.

G7.1 Where a student has completed a programme of study at the College and wishes to progress to the next level within two years, the previous award made by the College will be revoked and progression to the next level may commence. Where the period between the previous award and re-enrolment is greater than two years, the recognition of previous experience regulations below apply.

G7.2 A Faculty may permit a student to enrol on a programme of study with recognition for previous study or experiential learning undertaken elsewhere or at the College as follows:

a) **Enrolment with advanced standing**: the student will have successfully completed an approved programme of study and may be enrolled at the College at an appropriate point on an approved programme in a similar field of study. This generally applies in cases where a student has completed a lower level award (e.g., DipHE or PGDip) and subsequently wishes to register for a related higher level award (e.g., BSc or MSc). Admission with advanced standing to postgraduate research degrees is covered in Academic Regulation R5;

b) **Transfer enrolment**: the student will have successfully completed a part of an approved programme of study and may be enrolled at an appropriate point on an approved programme in a similar field of study. Admission to a postgraduate research degree as a transfer student is covered in Academic Regulation R5;

c) **Enrolment with recognition of prior learning**: the student will have credits accumulated from prior certificated learning or via prior experiential learning and may be enrolled on an approved programme at the College. Such prior learning should be relevant/applicable to the intended programme of study and allow exemption from specific modules.

G7.3 There is no general right of entry; the final decision rests with the admitting Faculty. The admitting Faculty may, in order to ensure that such students fulfil the objective of the programme of study, make admission conditional upon the undertaking of preparatory or supplementary studies, or the inclusion of particular modules in the programme to be taken by the student. Any such conditions shall be agreed by the Faculty and the student before admission.
G7.4 For undergraduate and taught postgraduate programmes credit granted shall not exceed two thirds of the overall credit value of the programme.

G7.5 Credit earned cannot be used towards an award more than once. The only exceptions to this are students registered on joint/dual degrees, on articulation agreements or on nested awards.

G7.6 Once admitted, a student will be subject to the regulations and programme requirements that are applicable to the cohort that they join.

G7.7 Except as given in (b) below, students will only be admitted to the start of a specific year of study and will not be admitted at a point beyond the start of the final year of full-time studies or its part-time equivalent. Students entering the final year of a programme must complete and pass the approved programme of study for that year.

   a) In the case of undergraduate degree programmes, students entering the final year of a programme must take 120 credits. For a level 6 award 90 of these credits must be at level 6; for a level 7 award all 120 credits must be at level 7.

   b) Where a student has successfully completed a Postgraduate Certificate or Diploma and registers for another postgraduate programme in the same subject, the reduced programme of study must extend over a minimum of one third of the normal period of full-time or part-time study prescribed for the programme and the student must fulfil the minimum and maximum period of study requirements. For a Masters degree the period of study and assessment conducted under the direction of the College must include a dissertation or report.

G7.8 In order to be eligible for an award conferred by the College, a student admitted with credit and granted relevant exemptions must:

   a) meet the prescribed criteria for the award;

   b) be assessed at the final level of the award under the direction of the College;

   c) complete the remainder of the prescribed period of study, including that leading to the final examinations, under the direction of the College.

G7.9 The final classification of an award shall be based solely on the studies undertaken under the direction of the College and on the programme onto which a student has transferred.

G7.10 The period between first registration on the previous programme of study and the date of the College award will not normally exceed ten years.

Exception: to G7.1 for programmes where the student was originally awarded with registration to practice, the original award would stand and G7.2 c) would apply.

Exemptions: can be submitted by the Executive Dean or Vice Dean (Education) of the Faculty for consideration by the Vice-Principal (Education). Apply here. All outcomes are reported to ASSC

Last reviewed: May 2020
Updates approved: ASSC May 2020, AB June 2020
G8 Completion of online enrolment and ID verification must take place within two weeks of the official start date of the programme or module. For King’s Online Managed programmes and credit bearing MOOCs, initial registration must take place within two days of the official start date and in subsequent years, registration takes place at modular level. Failure to enrol, by any student, may result in loss of a deposit. It is a student’s responsibility to provide up-to-date addresses for correspondence.

Enrolment

G8.1 Deadlines for enrolment on programmes and module registration must be met. Enrolment or registration beyond these deadlines is at the discretion of the College.

G8.2 All students are required to re-enrol annually. Failure to re-enrol will affect access to Library Services, teaching materials via KEATS, online facilities and receipt of funding.

G8.3 Enrolment includes completion of the online enrolment form as well as fulfilling academic requirements relating to the programme of study and clearance of financial debts to the College.

G8.4 Students enrolling on a new programme who have withdrawn, not completed or been recorded as an Academic Fail on a previous programme at the College may not take modules which are deemed to be overlapping or modules in which they have:

- achieved a pass mark;
- achieved a fail mark (having exhausted all attempts); or
- achieved a condoned fail mark (having exhausted all attempts);

The normal reassessment regulations relating to number of attempts will still apply.

Postgraduate Research Students only

G8.5 Students can enrol for full-time or part-time study.

G8.6 Students whose personal circumstances are considered by the College to prevent full-time study may be considered for part-time study, examples of which include:
• students engaged in earning their own livelihood who provide evidence from their employer to that effect at registration;

• students who are registered as unemployed;

• students who are acting as a full-time carer for a spouse and or/family member;

• students registered as internal postgraduate research students who are also employed as a member of staff of the College

G8.7 Registration for MPhil or PhD is permitted under the full-time employees’ guidance.

G8.8 Full-time students are expected to undertake a full working week of 35 hours on their research degree on average throughout the year, apart from when on annual leave.

G8.9 It is expected that part-time students will spend at least the equivalent of 17.5 hours per week on their research degree on average throughout the year.

G8.10 Students will be allowed to change mode of study from full-time to part-time or vice versa only once during their period of study unless this is a funder’s requirement.

G8.11 Students are not permitted to transfer mode of attendance in the final year leading up to their submission deadline.

G8.12 Regardless of mode of attendance status, students are entitled to annual leave between a minimum of four weeks and up to a maximum of eight weeks per year, inclusive of public holidays and College closure dates. Students should agree their annual leave with their supervisor. Excessive absences should be reported to the Faculty via normal progress report procedures.

G8.13 Some restrictions may apply to period of leave for students holding international visas to study in the UK. These students may be under obligation to report annual leave periods to the Visa Compliance team for monitoring purposes, as defined by Home Office Tier 4 immigration policy and internal College procedures which underpin Home Office requirements.

Contact details for all students

G8.14 The primary email address for all registered students shall be the King’s College email address issued at enrolment. Students are responsible for ensuring that they regularly check their King’s College email account.
G8.15 It is the responsibility of all students, and MBBS graduates undertaking Foundation Year One training, to keep the College informed of their current home and term-time address at all times while they remain members of the College.

G8.16 All correspondence sent to students by the College using the contact details on their record shall be deemed to have been received by the student concerned, unless proof of non-delivery is subsequently provided.

G9 All periods of study must be continuous unless an interruption has been permitted and students must adhere to the requirements of minimum and maximum periods of registration.

G9.1 A Faculty may grant a student an interruption to a programme of study on grounds of illness or other adequate cause, provided that any one period of interruption does not exceed two years and that the total duration of the student’s programme of study, including any interruption, does not exceed the maximum period specified for the award.

G9.2 The minimum and maximum periods of study are set out below. The maximum periods of study include any periods of interruption.

<table>
<thead>
<tr>
<th>Programme type</th>
<th>Minimum period of study</th>
<th>Maximum period of study</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate Diploma</td>
<td>2 years full-time 4 years part-time 18 months part-time (for students entering with advanced standing of 120 credits)</td>
<td>6 years full and part-time</td>

</tr>
<tr>
<td>Professional Doctorates</td>
<td>36 months full-time 72 months part-time</td>
<td>7 years full-time 10 years part-time</td>
</tr>
</tbody>
</table>

G9.3 For awards not covered in the table above, the maximum period of study is detailed in the programme specification.
G9.4 In no instance can the maximum period of study exceed ten years.

G9.5 For King’s Online Managed programmes there are six periods of teaching per year. Students can take a break for up to three consecutive periods without this being considered an interruption, though they remain subject to the maximum period of study. A break of study does not exempt a student from sitting a reassessment whereas an interruption of study does.

G9.6 Credit bearing Massive Open Online Courses will have two advertised periods of teaching every year.

G10 Students may not be registered concurrently for more than one award within the higher education setting unless dual registration has been permitted.

G10.1 For students who have completed active study and are awaiting results only, an overlap period of registration, normally no longer than three months, is permissible.

G10.2 Dual/concurrent registration may be permitted under the College’s definitions of Collaborative Provision.

G10.3 Concurrent registration may be permitted for King’s students intercalating from an MBBS or BDS programme to take a Masters or Doctorate, if approved by the Dean of Medical Education (MBBS) or Dean of Education (BDS).

G10.4 Concurrent registration may be permitted for students on a PhD or MD programme to take a PGCert.

G11 Students may transfer registration within the College or to another institution under certain conditions.

Transfer of Registration

G11.1 Transferring registration within the College or to another institution is permissible, with the agreement of the Faculties involved, under the following conditions:

a) if there are good academic grounds in support of the transfer or other good cause; and

b) if the student has not already been awarded on the programme for which they were originally registered.

G11.2 Students who transfer registration within the College may not take modules which are deemed to be overlapping or modules in which they have:

a) achieved a pass mark;

b) achieved a fail mark (having exhausted all attempts); or

c) achieved a condoned fail mark (having exhausted all attempts);

The normal reassessment regulations relating to number of attempts will still apply.

Updates approved: ASSC May 2020, AB June 2020
G12 Fees are payable in accordance with the College’s Fee Payment Terms and Conditions. The payment of the correct fees is the responsibility of the student.

Fee Payment Terms and Conditions

G12.1 Fees are set, reviewed and published by the College on an annual basis.

G12.2 The College reserves the right to charge interest at a statutory rate, to pass on commission fees incurred as a result of instructing a third-party collection agent and to take legal action, through the courts, to recover any outstanding debts. For the avoidance of doubt, suspensions and cancellation of registration related to debt will only be imposed for the non-payment of debts for tuition fees or tuition related fees.

G12.3 All cheques must be made payable to King’s College London. The College reserves the right to charge an administration fee in respect of dishonoured cheques and chargebacks/disputed card payments received from the College Acquirer.

G12.4 The student is responsible for knowing the exact source of funding of their college fees. Where the student is not making the payment from their own funds, then they must be aware of the source of their funding.

G12.5 In instances where card payments received by the College are subsequently disputed by the cardholder, then King’s may be required to return the funds to source. In such instances, the student will be required to make a replacement payment to the College immediately.

Tuition and tuition-related fees (for Regulations for King’s Online see G12.34)

G12.6 A student who has not settled all outstanding debts for tuition or tuition-related fees (e.g. bench fees) will be sent a notification of impending suspension and given 14 days to make full payment. With immediate effect:

a) access to Student Records will be restricted;

b) coursework/examination results will not be ratified by the Assessment Sub-Board or the Research Degrees Examination Board, and;

c) the student will not be permitted to graduate or re-enrol.
G12.7 Until they are formally suspended, a student who has received a notification of impending suspension will be required to sit examinations/submit coursework, but will not have indicative marks released nor have the marks for any examination or assessment taken ratified by the Assessment Sub-Board or the Research Degrees Examination Board.

G12.8 A student who fails to make payment within the 14 days of the notification of impending suspension will be sent a formal letter by the College informing them that they have been suspended. In addition to the above restrictions, the act of suspension from the College means a total prohibition on attendance at or access to the College and the student:

a) will not be permitted to sit examinations/submit coursework;

b) will not be permitted to use library or computing facilities or services;

c) will not be permitted to attend classes;

d) will not be permitted to access Student Records.

G12.9 A student who misses an examination or assessment deadline as a result of suspension under the above will not be considered to have attempted that examination or assessment. Students who subsequently have their suspension lifted will be permitted to sit the examination or assessment at the next available opportunity without further penalty.

G12.10 Where a student misses a coursework deadline as a result of suspension but subsequently has their suspension lifted, the Assessment Sub-Board shall use its discretion to determine the most reasonable course of action to enable the student to proceed with their studies.

G12.11 Students who take examinations/submit coursework but are subsequently suspended will not have their indicative marks released or their marks ratified in accordance with the above. Should the student subsequently have their suspension lifted, their indicative marks will be released and consideration of their results should follow as soon as possible (including by Chair’s action if no meeting of the Assessment Sub-Boards is scheduled to take place within a reasonable timeframe), unless the student’s registration has been cancelled as below.

G12.12 A student who is suspended under the above may have their College registration cancelled after 14 days written notice. They will have an opportunity to discuss any unpaid charges with a member of the Finance Department.

G12.13 Students whose registration is cancelled under the above remain liable for payment of fees owing. Students who subsequently pay the outstanding sums must re-apply to re-register for their programme. Acceptance on to the programme and accreditation of previous study will be subject to the College’s admissions requirements applicable at the time of re-application.
G12.14 A student who withdraws or interrupts from the programme during the academic year may be charged pro rata tuition fees to the date of withdrawal or interruption, and is required to pay the sum owing within 14 days of the date of invoice.

Undergraduate Student Loans Company funded students

G12.15 For students who have successfully applied to the Students Loans Company for funding of all tuition fees, King’s will receive payment of fees directly from the Student Loans Company.

G12.16 For students receiving part funding of tuition fees from the Student Loans Company, the part that is self-funded will be invoiced in the same way as for other self-funding students (see below).

G12.17 In the event that the Student Loans Company is replaced by another body, then references to the Student Loans Company shall be construed as references to that other body so far as possible.

Deposits

G12.18 Where students are responsible for paying all or part of the tuition fees, the College requires payment of a deposit. Details of the amount of the deposit and deadline for payment will be set out in the offer letter.

G12.19 The deposit paid will be credited against the first instalment of fees that are due to be paid.

G12.20 Deposits are non-refundable except where:

   a) acceptance of a place is cancelled within the stated cancellation period;

   b) the conditions of an offer of a place are not met and the College is unable to confirm a place on the course.

Self-funding home and EU fee status undergraduate students, including PGCE students.

G12.21 No payment of fees is required ahead of or at enrolment.

G12.22 Start of session (September) students will be invoiced for fees at the beginning of December and have until 31 January to make full payment. If preferred, payments can be made towards fees before 31 January.

G12.23 Mid-Session students who have enrolled part-way through the academic year on courses starting January or later will:
a) if enrolled on or before 17 January, have until 31 January to pay the full fee; 
or  
b) if enrolled after 17 January, have 14 days from the date of the invoice to pay the full fee.

G12.24 Where a student has enrolled late, part-way through the academic session, the College will notify the student of the applicable deadlines for payment.

Self-funding overseas fee status undergraduate students

G12.25 Fees are payable in two equal instalments. For start of session students (September) the first instalment is due for payment by 31 October, or 14 days from the date of the invoice, whichever is the latest, and the second instalment is due for payment by 31 January.

G12.26 Mid-session students who have enrolled part-way through the academic year on courses starting January or later will be offered the option of two equal instalments, with the first due 14 days from the date of the invoice and the second instalment due three months later.

G12.27 Where a student has enrolled late, part-way through the academic session, the College will notify the student of the applicable deadlines for payment.

Postgraduate students

G12.28 Fees are payable in two equal instalments on the same basis as for self-funding overseas (non-EU) fee status undergraduate students, as set out above.

G12.29 Students who receive postgraduate or doctoral loan funding direct are responsible for making payments to the College in the same way as self-funding postgraduate students.

Sponsored students

G12.30 For a student being partly or fully sponsored by an external corporate body agreeing to pay tuition fees, a valid sponsor letter should be provided on or before enrolment. The invoice will be sent directly to the sponsoring organisation. Payment of the invoice is due 28 days from the invoice date. A student sponsored by a friend or relative will be regarded as responsible for their own fees. In the event of non-payment of part or all fees by the sponsoring organisation, the outstanding amount will be invoiced to the student and be payable within 14 days. For a student receiving part funding of tuition fees from a sponsor, the part that is self-funded will be invoiced to the student in the same way as for other self-funding students.
Where the College is informed directly by Student Finance England and/or the NHS of approved funding, the relevant body will be invoiced directly for payment. Any balance of fees not covered by such funding will invoiced to the student and payable under the terms set out under “Self-funding home and EU undergraduate students” above.

King’s Foundations’ students

Deposits and tuition fees payable by King’s Foundations’ students are due in accordance with the King’s Foundations Pre-Sessional Payment Terms.

In the event of withdrawal from the course, the student will normally still be liable for the full balance of the programme fees.

For King’s Online Managed Programmes

The Academic Regulations G12.34-G12.38 have been amended with effect from 1 December 2020 and will apply to all King’s Online programmes and modules starting 12 January 2021. Students must observe the earlier deadlines introduced to accompany these regulatory changes.

A student who fails to pay the tuition fee for a module will have their access to that module’s content restricted shortly after the due date for payment, and their registration on that module suspended. Access may be reinstated up to the 12th calendar day of the module if payment is received; otherwise, the student’s liability for the module will be cancelled. The student will retain access to any completed and paid modules in the King’s Online virtual learning environment until such time as they withdraw from the programme or otherwise complete their studies.

A student whose registration on a module is cancelled due to non-payment will not remain liable for the fees for that module.

Fees are payable on a modular basis. The first module fee is covered by the programme deposit, which must be received at least seven working days before the module start date. For subsequent modules, students will receive an invoice via email from the College showing the balance to be paid and instructions on how to make payment on the 1st day of the teaching period. Students are required to make payment by the 7th calendar day of the teaching period.

Due to the tight payment deadlines for King’s Online Managed Programmes, all invoices will be sent directly to the student. Third party sponsors will not be invoiced.

A student who withdraws will not be charged tuition fees for any future modules. Refunds will not be provided for modules already completed. Where a student withdraws part way through a module, a refund will only be made for
the fee for that module if the withdrawal takes place on or before the 8th teaching day. If the withdrawal takes place after the 8th teaching day, the fee will not be refunded.

Non-Award Short Credit Bearing Courses

Self-funded students

G12.39 Payment must be made to the university in full up front before the student is permitted to enrol. The preferred method of payment is by debit or credit card through the college online payment site www.kcl.ac.uk/feepay

Sponsored students

G12.40 For a student being partly or fully sponsored by an external corporate body agreeing to pay tuition fees, a valid sponsor letter should be provided before enrolment. The invoice will be sent directly to the sponsoring organisation. Payment of the invoice is due 30 days from the invoice date. A student sponsored by a friend or relative will be regarded as responsible for their own fees. In the event of non-payment of part or all fees by the sponsoring organisation, the outstanding amount will be invoiced to the student and be payable within 7 days. For a student receiving part funding of tuition fees from a sponsor, the part that is self-funded must be paid prior to enrolment.

G13 Students must comply with the Academic Policy on attendance.

G13.1 Students must attend lectures, classes and tutorials, and departmental examinations to the satisfaction of the Faculty. If a student is absent from College through illness, a medical certificate may be required. Students who are absent from an examination or unable to meet an assessment deadline due to illness or other good cause must comply with the Mitigating Circumstances Procedure. Absence through illness, for students following a programme of study leading to a professional qualification, must also be reported immediately to the appropriate supervisor. If the illness is prolonged or infectious, a certificate of fitness to return should be submitted before the student’s return to College.

G13.2 Students sponsored under Tier 4 whose attendance is deemed unsatisfactory or whose continued participation is not required for a period of 60 days or more will be reported to UK Visas and Immigration (UKVI) in accordance with the College’s sponsorship licence duties. This will typically result in curtailment of the Tier 4 visa and require the student to make immediate arrangements to return to their home country.

G19 Students may apply for Personalised Assessment Arrangements.

No appendix

Useful links
Examination periods and timetable
The College has the authority to confer and revoke awards under the Charter and Statutes of King’s College London. All awards have regard to the provisions of the QAA UK Quality Code for Higher Education.

Conferment and Revocation of Awards

G20.1 Academic Board has the authority to award and revoke any degree, diploma, certificate or other award granted by the College in accordance with the Charter and Statutes of King’s College London.

Conferment

G20.2 Assessment Sub-Boards, the Research Degrees Examination Board and the Academic Standards Sub-Committee are the sole bodies having delegated authority to recommend the conferment of the awards for which they are responsible.

Revocation

G20.3 Award type, award title or classification can be revoked and reissued, or an award can be revoked in its entirety under the following conditions:

a) when there is satisfactory proof that there was an administrative error in the award made;

b) when, subsequent to award, an Assessment Sub-Board takes into account information which was unavailable at the time its original decision was made;

c) following a recommendation or ruling by the Misconduct Committee or by an Inquiry Panel established to investigate allegations of research misconduct; or

d) where a student has completed a programme at the College and wishes to join the next level of the programme within two years (see Recognition of previous experience G7).

Awards

G20.4 Awards must have regard to the provisions of the QAA UK Quality code for higher education and meet the following requirements:
Undergraduate Certificates (level 4)

G20.5 An Undergraduate Certificate is the equivalent of one year’s study of an undergraduate degree at level 4.

Undergraduate Diplomas and Foundation Degrees (level 5)

G20.6 An academically coherent programme of study, followed over a period of time, equivalent to two years full-time, which is designed to ensure:

a) a critical understanding of the concepts and principles of the area of study and the way in which these have developed;

b) a knowledge of the main methods of enquiry in the area of study and an ability to evaluate their application; and

c) an ability to apply underlying concepts and principles within a wider context;

In addition for Foundation Degrees:

d) the acquisition of skills relevant to employment.

G20.7 The achievement of a satisfactory overall standard of assessment which would assess students’:

a) command of an appropriate body of skills and knowledge;

b) ability to use a range of techniques to analyse information and propose solutions to problems, especially within a work context;

c) ability to communicate effectively information, arguments and analysis; and

d) ability to undertake further training to develop existing knowledge and skills.

In addition for Foundation Degrees:

e) ability to progress to the final stage of an appropriate first degree programme awarded with honours either directly or, where the nature of the programme for the Foundation degree and/or the first degree makes it appropriate, after further bridging study.

First degrees (levels 6 and 7)

G20.8 An academically coherent programme of study, followed over a period of time
equivalent to three years full-time (which includes Intercalated Degrees where a one year programme of study builds on a two year programme of basic medical, dental or veterinary sciences in the UK, EU or EFTA), or longer where appropriate to the degree and/or subject concerned, which is designed to ensure:

a) academic progress in terms of depth of study;

b) ability to study at an advanced level, to assimilate, assess, interpret and apply information and to communicate effectively.

G20.9 The achievement of a satisfactory overall standard in a scheme of assessment which tests students’:

a) command of an appropriate body of knowledge and skills;

b) familiarity and ability to deal with the methodologies appropriate to the discipline(s) concerned;

c) capacity for independent and critical thought.

G20.10 Additional criteria are specified for some first degrees as listed below.

Bachelor of Engineering

G20.11 The programme of study shall give emphasis to preparation for professional practice. It shall provide the necessary understanding of the scientific basis of engineering and include a substantial engineering applications component as an integrated part of the programme, together with some appreciation of the industrial and business environment (i.e. ‘enhanced’ courses in Engineering Council terms).

Bachelor of Dental Surgery; Bachelor of Medicine, Bachelor of Surgery; All Nursing, Midwifery and Specialist Community and Public Health programmes with/leading to registration; First Degrees in Health Sciences which are regulated by Act of Parliament.

G20.12 These degrees shall be taught in accordance with curricula that meet the requirements of the relevant Registering Body (General Dental Council, General Medical Council, Nursing and Midwifery Council and Health Professions Council). BDS and MBBS degree programmes shall involve not less than 56 months of full-time study, at least the final 33 months of which shall have been undertaken while registered at a College of the University of London except:

a) in the case of BDS and MBBS degree courses which are integrated into a combined programme with a BSc or BMedSci degree and a PhD degree, the overall length of the combined programme shall not be less than 93 months of which the final 57 months must be spent at a College
of the University of London; and

b) in the case of the accelerated Graduate Entry Programme for the MBBS degrees, when the overall length of the programme shall be not less than 45 months, of which the final 33 months must be spent at a College of the University of London.

**Master in Science (MSci)**

G20.13 The programme of study shall be followed over a period of time equivalent to four years full-time. It shall include a major project and provide a sound basis for a subsequent scientific or technically-based career or research.

**Master of Engineering**

G20.14 The programme of study shall be followed over a period of time equivalent to four years full-time, of which not less than three academic years and two semesters shall be full-time College based study (which may include a year at another institution of university status), and shall satisfy one or more of the following criteria:

- **a)** provide for study of a particular engineering discipline in greater depth than the Bachelor of Engineering;
- **b)** provide for multi-disciplinary study of a range of engineering disciplines;
- **c)** provide for study of a particular engineering discipline in depth and incorporate a significant proportion of industrial and business studies as an integral part of the curriculum;

Together with all of the following criteria:

- **a)** include the teaching of design through the use of project work and case studies, preferably in an industrial context;
- **b)** include a major project;
- **c)** demand a level of study and attainment which is equivalent to that required for a postgraduate taught degree.

**Master of Pharmacy**

G20.15 The programme of study, taught in accordance with curricula that meet the requirements of the Royal Pharmaceutical Society of Great Britain, shall be followed over a period equivalent to four academic years full-time and shall provide for the study of two or more elective disciplines and shall include a major research project.
Graduate Certificates and Graduate Diplomas (level 6)

G20.16 Both the Graduate Certificate and the Graduate Diploma are at level 6. Graduate Certificates are normally the equivalent of four months full-time study and Graduate Diplomas normally the equivalent of eight months full-time study.

Postgraduate Certificates (level 7)

G20.17 Postgraduate Certificates are normally the equivalent of a minimum of one third of a calendar year of full-time study.

Postgraduate Diplomas (level 7)

G20.18 Postgraduate Diplomas are normally the equivalent of a minimum of two thirds of a calendar year of full-time study.

Postgraduate or Professional Graduate Certificate in Education

G20.19 The Professional Graduate Certificate in Education is at level 6 and the Postgraduate Certificate in Education is at level 7.

Postgraduate taught degrees (level 7)

G20.20 A prescribed programme of study beyond the standard first degree level which assumes the general level of educational competence implicit in the award of a first degree and which extends over a period equivalent to a minimum of one calendar year full-time. This may include programmes of study which are ‘conversion courses’ where graduates in one discipline acquire knowledge and develop a set of skills in another discipline.

G20.21 The programme of study should include as a core element of the programme a research project in a form appropriate to the discipline concerned. At least some part of the curriculum should be concerned with research methods including awareness of ethical issues and, where relevant, health and safety matters. King’s Online Managed Programmes may choose not to offer a dissertation or research project.

G20.22 A satisfactory overall standard in a scheme of assessment appropriate to the Masters programme concerned.

G20.23 Additional criteria are specified for some postgraduate taught degrees as listed below.

Master of Clinical Dentistry

G20.24 A prescribed programme of study of a minimum of two calendar years full-time or its equivalent in part-time study. The programme of study shall include
academic and clinical elements, the latter element providing a major component towards specialist training in a designated clinical dental discipline.

Master of Public Health

G20.25 During the programme of study a student must work as a public health professional in an international, national or local government agency, in a non-governmental or charitable organisation concerned with public health, or in a community or public health environment, or in a university Department concerned with community or public health.

Master of Research

G20.26 The programme of study shall:

a) be a free-standing and formally examined prescribed programme of full-time study beyond the bachelor degree level of at least one calendar year or its equivalent in part-time study;

b) provide a structured and progressive research training programme which is an adequate foundation for doctoral study or a research career in industry or the public sector;

c) include a grounding in research techniques relevant to the broad disciplinary area. At least one core module should be concerned with research methods including awareness of ethical issues and, where relevant, health and safety matters;

d) include a significant research component, which enables the student to demonstrate initiative and creativity and is assessed by means of a written report. The research component should form a significant proportion (at least 75 credits) of the whole programme and must be greater than the research dissertation for MA/MSc awards in the same discipline;

e) include elements designed to broaden students’ experiences by equipping them with a range of transferable skills.

Research degrees (level 8)

G21 Except under the provisions of an academic appeal, no decision of a properly convened and constituted Assessment Sub-Board, acting within its terms of reference and within the regulations governing the degree may be modified.

No appendix

Useful links
Boards and Awards
G22 Once awarded a student may not register for the same qualification in the same subject but may register for the same qualification in a different subject provided that the procedures for enrolment are met, modules previously taken are not reattempted and overlapping modules are not taken.

G22.1 Modules which have been previously taken, or modules which are deemed to be overlapping include those in which a student achieved a pass mark, a fail mark or a condoned fail mark and those that a student failed at the first attempt or after reassessment.

Supplementary programmes

G22.2 Subject to the regulations for the qualification in question, a student who has already been awarded a qualification may, with the approval of the Academic Board, register for a supplementary programme of study under the regulations for that same qualification and may enter the corresponding examination after a period of study which will be prescribed in each case.

G22.3 Students who complete a supplementary programme of study and pass the corresponding examination will be provided by the College with a statement which will include the following information:

a) name of student  
b) qualification already obtained  
c) period of supplementary study  
d) standard of honours or other mark of distinction attained (where appropriate)  
e) examinations passed  
f) marks awarded

Academic appeals (T44)
G26 The Principal has emergency powers to exclude or suspend a student pending the outcome of a misconduct hearing, a fitness to practise hearing, a criminal charge or who is the subject of a police investigation. These powers also extend to a student who has breached the College’s policy statements on health, safety and environmental protection and/or is considered a danger to others.

Emergency powers to suspend and exclude

G26.1 A student who is the subject of a misconduct complaint, has a pending Fitness for Practice Committee, or who is the subject of police investigation or criminal proceedings, may be suspended or excluded by the Principal pending the outcome of the investigation, the Committee or the trial. A student may also be suspended or excluded on health and safety grounds, or where they are considered a danger to other members of the King’s community.

G26.2 Failure to comply with the terms of a suspension or exclusion is an offence of student conduct under Academic Regulation G27.

G26.3 The Principal may delegate the emergency powers to a Vice-Principal, who will be responsible for reporting any suspensions or exclusions.

G26.4 Exclusion is selective restriction on attendance at or access to, the College and on participation in College activities. Suspension is a total prohibition on attendance at, or access to, the College and on participation in College activities. It may be subject to conditions, such as permission to attend an examination. A suspension will only be used where an exclusion is deemed to be inadequate.

G26.5 The terms of a suspension or exclusion may include a No Contact Agreement, requiring the student to have no contact with a named person or persons.

G26.6 Suspensions and exclusions are not penalties; the Principal will only impose such measures when it is urgent and necessary to do so. Written reasons for the decision will be recorded and made available to the student in the letter of suspension.

G26.7 Suspensions and exclusions shall normally start with immediate effect. The reasons for the decision will be communicated to the student in writing, as well as information about their right to submit representations against it. Representations must be submitted within five working days of the suspension or exclusion and will normally be reviewed within a further five working days.
Should the suspension or exclusion remain in place, the Head of Student Conduct and Appeals (or nominee) and a Vice-Principal will review the suspension or exclusion every 28 days, in the light of any developments, or of any representations made by the student. Reviews of suspensions and exclusions will not involve hearings or meetings.

G27 Students are expected to maintain good conduct at all times whilst on College premises or engaged in College activities. Failure to do so is considered misconduct.

Misconduct

G27.1 As members of the King’s community, students are expected to adhere to the regulations, procedures and policies of the College, to show respect for the persons within and for the property of the King’s community, and to behave in a way that does not interfere with the proper functioning or activities of the College. Where there is reason to believe that the behaviour of a student falls below the expected standards set out in the guidance (see useful links below), and/or where regulations, procedures, and/or policies have been broken, the Misconduct Procedure will be instigated. This appendix extends to alleged misconduct by a student occurring on College premises or off College premises (including via electronic means, such as email and social media) where the alleged victim is the College itself, a member of the King’s community, or a visitor to King’s or to alleged misconduct occurring during College activities (including on placements and field trips).

G27.2 Current students should inform their Faculty of registration of any breaches of the law during their programme of study which fall within the category of those required to be disclosed at admission. Where a specific breach of the law would render the student ineligible for continuing on their programme of study, the student’s registration will be terminated without notice under Academic Regulation G25.

G27.3 Failure to comply with the conduct outlined in Academic Regulation G27.1 above results in action being taken under this Regulation (G27).

Representation

G27.4 A student facing a charge of misconduct may be represented at any point in the proceedings by another College member or by a member of the King’s College London Students’ Union or, where the student is registered on a programme with professional registration, a member of their professional organisation.

G27.5 Additionally, the student may be accompanied by a family member or a friend who will not be able to speak on the student’s behalf, unless this is a reasonable adjustment, such as a sign language communicator or interpreter.
G27.6 If the student is to be represented or accompanied, the name of the person attending must be received in writing by the Head of Student Conduct and Appeals (HoSCA) at least 48 hours in advance of the Committee. The Chair of the relevant Committee has the discretion to refuse to permit a representative or friend or family member to attend where prior written notice has not been given.

G27.7 If a student wishes to be represented by an individual not listed above, they should make representations to the Chair of the relevant Committee. The relevant Chair has the absolute discretion to accept or reject an application for alternative representation and their decision will be final.

Misconduct Procedure

G27.8 There will be a presumption of innocence until a case has been fully considered.

G27.9 The College will do all in its power to limit the disclosure of information whilst conducting an investigation, in accordance with the Human Rights Act 1998, the General Data Protection Regulations, the Freedom of Information Act 2000, and any other relevant legislation.

G27.10 The College may take safeguarding steps to ensure the fairness of an investigation, and to ensure the safety of all members of the King’s community, including, but not limited to No Contact Agreements.

G27.11 Proceedings are not invalidated or postponed due to the absence of the student, provided that the student has been given timely written notice of the Committee and provided that those conducting the Committee believe that all the evidence and representations are before it. In the event that a student has indicated they will attend but then cannot do so for good reason an adjournment may be considered.

G27.12 Where any stakeholder believes that misconduct may have been committed by a student of the College, they should notify the HoSCA in writing as soon as possible. Allegations of research misconduct will be considered in accordance with the procedures for investigating and resolving allegations of research misconduct.

Collaborative Provision

G27.13 Where a student is registered on an intercollegiate module the College will notify the Home Institution under that agreement that it has instigated misconduct proceedings against the student.

G27.14 All cases of academic misconduct will be dealt with under the relevant procedure for the institution with responsibility for delivering that module.

G27.15 In cases of non-academic misconduct the following will apply;
(a) where the College is the Host Institution it may deal with the misconduct under these regulations if the misconduct took place on College premises and falls within the scope of these regulations. However, the Home Institution may conduct a further review under its procedures if the College removes the student from the intercollegiate module. This review cannot change the outcome that the student has been removed from the intercollegiate module.

(b) where the College is the Home Institution it shall not conduct a misconduct investigation if it took place at the Host Institution’s premises. However, it will do so if the misconduct took place at any other location which falls within the scope of these regulations.

(c) where the Host Institution has conducted an investigation under its procedures the College will have the right to conduct a review under these regulations where a student has been removed from the programme. However, the college will not be able to reinstate the student on the intercollegiate module at the Host Institution. The HoSCA will conduct a review to decide whether any further action is necessary under these regulations.

Duty to make Reasonable Adjustments

G27.16 The College will take into consideration its duties under the Equality Act 2010 and make reasonable adjustments for disabled students under these regulations. This includes taking into consideration requests for reasonable adjustments to these processes. If a student states the behaviour giving rise to the disciplinary concern is related to their disability, the College may consider carefully whether to proceed with disciplinary action under these regulations, or to refer the student to support under other regulations, policies and procedures.

Non-Assessment related Misconduct

Investigating an allegation of misconduct

G27.17 On receipt of an allegation of misconduct, the HoSCA will conduct a preliminary enquiry. It may be deemed necessary to conduct an interview with the student(s) against whom the allegation has been made and the student(s) will be required to attend. However, a student will not be obliged to make a statement or give any explanation.

G27.18 On completion of the preliminary enquiry the HoSCA will determine, normally within 14 days, whether:

a) there is insufficient evidence to form the basis of a charge of misconduct; or
b) there is sufficient evidence to form the basis of a charge of minor misconduct; or

c) there is sufficient evidence to form the basis of a charge of major misconduct.

G27.19 The College defines major misconduct as an offence which is sufficiently serious enough that it calls into question the student’s registration. Instances of major misconduct may also include, but are not limited to, repeated or persistent minor offences, multiple concurrent minor offences or refusal to comply with a penalty imposed under this regulation.

G27.20 In all cases where the gravity of the offence appears to warrant it, or the appropriate penalty may be beyond the limit for a minor offence, the HoSCA may refer a case to a Misconduct Committee.

G27.21 If the HoSCA determines there is insufficient evidence to form the basis of a charge of misconduct, that decision will be sent to the student.

G27.22 If the HoSCA determines that there is sufficient evidence to form the basis of a charge of misconduct which constitutes a minor infringement, the HoSCA may, at their discretion, issue a penalty to the student detailing the allegations that have been made, informing the student that no further formal action will be taken but that a record of the offence and penalty shall be placed on the student’s file. The student can contest the allegations and penalty within 5 working days, in which case the HoSCA will refer the matter to a Misconduct Committee.

G27.23 If the HoSCA determines that there is sufficient evidence to form the basis of a charge of misconduct which constitutes a major infringement, the matter will be referred to a Misconduct Committee.

G27.24 Where an allegation of misconduct is referred to a Misconduct Committee, the HoSCA will act as the College Representative to present the case to a Misconduct Committee.

G27.25 The FAB may be instructed by the HoSCA to not issue the student with a final award whilst action is being taken under this Regulation. This restriction will be lifted upon completion of the action.

Misconduct which is also a criminal offence

G27.26 Where the alleged misconduct could also constitute an offence under the criminal law special provisions will apply and the College’s own misconduct investigations or proceedings may be delayed until such time as the police and/or courts have completed their investigations and proceedings.
G27.27 Students following a programme of study where it is a requirement to undergo a Disclosure and Barring Service check as a condition of enrolment are required to notify the Faculty, in writing, of any criminal convictions subsequently imposed.

G27.28 Students imprisoned for a period of 21 days or more will be automatically withdrawn from the College. Any such students will have the right to submit written representations to the HoSCA against this decision, within 21 days of the date of notification of the decision to withdraw. Representations received after this deadline will only be accepted at the discretion of the HoSCA.

Assessment related Misconduct

G27.29 On receipt of an allegation of misconduct the Faculty, normally the Assessment Sub-Board Chair, will review whether it is a case which can be dealt with via the Local Academic Misconduct Procedure (LAMP). The Faculty will follow the process as outlined in the College Guidance for Staff on Academic Honesty and Integrity (known as the Local Academic Misconduct Procedure) Where it is deemed that the outcomes within LAMP are not suitable, the matter will be referred to HoSCA who will report this to the Misconduct Committee. Where it is determined under LAMP these are the possible outcomes:

a) it is not a case of assessment related misconduct in which case no further action will be taken;

b) the student has committed poor academic practice rather than misconduct;

c) the student has committed academic misconduct; or

d) the student or the Assessment Sub-Board Chair requests that the matter be referred to HoSCA who will report this to the Misconduct Committee.

G27.30 HoSCA may issue a written warning for assessment related misconduct which takes place during formal written examinations. The student can contest the allegations and penalty within 5 working days, in which case the HoSCA will refer the matter to a Misconduct Committee.

G27.31 Any material presented for assessment may be submitted to a plagiarism and collusion detection service for text analysis and the findings considered as part of an investigation under this regulation. Submitted work will be stored in a database (along with the student’s name, email address, programme/module details and institution) and will form part of the body of student work against which future submissions from this and other institutions will be compared.

G27.32 The mark for any assessment being considered for action under this Regulation
may be withheld pending the conclusion of any action.

Misconduct Committee

Misconduct Committee procedure

G27.33 Written notice of the Committee date, including the names of the Committee members, the College Representative and the College witnesses, together with all documentary evidence, including copies of witness statements, will normally be sent to the student at least 10 working days before the Committee date.

G27.34 The student may present documentary material or witnesses in their defence or mitigation. Documentary evidence for consideration by the Misconduct Committee, and/or the names of any additional witnesses and written copies of their evidence, must be sent to the HoSCA at least seven days in advance of the Committee. This evidence will be sent to the Committee by the HoSCA. Documentary evidence and/or witnesses received after this deadline will only be accepted at the discretion of the Chair of the Committee.

G27.35 The Chair has the discretion to adjourn the Committee where the above time frames have not been met. It is the student’s responsibility to invite any witnesses they wish to attend, to ensure that witnesses can attend, and to provide them with any documentation. The Committee will not normally be adjourned due to the unavailability of a witness, and any decision to adjourn is the sole discretion of the Chair.

G27.36 The student facing the charge will have the right to be present during the Committee except if the Committee requires private discussions where only the Committee and the Clerk will be present.

G27.37 The College Representative will present the charge and evidence gathered to the Committee. The student facing the charge (or their representative) will be invited to reply. Either party may call witnesses to the fact.

G27.38 The Committee may ask questions of all those called before it, and the College Representative and the student may raise questions through the Chair.

G27.39 At the conclusion of the presentations and questions, the student facing the allegation may address the Committee and make a statement.

G27.40 The Committee will deliberate in private and will normally reach a decision and outcome without adjournment.

G27.41 At any time during the proceedings, the Chair may adjourn the Committee for the purpose of reaching a decision, outcome, or for other good cause. The
Committee will ensure that any adjournment does not unreasonably delay the misconduct proceedings.

G27.42 A decision of the Committee will be reached by a majority vote of the members of the Committee present at the Committee but will be announced as a decision of the Committee. The votes of the individual Committee members will be treated as confidential. In the event of a tie, the Chair will have the casting vote.

Outcome of Misconduct Committee

G27.43 Should the Misconduct Committee decide that the charge was not established, that decision will be communicated to all persons involved in the case, normally within seven days of the date of the Committee.

G27.44 Where the Misconduct Committee determines that a charge of misconduct has been substantiated on the balance of probabilities the Committee may decide one or more of the following measures:

Assessment related misconduct

a) a formal warning, with the requirement that the examiners assess those parts of the student’s work that is unaffected by the offence;
b) a warning, with the requirement that the examiners assess those parts of the student’s work that is unaffected by the offence with the assessment/s capped at the pass mark;
c) the assignment of the minimum pass mark to a paper or papers, or assessed work, or both;
d) the cancellation of the results in an assessment/s and a mark of zero returned;
e) the cancellation of the results in an assessment/s and a mark of zero returned and any mark resulting from a resit capped at the condoned fail level (see glossary);
f) the cancellation of the results in an assessment/s and a mark of zero returned. The final module mark following reassessment is capped at the condoned fail level;
g) the cancellation of the results in an assessment/s and a mark of zero returned and the student not permitted to resit but permitted to take an alternative module (but with only one attempt at the assessment permitted);
h) the student’s right to re-register for the assessment/s withdrawn;
i) the student’s right to be considered for an exit award withdrawn;
j) the results for an assessment/s in a year or stage not to be considered by the relevant Faculty Assessment Board for a specified period of up to one calendar year;
k) conditions for the continuation of student status;
l) suspension for an indefinite period, with an agreed review date;
m) a recommendation to the Academic Board that the student’s award be revoked;
n) expulsion (with or without credit retained)

Any misconduct

o) a warning;
p) payment of compensation for damages;
q) conditions for the continuation of student status;
r) a no-contact order regarding one or more members of the King’s community
s) exclusion for a stated period from specified activities or specified parts of the College, conditions for re-admittance may be specified;
t) suspension for an indefinite period, with an agreed review date;
u) community service;
v) a fine, up to £1,000 payable to a charity (not being King’s College);
w) a recommendation to the Academic Board that the student’s award be revoked;
x) expulsion (with or without credit retained).

G27.45 The decision and outcome of the Committee will normally be sent to the student within five working days of the date of the decision of the Committee. For assessment-related offences, these will be communicated to the student, Assessment Board and Assessment Sub-Board Chairs, and where appropriate, to the relevant Executive Dean of Faculty. For non-assessment related offences, these will be communicated to the student, the relevant Executive Dean of Faculty, and other College officers as appropriate. A copy of the decision and outcome will be placed on the student’s file. A student will also be advised that the case may be taken into consideration in the event of a future substantiated offence.

G27.46 The Misconduct Committee may decide that the outcome be imposed immediately or be deferred. The conditions of any such deferment will be clearly stated as part of the decision of the Committee.

G27.47 The Misconduct Committee will have the discretion to indicate a point in the future, and the conditions under which, a substantiated allegation of misconduct may be considered spent.

G27.48 Where a student is following a programme of study leading to a professional qualification which is registrable with a statutory regulatory body the decision of the Committee will also be sent to the Executive Dean of Faculty for consideration in accordance with Academic Regulation G29.

G27.49 Where a student who has been found guilty of misconduct holds a professional qualification which is registrable with a professional, statutory or regulatory body, the College may report the student to that body under Academic
Regulation G29.

**Appeal**

G27.50  Students may appeal the decision of a Misconduct or Residences Disciplinary Panel on either or both of the following grounds:

a)  there is new evidence that could not have been, or for good reason was not, made available at the time of the Committee, and the case warrants further consideration;

b)  evidence can be produced of significant procedural error on the part of the College before or during the Committee, and the case warrants further consideration.

G27.51  The Principal will have the discretion to take into account grounds (including grounds of compassion) other than those stated above in deciding whether to allow an appeal to be heard.

G27.52  Students should submit a Misconduct Appeal Form to the HoSCA, on behalf of the Principal, within 14 days of the date of the Misconduct Committee outcome.  Misconduct Appeal Forms received after this deadline will only be accepted at the discretion of the Principal.

G27.53  The Principal will normally advise the student of their decision on the appeal within 30 working days of receipt.  If the appeal is to be heard, an Appeal Committee will be appointed.  If the appeal is rejected, reasons will be given.

**Appeal Committee procedure**

G27.54  Written notice of the Committee date will normally be sent to the student and College Representative/Assessment Board Representative, together with the names of the Committee members and all documentary evidence, at least 14 days before the Committee date.

G27.55  The student may present documentary evidence for consideration by the Committee.  This evidence must be sent to the HoSCA at least seven days in advance of the Committee.  This evidence will be sent to the Committee by the HoSCA.  Documentary evidence received after this deadline will only be accepted at the discretion of the Chair.

G27.56  The student facing the charge will have the right to be present during the Committee except if the Committee requires private discussions.  Only the Committee and the Clerk to the Committee will be entitled to be present at such times.

G27.57  The student making the appeal, or their representative, will present their case against the decision or outcome of the Misconduct Committee.
An Appeal Committee will consider the relevant documents and may call persons connected with the proceedings from which the appeal arises to address the Committee.

An Appeal Committee will normally reach its decision without adjournment but may adjourn for the purpose of reaching a decision. The Committee will ensure that any adjournment does not unreasonably delay the misconduct proceedings.

The decision of an Appeal Committee will be reached by a majority vote of the members of the Committee and will be announced as the decision of the Committee. The votes of individual Committee members will be treated as confidential. In the event of a tie, the Chair will have the casting vote.

Appeal Committee outcome

The decision and outcome of an Appeal Committee will normally be sent to the student within five working days of the date of the decision of the Appeal Committee. For assessment related offences, these will be communicated to the student, FAB and ASB Chairs, and where appropriate, to the relevant Executive Dean of Faculty. For non-assessment related offences, these will be communicated to the student, the relevant Executive Dean of Faculty, and other College officers as appropriate. A copy of the decision and outcome will be placed on the student’s file.

The Appeal Committee may reject or uphold the appeal. Where the Appeal Committee upholds the appeal, the Committee may order one or more of the following measures:

a) modify or reverse the findings of a Misconduct Committee or a Residences Disciplinary Panel;
b) modify or reverse the order of a Misconduct Committee or a Residences Disciplinary Panel.

Where an Appeal Committee rejects the appeal, the findings and decision of the Misconduct Committee stands.

A decision of an Appeal Committee will be final.

G28 A student’s registration may be terminated for failure to make sufficient academic progress.

Academic progress

G28.1 The College will ensure that students are fully aware of the possible consequences of failure to make sufficient academic progress.

G28.2 The College may remove any student for any of the following reasons:

a) inability to meet the programme requirements;

b) lack of industry, including poor attendance;

c) lack of ability or aptitude;

d) persistent failure to respond to College communications or instructions;

e) for any other good academic cause.

G28.3 Before removal, a student should normally receive a written warning specifying the improvements or actions to be undertaken within a specified timeframe and stating the consequences of not doing so. The student’s tutor or supervisor should also be consulted.

Appeals against removal on academic grounds

G28.4 It is expected that all parties involved in an academic appeal will act reasonably and fairly and treat the process in a respectful manner. If inappropriate behaviour is displayed, action may be taken.

G28.5 The College may pause or stop the consideration of any appeal submitted where the student is suspected to be in breach of Academic Regulation G27 or G29, and action should be taken under those regulations.

G28.6 If an appeal contains matters which fall under Academic Regulation G31, consideration of the appeal may be paused until the complaints process is complete. In such cases, the findings of the complaint investigation may be considered as evidence for the appeal.

G28.7 Students should submit a Progression Appeal Form within 10 working days of the final notification of removal. Appeals received after this deadline will only be accepted at the discretion of the Principal.
A student may appeal on either or both of the following grounds:

a) there is new information which could not have been provided to the Faculty at or before the time the decision to remove was taken, and sufficient evidence remains that the appeal warrants further consideration;

b) there is evidence of significant administrative or procedural error, including error relating to the written warning to the student and student compliance with the conditions of written notice, made at or before the time the decision to remove was taken, and sufficient evidence remains that the appeal warrants further consideration;

c) there are other grounds considered applicable by the Principal, including compassion.

The Principal will normally advise the student in writing of their decision on the appeal within 30 working days of receipt. If it is determined that an appeal should be heard, an Appeal Committee will be arranged, in accordance with the Appeal Committee Structure.

Duty to Make Reasonable Adjustments

In accordance with the Equality Act 2010 the College will consider any reasonable adjustments to these regulations to take into account the needs of individual students.

Representation

The student may be represented the Appeal Committee by another member of the College, a member of the student’s professional organisation (where applicable), or a member of the King’s College London Students’ Union (KCLSU).

Additionally, the student may be accompanied by a family member or a friend, who will not be able to speak on the student’s behalf, unless this is a reasonable adjustment, such as a sign language communicator or interpreter.

If the student is to be represented or accompanied, the name of the person who is to attend must be received in writing by the Head of Student Conduct and Appeals (HoSCA) at least 48 hours in advance of the Appeal Committee. The Chair of the Appeal Committee may accept or reject a request, and their decision will be final. The Chair may refuse to permit a representative, friend or family member to attend where 48 hours’ notice has not been received.
Written notice of the Appeal Committee will normally be sent to the student, together with the names of the Committee members and the Chair, and all documentary evidence, at least 10 working days before the Appeal Committee date. Any concerns regarding documentation or membership of the Committee should be raised in writing by the student at the earliest opportunity to the HoSCA.

New evidence that has not already been submitted as part of the appeal will not normally be considered by the Appeal Committee. Should either party wish to submit new evidence this must be done at least seven days before the Committee date. The Chair of the Appeal Committee may accept or reject new evidence, and their decision will be final.

The Appeal Committee shall consider the documentary evidence and invite the student and the Executive Dean of Faculty (or nominee) to give evidence. Other persons shall be asked to attend to give evidence if the Committee wishes.

The absence of the student or the Executive Dean of Faculty will not prevent the Appeal Committee from taking place nor invalidate the proceedings. In the event that a student has indicated they will attend but then cannot do so for good reason, an adjournment would generally be considered.

The Appeal Committee will determine whether there is sufficient reason to challenge the original decision to withdraw. If there is insufficient reason, the Appeal Committee can set aside the decision and replace it with one of its own, or it can refer the case back for fresh consideration with commentary. If there is insufficient reason, the appeal will be dismissed, and the original decision will stand.

The decision of the Appeal Committee shall normally be communicated in writing by the HoSCA to the student and Executive Dean of Faculty, within five working days of the decision of the Appeal Committee.

Students have no automatic right to continue with their studies or to progress to the next stage of their programme pending the outcome of an appeal; the Faculty may exercise their discretion to allow this attendance, if applicable and permitted by the programme regulations.

Removal of a student from an external environment

Students undertaking a placement or a period of study or practical training in an external working or educational environment have a responsibility to conform to the regulations, policies and expected standards of behaviour and competence of that external environment. Examples of such external environments may include, but are not limited to:

a) hospitals, GP clinics, dental surgeries and other NHS facilities;

b) Faculties;
c) UK or overseas HEIs;
d) offices and other industrial facilities;
e) teaching schools;
f) law courts;
g) health centres;
h) firms.

G28.22 A student undertaking a placement may be removed without notice from that environment by the supervisor/mentor within that environment or the College, where there are concerns with the student, or for any other reason. Examples of concerns may include, but are not limited to:

a) behaviour which is deemed offensive or unacceptable in the external environment;
b) behaviour or actions in breach of the regulations of the external environment;
c) behaviour which compromises the activities of the external environment;
d) a health condition which would render the student unsuitable or unsafe to continue in the external environment;
e) a level of competence which would compromise the professional standards of the external environment;
f) failure to observe health and safety requirements of the external environment;
g) behaviour which gives rise to concerns about the student’s fitness to practise.

G28.23 Where possible and appropriate, the College will arrange for the student to undertake an alternative placement, in accordance with the procedures and practice of the relevant Faculty.

G28.24 Where the removal is temporary or for a specified period, conditions may be placed on the student before re-entry to the external environment will be allowed. Such conditions may constitute a written warning.

G28.25 If the College considers the reasons for the removal would require a misconduct investigation under Academic Regulation G27 or a fitness to practise investigation under Academic regulation G29, the student’s removal from the external environment will be temporary, pending the outcome of the proceedings. The student may attend classes and sit assessments that are not in the external environment during this period. As part of its outcome, the Committee will confirm the status of the student’s removal from the external environment.
environment; if this is permanent and the student will be unable to complete their programme of study, their registration will be terminated.

Last reviewed: May 2020
Updates approved: ASSC May 2020, AB June 2020
G29 A student’s registration may be terminated as a result of a fitness for registration and fitness to practise hearing. When conferring awards which lead to professional qualifications registerable with a Professional, Statutory and Regulatory Body, the College must be satisfied that the student would be a safe and suitable entrant to the given profession, and as such would be fit for registration and fit to practise.

Fitness for registration and fitness to practise

G29.1 The College has responsibility in respect of students who are following a programme of study leading to a professional qualification which is registrable with a statutory regulatory body.

G29.2 In addition to conferring the appropriate qualification, the College must be satisfied that the student would be a safe and suitable entrant to the given profession, and thus would be fit for registration and fit to practise.

G29.3 This appendix is specific to students following a programme of study leading to the following professional qualifications:

a) all programmes in Midwifery with registration
b) all programmes in Nursing with registration
c) BSc Nutrition and Dietetics
d) BSc Physiotherapy
e) MSc Physiotherapy
f) MBBS
g) BDS
h) PGDip Dietetics
i) MSc Dietetics
j) PGCE Postgraduate Certificate in Education
k) PCE Professional Graduate Certificate in Education
l) MPharm
m) DClinPsych
n) BSc Dental Therapy Hygiene.

G29.4 This appendix does not apply to students who already hold a professional qualification which is registrable with a professional, statutory or regulatory body, unless they are also following a programme of study leading to one of the professional qualifications listed above. However, nothing in these regulations shall prevent the College from informing a professional, statutory or regulatory body about a student who is already registered with that body, where:
a) the student has been found guilty of misconduct by a Misconduct Committee under Academic Regulation G27; or

b) the student demonstrates behaviour and/or health issues which do not constitute misconduct under Academic Regulation G27, but raise issues of their fitness for registration and to practise; and

c) there is a legal obligation to inform the professional, statutory or regulatory body about the matters covered by (a) and (b), or in the judgment of the College it would be in the public interest to do so.

Foundation Year One

G29.5 This appendix also applies to MBBS graduates of the College during their Foundation Year One training, as the College is responsible for ensuring that such graduates are following an approved training programme and for certifying successful completion of this training programme. This certification entitles full registration with the General Medical Council. As such, for the purpose of this appendix, the term ‘student’ shall include Foundation Year One students and for the purpose of this appendix, the term ‘programme of study’ shall include the Foundation Year One training.

Definition and remit

G29.6 A student shall be deemed to be unfit for registration and to practise if found by the Fitness to Practise Committee to demonstrate any health condition, behaviour or attitude which would render that student a person not fit to be admitted to and practise the given profession.

G29.7 Failings in academic performance, however, fall within the remit of Academic Regulations G28.

G29.8 A student undertaking a placement or a period of study or practical training in an external working or educational environment may be removed from this, under Academic Regulations G28, pending an investigation in accordance with this appendix.

G29.9 If an investigation has begun under this Regulation during a student’s registration with the College, it shall be concluded regardless of whether the student withdraws from the College

G29.10 Where a matter that may be considered under this Regulation could also constitute an offence under the criminal law, the College’s own consideration or proceedings may be delayed until such time as the police and/or courts have completed their investigations and proceedings.

G29.11 The Assessment Board may be instructed by the HoSCA to not issue the
student with a final award whilst action is being taken under this Regulation. This restriction will be lifted upon completion of the action.

Representation

G29.12 A student facing an allegation of being unfit for registration and to practise may be represented at any point in the proceedings by another College member or by a member of the King’s College London Students’ Union or a member of the student’s professional organisation (where applicable).

G29.13 Additionally, the student may be accompanied by a family member or a friend who will not be able to speak on the student’s behalf, unless this is a reasonable adjustment, such as a sign language communicator or interpreter.

G29.14 If the student is to be represented or accompanied the name of the person who is to attend must be received in writing by the Head of Student Conduct and Appeals (HoSCA) at least 48 hours in advance of the Committee. The Fitness to Practise Committee or Appeal Committee has the discretion to refuse to permit a representative or friend or family member to attend where prior written notice has not been given.

G29.15 If a student wishes to be represented by an individual not listed above, they should make representations to the Chair of the Fitness to Practise Committee or Appeal Committee. The Chair has the absolute discretion to accept or reject an application for alternative representation and their decision will be final.

Duty to Make Reasonable Adjustments

G29.16 In accordance with the Equality Act 2010 the College will consider any reasonable adjustments to these regulations to take into account the needs of individual students.

Confidentiality

G29.17 The College will do all in its power to limit the disclosure of information as is consistent with conducting an investigation and the provisions of the Human Rights Act, the General Data Protection Regulation, the Freedom of Information Act and any other relevant legislation.

G29.18 None of the proceedings will be invalidated or postponed by reason of absence, provided that both the student against whom a case has been made and the Executive Dean of Faculty bringing the case have been sent written notice of the Committee and provided that those conducting the Committee believe that all the evidence and representations are before it. In the event that a student has indicated that they will attend but then cannot do so for good reason, an adjournment would generally be considered.
Faculty Fitness to Practise Procedure

G29.19 Where a Faculty has concerns about a student’s fitness for registration and to practise they shall investigate internally in accordance with the Faculty’s fitness to practise procedures.

G29.20 A Faculty’s fitness to practise procedures will make one of the following decisions:

a) no further action be taken;

b) appropriate remedial action or supportive measures be taken by the student with a date for review including suspension of the student from studies if deemed appropriate; or

c) the case be referred for consideration by a Fitness to Practise Committee.

G29.21 Where a case is referred for consideration by the Fitness to Practise Committee, the Faculty shall notify the HoSCA in writing as soon as possible.

G29.22 A student may not contest a decision under G29.18 that a) there is no case to answer or c) that the case be referred for consideration by the Fitness to Practise Committee. However, a student may contest under b) any remedial action or supportive measures or other decision of the Faculty under b). The student must contest the Faculty decision within 5 working days in which case the HoSCA will refer the matter to Fitness to Practise Committee.

G29.23 In the event of failure to agree to remedial action or supportive measures, imposed in accordance with the Faculty’s fitness to practise procedures, the Faculty may also refer the case for consideration by the Fitness to Practise Committee, the Faculty shall notify the HoSCA in writing as soon as possible.

Referral to the Fitness to Practise Committee

G29.24 There are two routes of referral to the Fitness to Practise Committee:

Misconduct: where a student faces an allegation of misconduct under the terms of Academic Regulation G27, the case shall be considered by the Misconduct Committee. Where such a student is found guilty of misconduct, the findings of the committee shall be notified to the appropriate Executive Dean of Faculty. The Faculty shall consider the findings, in accordance with the Faculty’s fitness to practise procedures, to determine whether the case should be referred to the HoSCA for consideration by the Fitness to Practise Committee. Where a Fitness to Practise issue is present within a Misconduct Case, the HoSCA will notify the Faculty as soon as possible in order to allow the Faculty to determine
whether any precautionary action should be taken.

**Other matters justifying referral:** where a student demonstrates behaviour and/or health issues which do not constitute misconduct under Academic Regulation G27 but raise issues of fitness for registration and practise, the Faculty shall investigate internally, in accordance with the Faculty’s fitness to practise procedures, and determine whether the case should be referred to the HoSCA for consideration by the Fitness to Practise Committee. Where the Faculty determines that a case should be referred for consideration by the Fitness to Practise Committee, the Faculty shall notify the HoSCA in writing as soon as possible.

G29.25 Upon receiving notification from the Executive Dean of Faculty (or their nominee), the HoSCA shall convene a meeting of the Fitness to Practise Committee.

G29.26 Where a case is referred to the HoSCA and the student is appealing the findings of the Misconduct Committee, the Fitness to Practise Committee will be paused until the misconduct process, in accordance with Academic Regulation G27, is complete.

**Fitness to Practise Committee procedure**

G29.27 Written notice of the hearing date will normally be sent to the student and Executive Dean of the Faculty, together with the names of the Committee members, any witnesses, and all documentary evidence, at least 14 days before the Committee date.

G29.28 The decision of a Misconduct Committee cannot be challenged.

G29.29 The student may present documentary evidence or witnesses in their defence or mitigation. Documentary evidence for consideration by the Committee and/or the names of any witnesses and written copies of their evidence, must be sent to the HoSCA at least seven days in advance of the Committee. This evidence will be sent immediately to the Committee and Executive Dean of Faculty by the HoSCA. Documentary evidence and/or witnesses received after this deadline will only be accepted at the discretion of the Chair of the Committee.

G29.30 The Executive Dean of Faculty (or nominee) will present the Faculty’s case to the Committee. The student (or their representative) will be invited to reply. Both parties may call witnesses and present documentary evidence, provided that any such evidence or the names of witnesses had previously been received and circulated by the HoSCA.

G29.31 The Committee may also call upon other persons (whether members of the College or not) to provide advice on specific aspects of the case, either in person
or in writing, provided that the names of any such persons have previously been made available to all parties.

G29.32 The Committee may ask questions of all those called before it. The representative of the Faculty and the student may raise questions through the Chair.

G29.33 At the conclusion of the Faculty representative and student’s presentations and questions, the student may address the Committee and make a statement.

G29.34 The Committee may, at its discretion, at any time during the proceedings have a private discussion where only the Committee and the Clerk will be present.

G29.35 The Committee will consider its decision in private and will normally reach a decision and outcome without adjournment.

G29.36 At any time during the proceedings, the Chair may adjourn the Committee, for the purpose of reaching a decision, outcome, or for other good cause. The Committee will ensure that any adjournment does not unreasonably delay the proceedings.

G29.37 A decision of the Committee will be reached by a majority vote of the Committee members but will be announced as a decision of the Committee. The votes of the individual Committee members will be treated as confidential. In the event of a tie, the Chair will have the casting vote.

G29.38 The decision of the Committee will normally be sent, to the student and the Executive Dean of Faculty, within five working days of the date of the decision of the Committee. Where a student has been found unfit for registration and practise, the relevant regulatory body will be informed.

Outcome of Fitness to Practise Committee

G29.39 Based on the previously determined findings and the evidence submitted to the Committee, the Committee is required to reach one of the following decisions:

a) that the student is unfit for registration and practise;

b) that the student is fit for registration and practise.

G29.40 A student shall be presumed to be ‘fit’ unless ‘unfitness’ can be proven to the satisfaction of the Committee.

G29.41 Where the Committee finds that the student is unfit for registration and to practise, it will make one of the following decisions:

a) that the student’s registration on the programme of study be terminated;
b) that the student should undergo medical treatment or other appropriate remedial action, during which the student may be suspended. In such cases a time limit must be specified, and continuation on the programme shall be at the discretion of the Executive Dean of Faculty and the Chair of the Fitness to Practise Committee. Where the student is not permitted to continue, their registration on the programme of study will be terminated.

G29.42 Where the Committee finds that the student is fit for registration and to practise, no further action will be taken.

G29.43 If a University Fitness to Practise Committee determines that a student is not fit to practise, the student’s details will be added to the relevant regulatory body’s ‘Excluded Students’ database where one is in place.

Appeal

G29.44 Students may appeal the decision of the Committee on either or both of the following grounds:

a) there is new evidence, that could not have been, or for good reason was not, made available at the time of the Committee, and sufficient evidence remains that the appeal warrants further consideration;

b) that evidence can be produced of significant procedural error on the part of the College before or during the Committee, and sufficient evidence remains that the appeal warrants further consideration.

G29.45 The Principal will have the discretion to take into account grounds (including grounds of compassion) other than those stated above in deciding whether to allow an appeal to be heard.

G29.46 Students should submit a Fitness to Practise Appeal Form with the HoSCA, on behalf of the Principal, within 10 working days of the Fitness to Practise Committee outcome. Fitness to Practise Appeal Forms received after this deadline will only be accepted at the discretion of the Principal.

G29.47 The Principal will normally advise the student of their decision on the appeal within 30 working days of receipt. If the appeal is to be heard an Appeal Committee will be appointed. If the appeal is rejected, reasons will be given.

Appeal Committee procedure

G29.48 Written notice of the Committee date will normally be sent to the student and Executive Dean of Faculty, together with the names of the Committee members and all documentary evidence, at least 10 working days before the Committee date.
The student and Executive Dean of Faculty may present documentary evidence and/or witnesses. Documentary evidence for consideration by the Committee and/or the names of any witnesses and written copies of their evidence, must be sent to the HoSCA at least 5 working days in advance of the Committee. This evidence will be sent immediately to the Committee and other party by the HoSCA. Documentary evidence and/or witnesses received after this deadline will only be accepted at the discretion of the Chair.

The student making the appeal, or their representative, will present their case. The Executive Dean of Faculty (or their nominee) will present the Faculty’s case to the Committee. Both parties may call witnesses and present documentary evidence, provided that any such evidence or the names of witnesses had previously been received by the HoSCA and made available to the other party.

The Committee may ask questions of all those called before it. The representative of the Faculty and the student may raise questions through the Chair of the Committee.

At the conclusion of the Faculty representative and student’s presentations and questions, the student may address the Committee and make a statement.

The Committee may, at its discretion, at any time during the proceedings, have a private discussion where only the Committee and the Clerk will be present.

The Committee will consider its decision in private and will normally reach a decision and outcome without adjournment.

The Appeal Committee will normally reach its decision without adjournment but may adjourn for the purpose of reaching a decision. The Committee will ensure that any adjournment does not unreasonably delay the misconduct proceedings.

The decision of the Appeal Committee will be reached by a majority vote of the members of the Committee and will be announced as the decision of the Committee. The votes of individual Committee members will be treated as confidential.

**Appeal Committee Outcome**

The Appeal Committee may reject or uphold the appeal. Where the Appeal Committee upholds the appeal, the Committee may decide on one of the following measures:

a) that the decision of the Fitness to Practise Committee be set aside and that the Fitness to Practise Committee re-hear the case;

b) that the decision of the Fitness to Practise Committee be modified or reversed.
G29.58 The decision of the Committee will normally be sent, to the student and the Executive Dean of Faculty and Chair of the Fitness to Practice Committee, within 5 working days of the date of the decision of the Appeal Committee. Where a student has been found unfit for registration and practise, the relevant regulatory body will be informed.

G29.59 Where the Appeal Committee reject the appeal, the decision of the Fitness to Practise Committee will stand.

G29.60 A decision of an Appeal Committee will be final.

G30 The College may interrupt a student if it is in the best interests of the students or the King’s community.

G30.1 King’s College London recognises the importance of a student’s health and wellbeing in relation to their academic performance, progression and wider student experience.

G30.2 There may be occasions where a student’s physical or mental health may give rise to concerns about the student’s fitness to study and capacity to engage with their studies and/or about the appropriateness of their behaviour in relation to the university community.

G30.3 The aim of Fitness to Study Policy is to enable a student to succeed and progress in a supportive environment, whilst being mindful of the need to ensure safety and wellbeing of the student themselves and of other university members.

G31 Complaints from students are carefully considered and, if appropriate, shall be investigated by the Head of Student Conduct and Appeals.

Student complaints

G31.1 King’s College London is committed to considering and investigating genuine complaints from students. The College defines a complaint as an expression of dissatisfaction that warrants a response and this policy provides a clear mechanism for that to happen. The College will review what led to the complaint and where appropriate seek an early resolution. Outcomes can also be used to improve services to all members of the College. For more information see the Student Complaints policy.

G35 Faculties are responsible for such administration and academic matters as may be assigned to them by Academic Board and a list of Faculties is given in Ordinance B3

G35.1 The Faculties shall consist of members of the academic staff and research fellows employed within them. The Head of Administration and College Secretary shall maintain a list of members of each Faculty and of members entitled to vote in each Faculty to vote in elections for the Academic Board. No one shall be eligible to vote in elections for the Academic Board in more than one Faculty. Where a person is assigned to more than one Faculty, s/he may choose in which Faculty s/he has the right to vote in elections subject to the approval of the Academic Board.

G35.2 The Academic Board may require the setting up of staff-student committees in Faculties, Divisions or Departments.

G35.3 The Faculties shall from time to time appoint members of the Academic Board.

G35.4 All elections in Faculties shall, when contested, be conducted by secret ballot.

G35.5 The Council shall delegate to the Principal the appointment of one Professor in each Faculty or, where it considers this to be appropriate, another senior member of staff, to be Executive Dean of the Faculty.

G35.6 All appointments to Headships of Faculty shall be for a limited period not exceeding five years.

G35.7 An appointment may be renewed for an additional period or periods of not more than five years.

G35.8 Before making an appointment or reappointment, the Principal shall ascertain the views of the Faculty.

G35.9 The duties of Executive Deans of Faculty will include, inter alia, responsibility for the discipline and organisation of their Faculty. In discharging this responsibility they shall consult members of the staff of their Faculty.

G35.10 In the temporary absence of the Executive Dean of the Faculty the Principal may appoint another member of the staff to be acting Executive Dean for such period as they may determine.

G35.11 Appointment to the headship of a Division or Department shall be in accordance with the above, with the substitution of the word ‘Division’ or ‘Department’, as
appropriate, for ‘Faculty’.

Academic Board

1. The Academic Board webpages contain the terms of reference, membership and meeting dates.

General provisions

2. A member of the Academic Board immediately ceases to be a member if, by notice in writing to the Secretary of the Board, s/he resigns their membership.

3. Ex-officio members of the Academic Board unable to attend a meeting may send a replacement providing that the Secretary is notified in advance of the meeting. Replacements will count for quoracy and have voting rights.

4. The Academic Board may from time to time propose adjustments to its membership. Such adjustments shall require the approval of the Council.

5. All members of the Academic Board shall have equal status, rights, powers and duties.

6. Except as provided for in the membership details, officers of the College whose attendance is required at meetings of the Academic Board shall attend meetings as officers of the College but not as members of the Academic Board.

Meetings

7. There shall be at least five ordinary meetings of the Academic Board in every academic year.

8. Extraordinary meetings of the Academic Board may be convened by the Principal of the College. The College Secretary shall call an extraordinary meeting of the Academic Board if requested to do so by the Council, or on receipt of a request signed by no less than one-third of the members of the Academic Board. The meeting shall be held no sooner than 10 days and within 21 days from receipt of the request. No business shall be transacted at an extraordinary meeting except that for which it has been convened.

9. In the absence of the Principal and the Deputy Chair, the Academic Board shall elect a Chair for that meeting.

Quoracy

10. The quorum of a meeting of the Academic Board shall be as prescribed in the Ordinances which is a simple majority.
Voting

11. When a vote is taken at a meeting of the Academic Board, each member of the Academic Board present shall have one vote and the votes of a majority of the members present and voting shall decide. If the voting is equal the Chair shall have an additional casting vote.

Conduct of business

12. Subject to the provisions of the Charter, the Statutes, the Ordinances, the Academic Regulations and Academic Policies, the Academic Board may make standing orders governing the conduct of its meetings, and may otherwise regulate its own procedure.

13. Any proceedings of the Council, in so far as they affect matters within the competence of the Academic Board, shall be reported at the next meeting of the Board.

14. Under its terms of reference, the Academic Board may set up committees and ad hoc working groups, with or without power to set up subcommittees, to consider and report on any relevant matters.

15. Minutes shall be kept of all resolutions and proceedings of meetings of the Academic Board and of its committees and subcommittees and shall be submitted for approval at the next such meeting and when approved shall be signed by the Chair of that meeting.

16. The minutes of the Academic Board shall be available for inspection by members of the College subject to the limitations set out in Ordinance B9.

17. All members of the College may attend a meeting of the Academic Board as an observer except in the consideration of reserved items of business or when the Board determines that it shall meet in camera. Observers will be able to participate in discussions at the Chair’s discretion.

Method of election for elected members

Eligibility

18. Three academic staff members on contracts which include teaching from each faculty (and four in the case of larger faculties) will be elected by and from the academic staff members on contracts which include teaching.

19. One of the members from each faculty will be a Head of Department or equivalent elected from each faculty by the whole staff of the faculty. Each faculty will
determine its own head of department equivalent list of eligible nominees and the seat will may only be filled by an eligible candidate from that list.

20. Three members of professional staff, one each from education support, research support and service support will be elected by and from the professional staff.

21. One member of the academic staff on research-only contracts will be elected by and from the academic staff on research-only contracts of the health faculties and one member of the academic staff on research-only contracts will be elected by and from the academic staff on research-only contracts of the arts & sciences faculties.

22. One student shall be elected by and from the students registered within each Faculty, the nine positions to be split equally between undergraduate, postgraduate taught and postgraduate research students.

23. Where a member of the Academic Board is absent from the university for a period greater than six months, their position on the Board will be filled on a temporary basis until either the member returns or their term of office expires. In the case of an elected position, the runner up candidates will be invited to fill the temporary position in order of votes received in the election, starting with the highest. A by-election will be held in the event there is no runner-up available. The by-election will be subject to Regulations 18 to 26 concerning candidate eligibility and election conduct.

Conduct of elections

24. The College Secretary shall organise the elections and shall be the Returning Officer.

25. The KCLSU shall organise the elections for the student candidates.

26. The final electoral register for staff positions shall include staff who are registered on the HR system on the date two weeks before the date of the election.

27. Elections will be conducted by secret ballot by and from among the eligible members of the staff and students.

Assessment Boards

1. Within each Faculty, there shall normally be two Assessment Boards, one with responsibility for undergraduate programmes and one with responsibility for taught postgraduate programmes, which includes the taught element of professional doctorate degrees and the options element of the MPhilStud.

2. In Faculties with a single programme at either level, the Assessment Board and the Assessment Sub-Board for the programme concerned can be one and the same, will be given the status of an Assessment Board and shall report directly to the Academic Standards Sub-Committee.

3. Assessment Boards shall be responsible for ensuring assessment procedures are carried out in accordance with Academic Regulations and Programme Regulations in a fair and impartial manner.

4. Assessment Boards shall be responsible for ensuring compliance with the Degree Outcome Statement.

Terms of Reference

5. Assessment Boards will conduct their business according to the following terms of reference:
   a. to ensure that each taught programme of study registered within a Faculty, which leads to an award, is assigned to an Assessment Sub-Board and that Internal and External Examiners are nominated to serve on each Assessment Sub-Board;
   
   b. to report to Academic Standards Sub-Committee on any relevant matters concerning assessment policy, procedures and issues raised by External Examiners;
   
   c. to receive from Assessment Sub-Boards
      • reports on assessment policy and procedures;
      • reports on results and awards;
      • recommendations for aegrotat applications.
      • Sub-Board minutes
   
   d. to approve marking schemes;
   
   e. to make exemption requests;
f. to ensure a proper record is kept of the proceedings and decisions, and that the confidentiality of these is preserved;

g. to consider appeals;

h. to review Faculty Level Assessment related policy

**Membership**

6. The membership of an Assessment Board shall normally be:

   a. a Chair, appointed by the Executive Dean for a period of three years with a two-year extension option. Following this a Chair will not normally be eligible for re-appointment for a further two years;

   b. a Deputy Chair, appointed from amongst the members of the Assessment Board;

   c. the Chairs of Assessment Sub-Boards;

   d. a Senior Tutor or their nominee may be co-opted into membership as appropriate.

7. No persons other than the members and designated administrative staff shall be permitted to attend meetings of Assessment Boards, unless invited by the Chair with the agreement of the Board.

8. In Faculties with a single programme for which there is a single-tiered Assessment Board, members shall be recommended by the Assessment Board Chair and approved by Academic Standards Sub-Committee. In such cases, the External Examiners may also be members of the Assessment Board with full rights of membership including voting rights.

**Quoracy**

9. The quorum for any meeting is:

   a. the Chair or Deputy Chair;

   b. one-third of the total voting membership (to include External Examiners for single-tier boards).

10. Decisions of the Assessment Board shall be arrived at by a majority vote of those members in attendance. The Chair shall have the casting vote where necessary.

11. Each Assessment Board must meet at least twice in each academic year to conduct its business.
Executive Committee of an Assessment Board

12. An Assessment Board may establish an Executive Committee to consider specific, urgent or unscheduled business.

13. The membership of an Executive Committee shall comprise of members from the relevant Assessment Sub Board.

14. The quorum for an Executive Committee is three, to include the Chair or Deputy and the Chair of the relevant Assessment Sub-Board. The Chair or Deputy shall have the casting vote, where necessary.

Chair’s Action

15. Chair’s Action may be used for making exemption requests.

Assessment Sub-Boards

1. Every taught programme of study that leads to an award, and all free-standing credit bearing modules will be assigned to an Assessment Sub-Board (known as Module Assessment Sub-Board where a faculty has a King’s Online Managed Programme). Where appropriate, programmes can be grouped for convenience under a single Assessment Sub-Board. Credit bearing Massive Open Online Courses (MOOCs) will be assigned to the relevant Assessment Sub-Board. Each Sub-Board reports to its Assessment Board and each Module Assessment Sub-Board reports to the Academic Standards Sub-Committee.

2. For undergraduate Medicine and Dentistry, the Assessment Boards will have responsibility for ensuring that Sub-Boards are established for each part of the programme.

3. Where a programme is interdisciplinary, one Faculty will have responsibility for the award of students registered on that programme.

4. Sub-Boards shall be responsible for ensuring assessment procedures are carried out in accordance with the Academic Regulations and Programme Regulations in a fair and impartial manner.

Terms of Reference

5. Sub-Boards will conduct their business according to the following terms of reference:

   a. to nominate External Examiners for approval by the relevant Assessment Board, or, where relevant, the Academic Standards Sub-Committee;

   b. to provide External Examiners with appropriate information relating to the programme of study on an annual basis, including assessment questions which they are requested to approve where the assessment forms a majority part of the module;

   c. to be responsible for the setting, scrutiny and approval of assessments for which it is responsible;

   d. to agree marking schemes, in accordance with the discipline specific marking criteria and the generic marking criteria for approval by the Assessment Board;

   e. to ensure summative assessments are marked in accordance with the
College marking framework and that the most appropriate marking model is assigned to each element of assessment;

f. to notify students of the arrangements for submission of assessments subject to the provision of the individual programme specification;

g. to scrutinise the results of individual assessments and approve progression and awards;

h. to consider cases for reassessment according to the policy determined by the Assessment Board; to appoint a nominee to consider mitigating circumstance claims, or to set up a Mitigating Circumstances Panel, as appropriate;

i. to report to the Assessment Board on procedural and regulatory matters and action taken in such cases;

j. to consider requests for exemptions;

k. to deal with and formally respond to matters raised by External Examiners and action taken, including reporting these to the Assessment Board;

l. to keep formal minutes of Assessment Sub-Board meetings, including all results and awards, for report to the Assessment Board and to ensure that the confidentiality of these is preserved.

m. to approve revocation requests

6. Where a student has been granted Personalised Assessment Arrangements the Sub-Board shall not make further adjustments in light of the condition when considering the student’s results.

Membership

7. The membership of a Sub-Board shall normally be, as a minimum:

   a. a Chair, appointed by the Executive Dean for a period of three years with a two-year extension option. Following this a Chair will not normally be eligible for re-appointment for a further two years. The Sub-Board Chair shall not normally be the Programme Director;

   b. a Deputy Chair;

   c. an Internal Examiner, who shall be a member of the academic staff of the College;

   d. an External Examiner. If a Sub-Board wishes to have more than two
External Examiners a request must be submitted to Academic Standards Sub-Committee for approval.

8. Assessor with particular expertise or knowledge may be appointed by the Chair to assist a Sub-Board in setting papers, marking assessments and to attend practical examinations. An Assessor shall not be a member of a Sub-Board but, at the discretion of the Chair, may attend meetings in a non-voting capacity to advise the Board.

9. Where the Academic Board has approved a collaborative provision arrangement for a particular programme of study, an Internal Examiner may be appointed to the Sub-Board from amongst the academic staff of the collaborating institutions. In all such cases, prior approval must be sought from the Academic Standards Sub-Committee.

10. No persons other than the members, Assessors and designated administrative staff shall be permitted to attend meetings of any Sub-Board unless invited by the Chair with the agreement of the Board.

Quoracy

11. The quorum for the meeting of a Sub-Board held to determine the final award recommendations is:
   a. the Chair or Deputy Chair;
   b. one half of the internal membership of the Board eligible to vote;
   c. an External Examiner.

12. At all other meetings of a Sub-Board, the quorum is:
   a. the Chair or Deputy Chair;
   b. one-third of the total voting membership. The absence of an External Examiner will not render the meeting invalid.

13. Decisions of a Sub-Board shall be arrived at by a majority vote of those members in attendance. The Chair shall have the casting vote where necessary.

14. All Internal Examiners are expected to be present at the Sub-Board meetings at which final results are to be determined. Any Internal Examiner unable to attend such a meeting through illness or other good cause will not render the meeting invalid, however, where possible should be available for consultation.

15. A Sub-Board shall meet as often as may be necessary to conduct its business.

16. A Module Assessment Sub-Board shall meet as frequently as necessary to consider the business of the Board and in addition there will be one annual meeting where all External Examiners must attend.

17. Module Assessment Sub-Board External Examiners will give a verbal report at each relevant Module Assessment Sub-Board that they attend, and a formal
written annual report.

18. Sub-Board meetings which are not quorate will not be permitted to proceed.

Executive Committee of an Assessment Sub-Board/Module Assessment Sub-Board

19. A Sub-Board may establish an Executive Committee to consider urgent, unscheduled business.

20. The membership of an Executive Committee shall comprise of members from the relevant Sub-Board where results are being considered.

21. The quorum for an Executive Committee is three, to include the Chair or Deputy Chair. The Chair or Deputy Chair shall have the casting vote, where necessary.

Chair’s Action

22. Chair’s Action may be used for approving mark corrections.

External Examiners

Eligibility and selection

23. In the selection of a nominee for appointment as an External Examiner, the following criteria shall apply:

   a. an appointee shall be external to the College;

   b. an appointee shall normally be an academic member of staff from another UK higher education institution. Assessment Boards must seek permission from the Academic Standards Sub-Committee to appoint an External Examiner from overseas;

   c. an appointee must have relevant current experience and expertise in the discipline being assessed, including the design and operation of assessment, in order to speak authoritatively on academic standards germane to the discipline and should be familiar with the standards and procedures of university-level education in the United Kingdom;

   d. an appointee should have relevant academic and/or professional qualifications to at least the level of the qualification being externally examined and/or extensive practitioner experience where appropriate;

   e. an appointee must have competence and experience relating to the enhancement of the student learning experience;

   f. former lay members of Council, students or employees of King’s College
London shall not be appointed before a period of five academic years has elapsed;

g. any individual who has been involved in the validation or approval of a programme as an external expert or similar will be excluded from acting as an External Examiner for that programme before a period of three academic years has elapsed;

h. an appointee shall not have any close personal, professional or contractual relationship with staff or students involved in the delivery of the programme nor be involved in any activity that could be considered a conflict of interest;

i. an appointee shall not normally belong to an institution in which a member of staff of the College is appointed to act as an External Examiner in the same subject and at the same level. It is recognised that, in certain subjects, this situation might be unavoidable. In such instances a case must be referred to Academic Standards Sub-Committee by the Chair of the relevant Sub-Board;

j. an appointee shall not belong to an institution to which an existing or exiting examiner belongs;

k. an appointee shall not have been significantly involved in recent or current substantive collaborative research activities with a member of staff closely involved in the delivery management or assessment of the programmes or modules in question;

l. an appointee shall not hold an external examiner role for more than two universities.

Appointment

24 Except as provided for below, an External Examiner is normally appointed for a period of four years with no option for an extension. On completion of the appointment, an External Examiner will not normally be eligible for re-appointment until a further five years have elapsed. In exceptional circumstances reappointment may occur earlier on agreement with the Vice Principal (Education).

25 External Examiners appointed to MBBS and BDS Part Boards will normally be appointed for a period of five years with no option for an extension. On completion of the appointment, an External Examiner will not normally be eligible for re-appointment until a further five years have elapsed.

26 Where a nomination is approved, the appointee shall be informed within one month of the date of the approval. Normally, the appointment will commence upon the expiry of the appointment of the previous External Examiner and will
coincide with the start of the academic year.

27 If an External Examiner is no longer eligible to hold office (under the above or is unable or unwilling to fulfil the duties specified below), or there is a conflict of interest that cannot be satisfactorily resolved, their appointment shall be terminated on the recommendation of the Vice Principal (Education).

28 If either party has cause to terminate the appointment, this should normally be arranged to take effect at the end of an academic year, but in any case, is subject to three months’ notice by either party.

29 A Sub-Board may request an extension of an External Examiner’s appointment beyond four years in order to meet local requirements. Such a request must be approved by the Chair of the relevant Sub-Board and submitted through the Faculty for approval by the Assessment Board Chair who will then notify the Quality, Standards and Enhancement team. Extensions will not normally be granted for more than one year.

30 An External Examiner is normally appointed to one programme or components of a programme. Additional programmes may only be assigned to an External Examiner’s duties on approval from the Chair of Academic Standards Sub-Committee.

Induction and information

31. The College will provide External Examiners with appropriate information relating to the Academic Regulations and procedures on an annual basis.

Duties

32. External Examiners shall assist in the maintenance of the standard of awards of King’s College London and advise if there is a falling below national standards in the subject area for which the External Examiner is responsible.

33. External Examiners shall seek to ensure that assessment processes are fair, rigorous and operated equitably.

34. External Examiners shall have regard to the totality of the degree or other programme in question and shall be involved in the decisions relating to the award of each degree or other qualification. Due to subject specialism in the cases of LLB, MBBS and BDS External Examiners shall have oversight of components of the degree.

35. In cases where part of the programme is delivered by partner institutions the External Examiner shall have oversight of the assessments being delivered.

36. External Examiners are required to comment upon and give approval to all draft examination papers and other forms of assessment with a significant contribution
to the module and/or programme for which they are responsible. A record will be kept of all approvals.

37. External Examiners have the right to inspect any script or other assessed material relevant to the duties of the appointment and are required to sample scripts or other assessed material, including coursework.

38. External Examiners are required to advise whether marking schemes and schemes for the classification of honours or award of degrees and diplomas are consistent with internal and external standards.

39. External Examiners may be called upon to adjudicate in cases of conflict between internal examiners.

40. External Examiners may not change individual marks (except where adjudicating) but may recommend appropriate action to ameliorate systematic issues in marking.

41. External Examiners are ex-officio members of Sub-Boards and are invited to attend all meetings of the Sub-Boards to which they are appointed. They must, as a minimum requirement, attend the main meeting of the Sub-Board held to determine the results of assessments. They may be requested to attend other meetings as notified by the Chair. External Examiners should report to the Sub-Board any areas of good practice and key issues identified during the year.

42. In the case of first degrees in Medicine and Dentistry, External Examiners appointed solely for the purpose of conducting clinical examinations shall not be required to attend meetings of the Sub-Board.

43. The duties of External Examiners appointed solely to conduct clinical examinations in the Faculties of Medicine and of Dentistry shall be as determined by the Executive Dean of Faculty concerned.

44. External Examiners shall approve the results and the final award recommendations of the Sub-Board.

45. External Examiners are required to submit to the Principal, at the conclusion of the assessment period, a written report on the form provided. The report shall be submitted within one calendar month of the main meeting held to determine the results of students in the relevant academic year. The report shall include comment on the adequacy of the standard of the assessment and other matters relevant to the teaching and assessment of the programme or modules courses. The contents of the report will be brought to the attention of those teaching the programme or module, students on the programme or module, the Chair of the relevant Sub-Board, the Chair of the relevant Assessment Board and the Executive Dean of Faculty. Academic StandardsSub-Committee will consider an annual report on action taken further to issues raised in External Examiners’ reports.
46. Failure to submit a report within two months of the meeting held to determine the results of students will result in a recommendation that the External Examiners’ appointment is terminated.

47. External Examiners may be invited to attend any meeting convened to consider an appeal against the decision of the Sub-Board of which they are members.

48. External Examiners shall observe the Academic Regulations and Academic Policies regarding confidentiality of setting and marking assessments, proceedings of Sub-Boards and all results and awards.

49. External Examiners will be expected to attend the College for as much time as is reasonably necessary for the duties of the post to be properly discharged.

50. It is the responsibility of Chairs of Sub-Boards to ensure that External Examiners are given adequate notice of any meeting which they are required to attend. An External Examiner unable to attend a meeting due to illness or other good cause should endeavour to be available for consultation. In such circumstances the absence of the External Examiner from the meeting will not render it invalid.

51. The Chair of a Sub-Board will determine the distribution of work between External Examiners. In those cases where External Examiners see a selection of scripts, the guiding principle for such selection must be that the External Examiners should have enough evidence to carry out their duties. In general, all scripts should be made available to the External Examiners on request, but their attention should be drawn to a sample of scripts from the top, the middle and the bottom of the range (including a sample of scripts assessed internally as first class/distinctions or failures) and to the scripts of students with a borderline overall classification. An External Examiner should also see all scripts where the examiners have been unable to reach agreement on the marks.

Procedure for investigating concerns about academic standards and quality

52. External Examiners should raise issues or concerns they may have about academic standards and quality with the Sub-Board and in their report to the Principal. External Examiners have the right to raise any matter of serious concern in confidence in a separate report to the Principal.

53. Other concerns about the College’s academic standards and quality (including concerns about the accuracy and completeness of information published by the College) should be raised in writing, in the first instance, with the relevant Head of Department/Division or Executive Dean of Faculty, who shall normally respond within 14 days. The Head of Department/Division or Executive Dean of Faculty may delegate the investigation of the concern to another senior staff member who may respond on behalf of the Head of Department/Division or Executive Dean of Faculty.
54. If the person who has raised the concern remains dissatisfied following the response from the Department/Division or Faculty, he/she may request a review of the Department/Division or Faculty’s response by the Vice Principal (Education). The request for a review must be submitted in writing within 14 days of the response being issued. The Vice Principal (Education) will normally respond within 60 days of receipt of the request for a review and the response shall be final. The Vice Principal (Education) may delegate the review up to a Senior Vice President who may respond on the Vice Principal’s behalf.

55. This procedure shall not be used for concerns or issues which have been or should more appropriately be raised under another College procedure. Third parties may not use this procedure for raising concerns or issues regarding the College’s relationship with a particular student, as the College provides students with procedures for doing so.

Research Degrees Examination Board

1. The Research Degrees Examination Board (RDEB) is responsible for the conduct of the final examinations for the College’s research degrees, including the research component of professional doctorates. It is responsible for the appointment of the examiners and the conduct of the final examinations of research degree students. The RDEB operates independently of any academic Department, Division or Faculty.

Terms of Reference

2. The Board conducts its business according to the following terms of reference:
   a) to ensure that the examiner appointment process is informed by the advice of experts from Subject Area Boards (SAB) established within the College. A SAB shall normally consist of no fewer than three members of staff;
   b) to ensure that the examiners are expert in the field of the thesis and are able to make an independent assessment of the student;
   c) in respect of professional doctorates, to receive notification from the relevant Faculty Assessment Board that a student has satisfied all elements of any assessment arising from practical or taught elements of the programme;
   d) to ensure that the final examination contributing to the award of the degree is conducted in such a way as to test the thesis against the stated criteria and, for professional doctorate degrees only, to test the student’s conceptual understanding of all elements of the programme and their related assessment;
   e) to ensure that provision is made, as appropriate, for representation of the thesis or for re-entry to the final examination;
   f) to report, at least annually, to the Postgraduate Research Students Sub-Committee.

Membership

3. The membership of the RDEB shall be:
   a) a Chair, appointed by the Principal who shall not be the Chair of an Assessment Sub Board for a professional doctorate degree offered by the College nor the Vice Dean for Doctoral Studies. The appointment will be for a period of three years with a two year extension option to be approved by the Chair of Postgraduate Research Students Sub-Committee. Following this, a Chair will not normally be eligible for re-appointment for a further two years;
   b) a Deputy Chair;
c) one representative from each Faculty, each of whom shall be a member of the academic and research staff (Professor, Reader, Senior Lecturer, Professorial Research Fellow, Principal Research Fellow, Senior Research Fellow);
d) a representative of the Centre for Doctoral Studies.

Quoracy

4. The quorum of a meeting of the RDEB shall be the Chair or Deputy Chair and five other members.

5. The Chair of the RDEB shall receive the preliminary and joint reports of the examiners and consider for approval their recommendations for award on behalf of the RDEB.

Frequency

6. The RDEB shall meet as often as may be necessary to conduct its business.

7. The Chair of the RDEB shall consider any applications for extensions to the three and six month periods permitted for minor and major corrections, and the discretionary calendar month for further minor amendments, in accordance with the process laid down by the College.

Committee Structure

For Misconduct Committees convened under G27

1. The terms of reference of the Misconduct Committee are:
   a. to consider cases referred to it to determine whether a charge has been substantiated on the balance of probabilities;
   b. to make appropriate decisions, as set out in the associated Appendix (G27);
   c. to report its decisions to relevant staff for information/action;
   d. to advise the Academic Board on misconduct matters; and
   e. to advise the College Assessment and Standards Committee on assessment-matters.

2. The Misconduct Committee shall be arranged with the following membership:
   a. a Chair;
   b. two senior members of the College’s staff; and
   c. a student member, nominated by the Student’s Union.

   Where appropriate to the case, one senior member of the College staff may be replaced on the Committee by another member, who is external to the College.

3. Staff or students of the same Department as the student against whom the charge(s) of misconduct have been made, or who have had prior knowledge of or contact with the student or their case, may not sit on the Misconduct Committee.

4. The quorum of the Misconduct Committee shall be three. If necessary, the Chair shall have the casting vote.

5. The Misconduct Committee shall normally be held in private. Any request for the hearing to be held in public will considered by the Chair, whose decision is final.

6. For the purpose of the Committee, a decision by the Committee on any point of procedure will be binding.

For College Fitness to Practise Committees convened under G29

7. The terms of reference of the Fitness to Practise Committee shall be:
   a. to consider cases referred by the Student Conduct & Appeals Office (SCAO), to determine whether the students are unfit for registration and practice;
b. to make appropriate decisions, as detailed in the associated Appendix (G29); and
c. to advise the Academic Board on fitness for registration and practice matters.

8. The Fitness to Practise Committee shall be arranged with the following membership:
   a. a Chair;
   b. a senior member of the College’s staff;
   c. a senior member of the student’s given profession. This may be a member of the College’s academic staff or of another higher education institution; and
   d. a student nominated by the Student’s Union.

9. Staff of the same Department as the student against whom the case has been made, or who have had prior knowledge of or contact with the student or their case, may not sit the Fitness to Practise Committee.

10. The quorum of the Fitness to Practise Committee shall be three. If necessary, the Chair shall have the casting vote.

11. The Fitness to Practise Committee shall normally meet in private. Any request for the hearing to be held in public will be considered by the Chair, whose decision is final.

12. For the purpose of the hearing, a decision by the Committee on any point of procedure will be binding.

For Fitness to Practise Appeal Committees convened under G29

13. The terms of reference of the Fitness to Practise Appeal Committee shall be:
   a. to consider appeal cases referred to it;
      to determine whether the ground(s) of appeal have been met;
   b. to make appropriate decisions as detailed in the associated Appendix (G29); and
   c. to advise the Academic Board on fitness for registration and practice matters.

14. The Fitness to Practise Appeal Committee shall be arranged with the following membership:
   a. a Chair;
   b. a senior member of the College’s staff;
   c. a senior member of the student’s given profession. This member may be a member of the College’s academic staff or of another higher education institution; and
   d. a student nominated by the Students’ Union.
15. Staff or students of the same Department as the student making the appeal, or who have had prior knowledge of or contact with the student or their case, may not sit on the Fitness to Practise Appeal Committee.

16. The quorum of the Fitness to Practise Appeal Committee shall be three. If necessary, the Chair shall have the casting vote.

17. Proceedings of the Fitness to Practise Appeal Committee shall normally be held in private. Any request for the hearing to be held in public will be considered by the Chair whose decision is final.

18. For the purpose of the hearing, a decision by the Committee on any point of procedure will be binding.

For Appeal Committees convened under Regulations T44, R15, G27, G28 and G31

19. The terms of reference of the Appeal Committee shall be:
   a. to consider appeal cases referred to it;
   b. to determine whether the ground(s) of appeal have been met;
   c. to make appropriate orders as detailed in the associated Appendices (T44, R15, G27, G28 or G31); and
   d. to advise the Academic Board on appeal matters.

20. The Appeal Committee shall be arranged with the following membership:
   a. a Chair;
   b. two senior members of the College’s staff; and
   a. a student, nominated by the Students’ Union Where appropriate to the case, one senior member of the College staff may be replaced on the Committee by another member, who is external to the College.

21. Staff or students of the same Department as the student making the appeal, or who have had prior knowledge of or contact with the student or their case, may not sit on the Appeal Committee.

22. The quorum of the Appeal Committee shall be three. If necessary, the Chair shall have the casting vote.

23. Proceedings of the Appeal Committee shall normally be held in private. Any request for the hearing to be held in public will be considered by the Chair, whose decision is final.

24. For the purpose of the hearing, a decision by the Committee on any point of procedure will be binding.

In addition to the General Regulations, which apply to all students, the Academic Regulations for Taught Programmes apply to students registered on undergraduate or taught postgraduate programmes at the College. The Regulations for Taught Programmes exclude the Associateship of King’s College, the King’s Experience Awards, programmes offered by RADA, programmes offered by the Inns of Court College of Advocacy and programmes of less than four months run by the King’s Foundations.

T2 All students are required to abide by the regulatory framework governing assessments and examinations. Failure so to do constitutes an offence and may be dealt with in accordance with G27.

Examination rules

T2.1 Students are required to attend their designated examination venue, present their student ID card and comply with venue security arrangements to gain entry.

T2.2 Students must not wear earplugs, headphones or any form of non-religious headgear during examinations.

T2.3 Students wearing religious headgear may be required to prove their identity to an invigilator of the same sex, in private if necessary.

T2.4 Students are required to bring the correct equipment necessary to complete their examination.

T2.5 Students must comply with the instructions given in the Examination Information for candidates and those given at the venue, both via the examination candidate instruction sheet and the announcements.

T2.6 Students must write legibly. Examiners shall not be required to mark illegible answers to handwritten assessments. If deemed illegible the student concerned may be required, at the discretion of the examiners, either to undertake an oral examination or to have the assessment transcribed under secure conditions, line for line, page for page and at the student’s expense. Examiners may order any other appropriate measure at their discretion. No concessions may be granted for illegibility in respect of specified awards where a registering body imposes such conditions.

Alternative venue arrangements

T2.7 Alternative venue arrangements will only be considered for international students taking resit and/or replacement examinations in their home country. These arrangements will be determined by the Examinations Office and the examinations will never be scheduled before the published UK date and time.

Examination offences

T2.8 Examination offences are dealt with under Academic Regulation G27.

T3 All modules are required to have a published module specification, a credit level and credit value.

Credit levels and values

Undergraduate modules (including Level 3)

T3.1 Undergraduate modules have credit values in multiples of 15. Exceptionally, College Education Committee may approve modules of a lower credit value.

Postgraduate modules

T3.2 Postgraduate modules have credit values in multiples of 15.

T3.3 Exceptionally, postgraduate modules may have credit values of 5 or 10 for CPD or Executive Education purposes.

Level 7 research/dissertation

T3.4 The maximum credit value for a level 7 research/dissertation module is 60, or 120 for MRes programmes.

King’s Health Partners and credit bearing Massive Online Open Courses (MOOCs)

T3.5 5 and 10 credit modules at undergraduate level are only applicable to King’s Health Partners short courses and credit bearing MOOCs.

Updates approved  ASSC May 2020, AB July 2020
T4 All programmes of study are required to have a published programme specification which is updated annually.

T4.1 Each programme of study will have a programme specification approved by the relevant Faculty Education Committee as part of the programme approval procedure and updated on an annual basis.

T4.2 All taught programmes will be assigned to a level from the framework for higher education qualifications of UK Degree Awarding Bodies by the relevant Faculty Education Committee as shown in the table below.

T4.3 The national system of levels and awards appropriate for the College:

<table>
<thead>
<tr>
<th>Programme Level</th>
<th>Examples of awards</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 (Certificate)</td>
<td>Undergraduate Certificate</td>
</tr>
<tr>
<td>5 (Intermediate)</td>
<td>Undergraduate Diploma Foundation Degree Ordinary Degree</td>
</tr>
<tr>
<td>6 (Bachelors with Honours)</td>
<td>BA, BEng, BSc, BSc (Eng), BMus, LLB, Professional Graduate Certificate in Education Graduate Certificate Graduate Diploma</td>
</tr>
<tr>
<td>7 (Masters)</td>
<td>BDS, MB BS, MPharm, MEng, MSci Postgraduate Certificate/Diploma Postgraduate Certificate in Education LLM, MA, MBA, MMus, MSc, MClinDent, MRes, MPH, MTL</td>
</tr>
</tbody>
</table>

T4.4 The programme title will be descriptive of the content of the programme. For undergraduate programmes other than single honours degrees, the title of the programme shall be determined as follows:

a) where two subjects have approximately equal importance “and” will be used; each subject will be expected to have modules with a minimum value of 120 credits;
b) where a subject is studied with an essentially supporting subject “with” will be used; the supporting subject will be expected to have modules with a minimum value of 90 credits; the main subject in this case will have modules with a minimum value of 180 credits.

T4.5 For one-year intercalated BSc degree programmes the title of the programme shall be determined as follows:

a) where at least 75 credits have been gained in an appropriate subject the title will be the appropriate subject with Basic Medical Sciences, Basic Dental Sciences, or Basic Veterinary Sciences;

b) where less than 75 credits have been gained but at least 60 credits have been gained in an appropriate subject: Basic Medical Sciences, Basic Dental Sciences, or Basic Veterinary Sciences with the appropriate subject or if 60 credits have been gained in each of two of these subjects Basic Medical Sciences, Basic Dental Sciences or Basic Veterinary Sciences with one appropriate subject and the other of these subjects.

T4.6 The programme specification will indicate the combination of modules that the student will have to take and pass and at what level (the credit tariff) in order to satisfy the examiners for the award. However, in no case may the number of modules or level combinations be less than the minimum specified in the table below.

T4.7 The programme specification will indicate any additional non-credit requirements necessary to meet the requirements for award.

T4.8 A programme of study offered by the College must comply with the criteria established by the Academic Board and all questions related to the modification of programmes of study shall be referred to Academic Board.

T4.9 Amendments to programme regulations will not normally be introduced during an academic year. Unless otherwise published, programme regulations are contained within programme specifications.

T4.10 A programme of study and its associated modules and regulations must be approved by the relevant Faculty Committee in accordance with the procedures agreed by the Academic Board and/or its sub-committees and must conform to the criteria established for programmes of study (see G20) before the programme may be offered.

T4.11 The regulations for the programme of study must specify which, if any, modules or combinations of modules must be passed before a student is eligible for the award and which, if any, must be attempted in order to complete the programme of study.
The programme specification will indicate the maximum number of credits for which a student may be registered in an academic year. Where a student follows a module during the long vacation, the credit value of that module shall be pre-assigned to either the previous or the next academic year as appropriate, but in neither year, except as provided for below, may the total credit value exceed that specified in the programme specification.

Where it is permitted by the programme specification and with the consent of the Assessment Sub-Board and the Department, a student may take modules, and acquire credit in addition to that required by their programme. An additional fee may be payable. Additional modules will be limited to a maximum value of 30 credits above the ‘minimum overall credits’ tariff in the table in Academic Regulation T4. The marks arising from the assessment of any additional modules will be used by the Assessment Sub-Board in determining any final classification.

A student may apply or be required by the Faculty in which they are registered, to spend part of their programme of study abroad. The period spent in study abroad shall be determined by the student’s Faculty in accordance with the regulations for the award, provided that for students following a full-time programme of study for a first degree the minimum duration of the period of study on modules taught and assessed by the College shall be at least two years.

The regulations for each programme of study shall specify the duration of the programme in full-time and, where applicable, part-time mode and shall also specify the minimum period of study for the award and the maximum period for which credit for the award may be counted. The period of study shall normally be continuous unless the Academic Board has permitted its interruption, either generally by regulation or in an individual case.

Further information on minimum and maximum credit values at each level and condonement rules can be found on the table on the next page.

Exemptions: not anticipated. For advice contact exemptions@kcl.ac.uk.

Last reviewed: May 2020
Updates approved: ASSC May 2020, AB June 2020
T6 Progression requirements apply and deviations from or additions to minimum progression requirements are detailed in programme specifications.

Undergraduate Degree Programmes

T6.1 The minimum progression requirements for students enrolled on a full-time undergraduate programme are as follows (pro rata for part-time students):

a) Year 1 to Year 2: 90 credits including up to 30 credits of condoned fails
b) Year 2 to Year 3: 210 credits excluding condoned fails
c) Year 3 to Year 4: 330 credits excluding condoned fails

T6.2 In addition, progression is only permitted if it remains possible for the student to obtain the minimum required credits for the intended award under Academic Regulation T4.

Taught Postgraduate Degree Programmes

T6.3 The progression requirements for a taught postgraduate programme will be listed in the programme specification.

Updates approved: ASSC May 2020, AB June 2020
T7 To be awarded credit the whole module must be passed.

T7.1 In order to complete a module a student must undertake the prescribed period of study (which may include reaching a pass or qualifying mark for in-course assessment) and satisfy any other conditions which may be set out by the College.

T7.2 Credit for a module cannot be divided.

Updates approved: ASSC May 2020, AB June 2020
T8 The pass mark at levels 4, 5 and 6 is 40. The pass mark at level 7 is 50. Exceptions may apply to programmes leading to professional registration and to the Executive LLM which applies pass/fail marking criteria.

T9 Modules which require a qualifying mark in order to pass the module overall will specify the details in the module specification.

T10 Credit can be awarded for condoned fails where permitted by the programme specification.

Pass marks, qualifying marks and condoned fails

T8-10.1 The total number of modules condoned may not exceed the credit tariff in the table in Academic Regulation Appendix T4.

T8-10.2 Condonement will be considered for students who have failed a condonable module with a mark within the condonable range as detailed in individual programme specifications. For non-finalists, condonement will be applied only once the student has exhausted any reassessment opportunities. Finalists who have failed a module within the condonable range but who have met the requirements for award should normally be classified and no re-assessment offered.

T11 – No Regulation (intentionally left blank)
T12 Modules are assessed by one or more methods appropriate to the level as defined in the module specification.

T12.1 Where a module has more than one element of assessment, the module specification shall state the relative weighting of each element and whether a pass or qualifying mark must be achieved in that particular element in order to pass the module overall.

T12.2 The timing of assessment shall be specified in individual module specifications and reassessment shall normally be held prior to the start of the next academic session.

T12.3 Where an element of assessment associated with an activity is defined in the module specifications as a “core competency” then a student is required to demonstrate a minimum acceptable standard in that activity. In such instances a student will be allowed a prescribed number of attempts at achieving the minimum acceptable standard, with a numerical mark only being awarded once the minimum acceptable standard has been achieved.

Oral Examinations

T12.4 Oral examinations may be employed as assessment methods if prescribed in the relevant programme and module specifications. More than one examiner should be involved directly in the assessment event. The date, time and place of oral examinations shall be specified in the programme regulations or determined by the Assessment Sub-Board.

T12.5 Module specifications can be obtained from the relevant department.

Last reviewed: May 2020
Updates approved: ASSC May 2020, AB June 2020
T13 Under exceptional circumstances provision may be made for alternative forms of assessment in line with College policy.

T13.1 Module specifications may determine that reassessment is in a different format to the original assessment.

T13.2 A student given permission to undertake alternative assessment shall be assessed on equal terms with other students.

T13.3 The Chair of the Assessment Sub-Board shall obtain the agreement of an External Examiner to the proposed alternative assessment and shall report the matter to the Chair of the Assessment Board.

T13.4 Alternative assessment may be applicable in the following scenarios:

a) Personalised Assessment Arrangements
   Exceptionally, provision may be made for a student to undertake an alternative form of assessment, if the Personalised Assessment Arrangements Applications Panel, in consultation with the Assessment Sub-Board, considers the original format of the assessment to be impracticable for that student, or the duration of the examination, with any additional arrangements in place, would extend over 4.5 hours.

b) Overseas examinations
   Exceptionally, provision may be made for an international student to undertake an alternative form of assessment, if they have been granted the opportunity to sit a resit or replacement examination in their home country and the Assessment Sub-Board deems it impracticable to sit the original examination paper due to time differences.

c) Study Abroad
   The Assessment Sub-Board must make provision for a student to take an alternative assessment if a student’s Study Abroad activity prevents them from sitting an examination at the same time as the rest of the cohort.

d) Unforeseen event
   If an unforeseen event prevents a student from sitting any assessment the mitigating circumstances procedure applies.

T14 The setting of assessments and the drawing up of marking schemes are responsibilities of the Assessment Sub-Boards

No appendix
T15 Examiners shall preserve the secrecy of unseen examination papers until taken by students.

T15.1 Disclosure of questions in advance of an unseen examination is an offence and may lead to action being taken under the College’s disciplinary procedures.

T15.2 Examiners are required to preserve the secrecy of any individual questions that are intended to be used, or reused, for summative assessment.

T15.3 Individual programme regulations may prescribe conditions for assessment where prior disclosure of questions is applicable. In such cases the question papers must be made available to students at the same time.

T15.4 Examiners should ensure that information relating to assessment is held securely in accordance with relevant College policies and procedures in relation to the processing of personal data.

T16 The identity of students shall be withheld from examiners where possible.

T17 Examination scripts are the property of the College but provisions shall be made for students to view scripts.

T16-17.1 Scripts shall be distributed to Examiners and/or Assessors in accordance with the instructions from the Assessment Sub-Board Chair.

T16-17.2 Scripts and lists of marks are confidential. They may be delivered by hand (including by courier) or through ‘recorded delivery’. Internal mail arrangements should not be used, unless circumstances prevent all other forms of delivery.

T16-17.3 Examiners must make and retain a written copy of mark lists or other assessment details before passing on scripts, etc to another marker or to the Chair of the Assessment Sub-Board.

T16-17.4 The identity of students shall be withheld from all Examiners so far as is practicable until the complete marking process has been conducted.

T16-17.5 Members of an Assessment Sub-Board shall have the right to see the scripts and any other assessed work, including coursework, of any student on a module for which the Assessment Sub-Boards is responsible.

T16-17.6 Scripts for written examinations are the property of the College and will not be returned to students. However, save where the regulations otherwise provide, other assessed material may be returned to students.

T16-17.7 If a Faculty wishes to make a completed assessment available for consultation or borrowing this must be done in accordance with the College Code of Practice for Intellectual Property.

T18 Results of assessments are confidential until the Assessment Sub-Board has met to ratify the results.

T19 Assessment results are communicated to all students within a cohort at the same time and in the same manner once ratified by the relevant Assessment Sub-Board.

T18-19.1 There are provisional marks and ratified marks/results.

Provisional marks

T18-19.2 These are marks post-marking but prior to the meeting of the Assessment Sub-Board. Provisional marks relating to individual elements of assessment may be released to students provided the work in question has been marked in accordance with the College Marking Framework and marks are clearly labelled as “provisional and may be subject to change”.

Ratified marks/results

T18-19.3 These are marks/results post Assessment Sub-Board.

T18-19.4 The only occasion when a decision relating to ratified results can be modified, is under the provisions of the academic appeals process.

T18-19.5 Students will be advised of their marks routinely after ratification.

T18-19.6 The assessment marks of individual students, other than grades for final examinations for the unclassified degrees in the Faculties of Medicine and Dentistry, may be released on request to Government agencies and Research Councils for the purposes of assessing applications for studentships for postgraduate degrees; and to institutions of higher education within the United Kingdom and overseas for the purposes of credit transfer.

All assessments are marked out of 100 in accordance with the generic marking criteria and discipline specific criteria, where issued. Examiners should use the full range of marks.

T20.1 Scaling of module marks or final overall scores to a predetermined distribution shall not be employed by the examiners.

T20.2 Module marks shall be rounded up (≥ 0.5) or rounded down (<0.5) to the nearest integer. The final overall mark for a programme of study shall be rounded up (≥ 0.5) or rounded down (<0.5) to the nearest integer before the final classification of the award is made.

Last reviewed: May 2020
Updates approved: ASSC May 2020, AB June 2020
T21 Reassessment is at the discretion of the Assessment Sub-Board. For failed assessment, two reassessment opportunities may be permitted at levels 3 or 4 and one reassessment opportunity may be permitted at levels 5, 6 & 7. The final module mark following reassessment is capped at the relevant pass mark.

T21.1 Students who have failed a module within the condonable range (for those programmes permitting condonable fails) but who have met the requirements for award should normally be classified and no reassessment offered.

T21.2 A student who fails a module at the first attempt may, at the discretion of the Assessment Board, be reassessed in that module on two further occasions for a level 3 or 4 module or on one further occasion for a level 5, 6 or 7 module. The programme specification will clearly delineate the responsibility for offering reassessment to students undertaking a combined studies programme. Any conditions attached to reassessment will be specified in the regulations of the programme of study concerned.

T21.3 Where a student fails an assessment and is permitted reassessment, the Assessment Sub-Board shall determine whether the student is required to sit the assessment with or without further attendance.

T21.4 When a student is reassessed in an element of assessment, in no case shall the final module mark be higher than the relevant pass mark. Where the student fails to achieve a pass level for reassessment, the highest mark of any attempt will be recorded.

T21.5 The individual assessment marks will be recorded uncapped on the student administration system but the overall module mark will be capped.

T21.6 Where a module is assessed by more than one element of assessment and the module/programme specifications do not specify a qualifying mark or core competency for any individual element of assessment, then a student will be deemed to have achieved the learning outcomes of the module if they gain the relevant pass mark in the aggregate mark for the module.

T21.7 In cases where a student fails to gain the relevant aggregate pass mark in a module at the first attempt, the module/programme specification will stipulate how the student is to be reassessed in order to determine whether the learning outcomes of the module have been achieved, taking into consideration that the final module mark will be capped at the relevant pass mark.
Where a module is assessed by more than one element of assessment and one or more elements have a specified qualifying mark or define a core competency then the module specifications will make clear which one of the following will apply when a student fails that specified element of assessment:

a) the element of assessment requires the student to achieve a specified qualifying mark. A student who fails to achieve the qualifying mark will be reassessed in that element of assessment. The final module mark will be capped at the relevant pass mark;

b) the element of assessment requires the student to achieve a specified qualifying mark. A student who fails to achieve the qualifying mark will be reassessed in all elements of assessment of the module. The final module mark will be capped at the relevant pass mark;

c) the element of assessment is defined as a core competency, requiring a student to achieve a minimum acceptable standard in that activity as part of their professional portfolio. A student who fails to achieve the minimum acceptable standard will be allowed a prescribed number of further attempts, with a numerical mark for the element of assessment only being awarded once the minimum acceptable standard has been achieved. Where the minimum acceptable standard is achieved at the first attempt the numerical mark awarded for the element of assessment will be in accordance with the published marking scheme. Where the minimum acceptable standard is achieved at anything other than the first attempt, the numerical mark awarded for the element of assessment will be capped at the relevant pass mark, however this will not result in the overall module mark being capped.

Where a student fails a module with a mark outside the condonable range an Assessment Sub-Board may, subject to provision within the programme specification, permit a student to register for a substitute module (see substitute modules in useful links below).

For level 4, 5 and 6 modules (and level 7 modules taken as part of an integrated Masters programme) a second attempt at summative assessment for the purpose of reassessment shall be held prior to the start of the next academic session. Formal written examinations for the purpose of reassessment following failure in examinations held during Examination Period One or during Examination Period Two will take place during Examination Period Three. A third attempt at a formal written examination (level 4 only) may be deferred until the subsequent year and the Assessment Sub-Board may require further attendance.

Reassessment for King’s Online Managed programmes will normally take place in the next teaching period unless a student submits a mitigating circumstances request or takes a formal interruption of study. An informal interruption of study will not exempt a student from reassessment.
T21.12 Reassessment for credit-bearing Massive Open Online Courses (MOOCs) will take place during the next run of the MOOC. A formal calendar of dates will be published in advance.

T21.13 Where an Assessment Sub-Board determines that a student may not be permitted a further attempt at an examination, and where this decision would prevent a student from completing their programme of study, the student’s registration will be terminated. The Assessment Sub-Board will consider the student for any exit award for which they may be eligible.

T21.14 A student on a taught postgraduate programme who has failed to satisfy the requirements of an award, but has been offered a reassessment opportunity, will normally be reassessed, and an Assessment Sub-Board convened to reconsider their award, within four calendar months, and no longer than six calendar months, from the date that the reassessment(s) was first offered.

T22 In some circumstances a student may be permitted to substitute a failed module with an alternative module or modules of the same credit value.

Substitute modules

T22.1 Under exceptional circumstances an Assessment Sub-Board may permit a student to register for a substitute module or modules in place of a non-core and non-compulsory module failed at the first attempt (or second attempt at level 4) with a mark outside the condonable range. The substitute module must be of equivalent credit weighting and level as the original module or, if more than one substitute module is offered, these must cumulatively hold the same credit value of the module to be replaced. Under these circumstances neither the credit nor the marks gained by the student in the original module will be used by the Assessment Sub-Board in determining any final award classification.

T22.2 In addition:
   a) the module being substituted may not be compulsory or core to the programme of study;
   b) the Assessment Sub-Board must be satisfied that, on academic grounds, the candidate is unlikely to achieve a condonable mark at the next attempt;
   c) the mark gained by the candidate in the substitute module will be capped at the pass mark (40 for levels 4, 5, 6 and 50 for level 7);
   d) the aggregate credit value of substitute modules and modules with condoned fail marks will not exceed the maximum number of credits permitted with a condoned fail mark (programme specific);
   e) the number of attempts the candidate is allowed at the original module and the substitute module combined will not exceed the total number of attempts allowed at any single module.

T23 Confirmed marks of 69, 59, 49, 39 and 32 indicate agreement that the assessment is not deserving of the class above.

No appendix
T24 Students taking level 4, 5, 6 or 7 modules at other University of London Colleges can transfer marks and credits.

T25 Students taking level 4 or 5 modules at other institutions can transfer credits only.

T26 Students taking level 6 or 7 modules at other institutions can transfer marks and credits using annually approved mark translation schemes.

Off-site study

T24-26.1 Intercollegiate modules taken by a student of the College as part of their programme of study will be assigned a nominal credit value and level by the relevant Faculty Education Committee.

Off campus study and credit transfer

T24-26.2 A Faculty may grant credit where it is permitted or required for a student to spend part of their programme of study taking modules taught and assessed by another higher education institution, or an organisation relevant and suitable to the field of study, under the following conditions:

a) that the institution and programme of study have been approved for the purpose under the procedures established by the relevant committee of the Academic Board;

b) that the study carried out is necessary for the fulfilment of the objectives of the programme of study to which it will contribute;

c) that satisfactory arrangements for the assessment of the student’s performance while attending the institution have been reviewed by the appropriate Assessment Board on an annual basis.

T24-26.3 The aggregate period of study spent elsewhere shall be determined by the Faculty in which the student is registered and detailed in the programme specification, provided that, for students following a full-time programme of studies for a first degree, the minimum duration of the period of study on modules taught and assessed by the College shall be at least two years.

T24-26.4 Robust mark translation schemes must be approved by the Academic Standards Sub-Committee every three years.
T24-26.5 The relevant Assessment Sub-Board shall ratify the results in respect of the period of study spent elsewhere subject to the following provisions:

a) that the conditions given above are satisfied;

b) that the credit granted and results recommended are in accordance with the relevant programme regulations and Assessment Board marking schemes; and

c) that for a first degree the maximum credit granted shall not exceed 120 credits in value.

T27 Students who have transferred onto a programme from another institution transfer credits only and the student's classification shall be based entirely upon performance in modules assessed by the College.

No appendix
T28 All module marks from Year Two onwards will be used in the degree algorithm. Marks obtained in Year One will not be used in determining a student's C score. Where credit has been awarded for a condoned fail the final module mark will be the highest overall mark achieved. Where a substitute module is taken, the mark from this module is used.

No appendix
T29 There are no exceptions to the award rules. Boundaries cannot be lowered, and exceptions cannot be made

No appendix
T30 - 32 apply to Bachelor and Integrated Masters Degrees:

**T30 Weighting schemes apply and a c-score between 0-100 is calculated by the formula below:**

\[
c\text{-score} = \frac{\text{the sum of the weighted marks (mark x relevant credit volume x weight)}}{\text{the sum of credit volume x weighting}}
\]

**T30.1** This weighting scheme applies to students commencing the first year of their programme in 20/21. This scheme must be read in conjunction with T28.

**T30.2** For the purpose of considering students for the award of honours, module marks will be weighted as follows:

For BA, BEng, BMus, BSc, BSc(Eng) and LLB degrees:

a) the marks for the best 90 credits at level 6 (and/or level 7 where taken) will be given a weighting of 5. Condoned fails may not be included in the best 90 credits

b) the marks for any remaining level 6 credits (and/or level 7 where taken) and any level 5 credits will be given a weighting of 3

c) the marks for any level 4 credits will be given a weighting of 1.

For integrated Masters degrees (MEng, MPharm, MSci):

d) the marks for the best 120 credits at level 7 will normally be given a weighting of 7

e) the marks for any remaining level 7 credits and all level 6 credits will be given a weighting of 5

f) the marks for all level 5 credits will be given a weighting of 3

g) the marks for any level 4 credits will be given a weighting of 1.

**T30.3** For integrated Masters degrees, individual programme specifications will detail any alternative level 7 weightings agreed by Academic Standards Sub-Committee.

T35 – T37 apply to Masters Degrees (excluding Integrated Masters):

T35 An overall score between 0 – 100 is calculated as detailed below:

\[ \text{The weighted average of all individual module marks where each module is weighted by its credit volume} \]

T36 To be eligible for award students require:
- an overall average of at least 50 with no module mark below 40 and
- a mark of at least 50 in 150 credits (300 credits for M Clin Dent) including the dissertation, and a mark of at least 40 in the remainder

T37 Classifications are indicated by the following overall scores:

- 70 - 100 inclusive  Pass with distinction
- 60 - 69 inclusive   Pass with merit
- 50 - 59 inclusive   Pass
- 0 - 49 inclusive    Academic Fail
T38 - T40 apply to Postgraduate Diplomas and Postgraduate Certificates:

T38 An overall score between 0 – 100 is calculated as detailed below

The weighted average of all individual module marks where each module is weighted by its credit volume

T39 To be eligible for award students require:
- an overall average of at least 50 with no module mark below 40 and
- a mark of at least 50 in 90 credits (PGDip) or 45 credits (PCCert), and
  a mark of at least 40 in the remainder

T41 Where a final year undergraduate student has completed the full period of study but is absent from the final examinations, the student may be eligible for consideration under the aegrotat provisions.

Aegrotat degrees

T41.1 Where a final year undergraduate student has completed the full period of study and is absent through illness or other cause judged sufficient by the relevant Assessment Sub-Board from examinations during the final year, the student may be eligible for consideration under the aegrotat provisions.

T41.2 Aegrotat provisions do not apply to the following degrees which have a mandatory professional practice component:
   a) MBBS;
   b) BDS;
   c) MPharm;
   d) BSc Physiotherapy;
   e) BSc Nutrition and Dietetics and
   f) all Nursing, Midwifery and Specialist Community and Public Health programmes with/leading to registration.

T41.3 If a student has satisfied the requirements for the award of a degree as laid down in the programme specification, the Assessment Sub-Board approve the award of the degree with an honours classification. The relevant Assessment Sub-Board shall not approve a recommendation for the award of a class of degree higher than the overall level which the student has achieved in the work actually presented.

T41.4 If a student fails to satisfy the requirements for the award of a degree an application for the award of an aegrotat degree must be submitted by the student, or the student’s representative, to the relevant Assessment Sub-Board accompanied by a medical certificate or other statement of the grounds on which it is made, as soon as possible and in any case within six weeks from the last date of the module examination(s) to which the application refers.

T41.5 Where an application has been submitted and the Assessment Sub-Board is unable to recommend the award of a degree with Honours, the Board shall consider whether there is sufficient evidence to suggest that had the student completed the final assessment in the normal way, the student would clearly have reached a standard (and completed the necessary modules) which would have qualified the student for the award of the degree. If the Assessment
Sub-Board determines that the student meets the criteria for award of the Aegrotat Degree it will ratify the award.

T41.6 If an Assessment Sub-Board determines that the student does not meet the criteria for an Aegrotat Degree, it will then consider the student for any relevant exit awards.

T41.7 An Assessment Sub-Board will ratify a recommendation for the award of an Aegrotat degree where eligibility has been or an exit award where eligibility has not been demonstrated.

T41.8 A student who has been awarded an Aegrotat degree will not be eligible thereafter to re-enter for the examination for a classified degree.

T41.9 Aegrotat degrees will be awarded without distinction or class.

Exemptions: can be submitted by Faculty Assessment Board Chairs for consideration by the Vice-Principal (Education). Apply here. All outcomes are reported to ASSC.

Last reviewed: May 2020
Updates approved: ASSC May 2020, AB June 2020
T42 Where a student has failed to satisfy the examiners in one or more elements of the programme an Exit Award may be available under the exit award provisions.

Exit awards

T42.1 Where a student has failed to satisfy the examiners in one or more elements of a programme and:
   a) has exhausted any available reassessment opportunities or has terminated their studies early; and
   b) has met the criteria for a lower level or lower volume exit award

except where a waiver has been granted, the Assessment Sub-Board will in accordance with College policy and criteria, recommend the award of the relevant exit qualification. The title of the exit award will reflect the pattern of study completed successfully by the student and is detailed in the programme specification.

T42.2 Exit awards at Level 6 and 7 will be awarded with classification where the student has satisfied the requirements for such an award. Where the credit accumulated exceeds the requisite amount for the exit award being conferred only the credits with the best marks that make up the required amount will be selected to calculate the overall average.

T42.3 Exit awards at levels 4 and 5, level 6 for an Ordinary Degree and level 7 for a Postgraduate Certificate or Postgraduate Diploma must adhere to the College’s agreed standard level of learning outcomes as detailed in the Quality Assurance Handbook. Those exit awards that are outside of this remit must have programme defined learning outcomes.

T42.4 An Assessment Board may request a waiver to the requirement to award exit awards; all such requests must be approved by the Academic Standards Sub-Committee.

Posthumous awards

T42.5 Based on the credits attained, the highest level exit award, or an Aegrotat may be awarded posthumously.

Useful links

QA handbook
Exceptions: The School of Law has waived the requirement to award Exit Awards (King’s Online Managed Programmes excluded).

Exemptions: can be submitted by Faculty Assessment Board Chairs for consideration by the Vice Principal (Education). Apply here. All outcomes are reported to ASSC.
T43 The College considers mitigating circumstances to be recognisably disruptive or unexpected events beyond the student’s control that might have a significant and adverse impact on their academic performance. The Mitigating Circumstances Policy applies to students on taught programmes. Marks will never be raised due to mitigating circumstances.

T43.1 The College considers mitigating circumstances to be recognisably disruptive or unexpected events beyond the student’s control that might have a significant and adverse impact on their academic performance.

T43.2 A student who either fails to submit coursework for assessment or submits after the deadline, and has not made a request for an extension, or who has not satisfied the Chair of the Assessment Sub-Board that their mitigating circumstances offer valid reasons for submitting late work, will have an automatic penalty applied. Work submitted within 24 hours of the deadline will be marked, but the mark awarded will be no greater than the pass mark. Work submitted after the 24-hour deadline will receive a mark of zero. Such a student may, at the discretion of the relevant Assessment Sub-Board, be permitted to attempt the coursework again if the regulations for the programme permit such reassessment.

Last reviewed: May 2020
Updates approved: ASSC May 2020, AB June 2020
There is an academic appeals process available to undergraduate and taught postgraduate students. This cannot be used to challenge academic judgement.

Academic Appeals for students on taught programmes

T44.1 The Head of Student Conduct and Appeals (HoSCA) holds delegated responsibility for the Appeals process from the Director of Students and Education.

T44.2 Other than the below, no decision of an Assessment Sub-Board, acting in accordance with College regulations, may be modified.

T44.3 The appeals process cannot be used to challenge academic judgment; appeals based on academic judgment will not be considered.

T44.4 In accordance with these regulations marks will never be raised following an academic appeal based on T44.12 (a).

T44.5 It is expected that all parties involved in an academic appeal will act reasonably and fairly and treat the process in a respectful manner. If inappropriate behaviour is displayed, action may be taken.

T44.6 The College may pause or stop the consideration of any appeal submitted where the student is suspected to be in breach of Academic Regulation G27 or G29, and action should be taken under those regulations.

T44.7 If an appeal contains matters which fall under Academic Regulation G31, consideration of the appeal may be paused until the complaints process is complete. In such cases, the findings of the complaint investigation may be considered as evidence for the appeal.

T44.8 Group appeals are permitted. In the first instance a group should raise any issues with the programme lead via their student representative or a nominated member of the group. If the matter is not resolved, the nominated student will then submit the appeal and communicate with the College on behalf of the group. Any outcome of an appeal will apply to all members of the group.

Duty to Make Reasonable Adjustments

T44.9 In accordance with the Equality Act 2010 the College will consider any reasonable adjustments to these regulations to take into account the needs of
individual students.

Collaborative provision

T44.10 Where a student from another institution takes an intercollegiate module with the College as the Host Institution, the College will manage the academic appeal process under these regulations.

Stage One Appeal

T44.11 Students should submit a Stage One Appeal Form within 15 working days of the release of ratified results. Appeals received after this deadline will only be accepted at the discretion of the HoSCA.

T44.12 A student may appeal on either or both of the following grounds:

a) where there is evidence that assessment(s) may have been adversely affected by mitigating circumstances which the student was unable, or for valid reasons unwilling, to make known before the original decision was reached;

b) where there is clear evidence that assessment(s) may have been adversely affected by a significant administrative error on the part of the College or in the conduct of the assessment.

T44.13 A Stage One appeal may be rejected before forwarding to the Assessment Board for consideration in the following circumstances:

a) where the appeal is not made on the correct form, or the form is incomplete;

b) where the appeal has been submitted late;

c) where, if appealing on ground T44.9 there is no independent third-party evidence of the mitigating circumstances; or the evidence provided is not a certified translation;

d) where the appeal contains no evidence that either of the grounds for review has been met;

e) where the appeal is frivolous or vexatious; and/or

f) where the appeal does not fall within the scope of this regulation and should be considered under an alternative regulation.

T44.14 If the appeal is rejected at this stage a student can contest this decision but is not able to submit additional evidence.

T44.15 Any contestation submitted must be submitted to the HoSCA within 5 working days of the date of notification of the decision. The HoSCA will consider whether the decision to reject the appeal was made in accordance with these regulations. If the contestation is accepted, the appeal will be passed to the Assessment Board for consideration. If the contestation is
rejected, there are no further opportunities for the appeal to be considered.

T44.16 The Assessment Board will normally consider the appeal and report its decision to the HoSCA within 30 working days of the release of results.

T44.17 The Assessment Board will decide whether the grounds for appeal have been met or not. Where the ground(s) have been met, the Board will decide whether to modify or confirm its original decision. Where the ground(s) have not been met, the original decision of the Board stands. The Board may also reject the appeal on any of the filter grounds set out in T44.10, or where the student has challenged academic judgment.

T44.18 A written statement confirming the decision of the Board and the reasons for this will be prepared by the Chair of the Board. This statement should be sent to the HoSCA and included in the outcome letter which is sent to the student.

Stage Two Appeal

T44.19 Students may appeal the decision of an Assessment Board on the following grounds:
   a) that there is new evidence that could not have been, or for good reason was not, made available at the time of the Stage One submission and that sufficient evidence remains that the appeal warrants further consideration; and/or
   b) that evidence can be produced of significant procedural error on the part of the College in considering the appeal, and that sufficient evidence remains that the appeal warrants further consideration; and/or
   c) giving due consideration to the evidence and representations previously provided, the decision of the Assessment Board was unreasonable.

T44.20 Students should submit a Stage Two Appeal Form within 10 working days of the Stage One Appeal outcome. Appeals received after this deadline will only be accepted at the discretion of the HoSCA.

T44.21 The HoSCA (or their nominee) will normally advise the student in writing of their decision on the appeal request within 30 working days of receipt. If it is determined that an appeal should be heard an Appeal Committee will be arranged in accordance with the Appeal Committee Structure.

Stage Two Appeal – Appeal Committee

T44.22 The student may be represented at the Appeal Committee by another College member or a member of the student’s professional organisation (where applicable) or a member of the King’s College London Students’ Union.
Additionally, the student may be accompanied by a family member or a friend who will not be able to speak on the student’s behalf, unless this is a reasonable adjustment, such as a sign language communicator or interpreter.

If the student is to be represented or accompanied, the name of the person who is to attend must be received in writing by the HoSCA at least 48 hours in advance of the Committee. The Chair of the Appeal Committee may accept or reject a request, and their decision will be final. The Chair may refuse to permit a representative, friend or family member to attend where 48 hours’ notice has not been received.

Written notice of the Committee will normally be sent to the student, together with the names of the Committee members and the Chair, and all documentary evidence, at least 10 working days before the Committee date. Any concerns regarding documentation or membership of the Committee should be raised in writing by the student at the earliest opportunity to the HoSCA.

New evidence that has not already been submitted as part of the appeal will not normally be considered by the Appeal Committee. Should either party wish to submit new evidence this must be done at least 5 working days before the Committee date. The Chair of the Appeal Committee may accept or reject new evidence, and their decision will be final.

The Appeal Committee shall consider the documentary evidence and invite the student and the Assessment Board Chair (or their nominee) to give evidence. Other persons shall be asked to attend to give evidence if the Committee wishes.

The absence of the student or the Chair of the Assessment Board will not prevent the Committee from taking place nor invalidate the proceedings. In the event that a student has indicated they will attend but then cannot do so for good reason, an adjournment would generally be considered.

The Appeal Committee will determine whether there is sufficient reason to challenge Stage One Appeal outcome. If there is sufficient reason, the Appeal Committee can set aside the decision of the Assessment Board and replace it with one of its own, or it can refer the case back to the Assessment Board for fresh consideration with commentary. If there is insufficient reason, the appeal will be dismissed and the outcome of the Stage One Appeal will stand.

Where an appeal is upheld, the Appeal Committee may set aside an attempt at an assignment or module and permit the student to be re-assessed in any specific assessment or specific module, not limited to those listed by the student in their appeal. The Appeal Committee has the discretion to consider other decisions, but these must comply with the College regulations and the relevant programme requirements.
An Appeal Committee is not an Assessment Board, and cannot raise marks in assignments or modules, amend marks from fail to pass, raise degree classifications or make awards. If a successful appeal is regarding an award or classification the student’s appeal will be referred back to the relevant Assessment Board for reconsideration.

The decision of the Appeal Committee is be final. There is no further right to appeal and no right to appeal against the decision of the Assessment Board if the case has been referred back to the Board.

The decision of the Appeal Committee shall normally be communicated in writing by the HoSCA to the student, and the Chair of the Assessment Board, within 5 working days of the decision of the Appeal Committee.

Students have no automatic right to continue with their studies or to progress to the next stage of their programme pending the outcome of an appeal; the Faculty may exercise their discretion to allow this attendance, if applicable and permitted by the programme regulations.

Last reviewed: May 2020
Updates approved: ASSC May 2020, AB June 2020
R1 In addition to the General Regulations, the Regulations for Research Degrees apply to all students registered on research degree programmes at the university. For research degree programmes with taught elements, the Regulations for Taught Programmes will also apply. Appendices attached to these regulations setting out the framework for the management of research degrees and research degree students are reviewed annually by the Centre for Doctoral Studies

R1.1 King’s College London offers the following programmes:
- Master of Philosophy (MPhil)
- Master in Philosophical Studies (MPhilStud)
- Doctor of Philosophy (PhD) Doctor in Health Care (DHC)
- Doctor in Theology and Ministry (DThM)
- Doctor in Professional Studies (DrPS)
- Doctor in Education (EdD)
- Doctor of Medicine (Research) (MD(Res))
- Doctor in Clinical Psychology (DClinPsy)

R1.2 The academic regulations, appendices and programme specification for research degrees involving taught elements set out the minimum requirements of the university; the faculty of registration may specify additional and more stringent requirements.

R1.3 Except as provided for under the appendices on Collaborative research degrees and Off-campus study for research degrees, students will centre their academic activities on the university and attend at such times as the university or faculty might require.

R1.4 Students must adhere to the university’s regulations on Research Ethics and Research Misconduct, as well as adhering to the compliance sections of the General Academic Regulations.

Entrance Requirements

R1.5 Students must adhere to the general entrance requirements specified in Academic Regulation G6, along with the below research programme-specific requirements.

R1.6 The minimum entrance qualification is an Upper Second-Class Honours degree in a relevant subject, or an equivalent overseas qualification obtained after at least three years study. Any additional requirements will be detailed in the
Students who do not meet the minimum entrance requirements may be admitted if they hold an alternative qualification of an equivalent or higher level in a relevant subject, or can prove relevant professional experience which satisfies the Associate Dean for Doctoral Studies in the faculty of registration that the applicant can follow and complete the programme.

To be eligible for registration for the MD(Res) degree, an applicant must have obtained the MBBS degree or another registrable primary qualification in Medicine from a higher education institution and be eligible for full registration or hold limited registration with the General Medical Council.

It is the responsibility of the faculties to have transparent selection procedures in place in order to accept students onto postgraduate research programmes. Following an initial screening, selection will be by interview either face to face or by another communication method as deemed appropriate by the faculty. Offers for a place can then only be made by the appropriate authority within the faculty and via an offer letter from the Postgraduate Admissions office.

**Mode of study**

Students can enrol for full-time or part-time study.

Students whose personal circumstances are considered by the university to prevent full-time study may be considered for part-time study, examples of which include:

- students engaged in earning their own livelihood who provide evidence from their employer to that effect at registration;
- students who are registered as unemployed;
- students who are acting as a full-time carer for a spouse and/or family member;
- students registered as internal postgraduate research students who are also employed as a member of staff of the university.

Registration for MPhil or PhD is permitted under the full-time employees’ guidance.

Full-time students are expected to undertake a full working week of 35 hours on their research degree on average throughout the year, apart from when on annual leave.

It is expected that part-time students will spend at least the equivalent of 17.5 hours per week on their research degree on average throughout the year.
R1.15 Students will be allowed to change mode of study from full-time to part-time or vice versa only once during their period of study unless this is a funder’s requirement.

R1.16 Students are not permitted to transfer mode of attendance in the final year leading up to their submission deadline.

R1.17 Regardless of mode of attendance status, students are entitled to annual leave between a minimum of four weeks and up to a maximum of eight weeks per year, inclusive of public holidays and university closure dates. Students must agree their annual leave in advance with their supervisor. Excessive absences should be reported to the faculty via normal progress report procedures.

R1.18 Some restrictions may apply to periods of leave for students holding international visas to study in the UK. These students may be under obligation to report annual leave periods to the Visa Compliance team for monitoring purposes, as defined by Home Office Tier 4 immigration policy and internal university procedures which underpin Home Office requirements.

Funded Students

R1.19 Students in receipt of externally funded studentships may have to adhere to funder’s requirements which override university regulations.

R1.20 The student’s acceptance of the offer of funding and the terms and conditions of the funding will be taken as proof that the student accepts these requirements. The main funders’ additional requirements will be clarified in the offer letter or supporting documentation.

R1.21 Any student who received funding as part of their degree but who is in an unfunded period, such as writing up, will still be considered a funded student and funder’s regulations will continue to apply until completion of the degree.

Last reviewed: May 2020
Updates approved: PRSS May 2020, AB June 2020
R2 A research degree programme incorporates a substantial research component which is carried out during the period of registration and which results in the submission of a thesis for examination at research degree level.

Arrangements for off-campus study

R2.1 A student may be permitted to spend part of their programme in off-campus study under conditions prescribed by the faculty of registration and within the framework of the regulations. Such conditions must ensure that:

a) prior permission is obtained by the student from the responsible authority within the faculty and that a plan for monitoring the off-campus study is agreed with the student by the responsible authority before any period of off-campus study is undertaken;

b) the conditions set by the faculty ensure that the regulatory requirements of the university regarding attendance and programme of study are met;

c) regular contact with the supervisors is maintained;

d) where the period of off-campus study exceeds three months, arrangements are made through the supervisors for reports on the student’s progress to be made at regular (at least six-weekly) intervals;

e) awareness that the appendices on Collaborative research degrees may also apply.

R2.2 Students not based in the UK for the duration of their programme must ensure that:

a) prior to registration, permission is obtained by the student from the responsible authority within the faculty;

b) a plan for monitoring the study progress is agreed with the student by the responsible authority by the first formal progress report sign-off.

R2.3 A student must centre their academic activities on the faculty of registration for a period of at least six months, of which defined periods of attendance must be at the beginning of the period of registration, including at induction; at the period of upgrade; and immediately before the submission of the thesis and any other times specified by the faculty. It should be noted that separate regulations and procedures govern students registered under collaborative research degree programmes.
R2.4 The responsible authority within the faculty is the Chair of the Faculty PGR Committee/Associate Dean for Doctoral Studies. They should satisfy themselves that:

a) it is in the interests of the student’s work that they should spend a period of study off-campus; and

b) the institution or place in which the student proposes to study is suitable in terms of the facilities and academic supervision available; that it is willing to provide the necessary facilities and supervision, and that the student will be adequately insured.

R2.5 The arrangements for monitoring the progress of the student will include the appointment of a local supervisor, who will supervise the student on a day-to-day basis, as well as maintaining frequent contact with the student’s first supervisor at King’s. In addition to this it is expected that formal monitoring will continue to take place in line with normal procedures.

R2.6 Any student wishing to spend less than the six months required at the university must gain the permission of their faculty, in order that an exemption to the regulations can be sought from the Chair of Academic Board.

R2.7 Timelines for submission are the same as for students whose studies are centred at the university and therefore off-campus study will not be permitted as a reason for late submission.

R2.8 Double counting is not permitted, thus a student registered as off-campus will receive a research degree of King’s College London and not of an external institution, unless they are registered under a formal collaborative research degree programme for a joint award.

R2.9 Students must complete an off-campus study form in accordance with procedures in the faculty of registration and submit this to the relevant Registry office. Any changes to the plan must be communicated to the Registry office.

- Collaboration with external organisations (R3)
- Glossary

Exemptions: can be submitted by Associate Dean for Doctoral Studies for consideration by the Dean for Doctoral Studies. Apply here. All outcomes are reported to PRSS.
Students may enrol on research degree programmes that are offered in formal collaboration with external partner institutions.

Joint PhD programmes

R3.1 A joint PhD is a programme run in collaboration between King’s College London and a partner institution, leading to a jointly awarded qualification.

R3.2 Students must select a home institution at the application stage, where they will start and end their programme. King’s home students must comply with the normal university regulations, with the exceptions listed below.

R3.3 Students will be required to spend a specified minimum period of time at the partner institution during the course of their studies.

R3.4 Students will be required to provide details of their travel plan at the application stage. Any changes to this must be discussed with supervisors and approved by both institutions.

R3.5 Admission to joint PhD programmes is run in collaboration with the partner institution and approval must be received from both institutions before an offer can be made.

R3.6 Students must have supervisors based in both institutions who will work together to monitor progress, though the majority of the administration will be managed by the home institution.

R3.7 Students must enrol at both institutions and re-enrol each year throughout their programme.

R3.8 The progress of students on joint PhD programmes will be monitored according to the procedures of the home institution. In some cases, students may also be required to completed progress reports whilst at the partner institution.

R3.9 Students must follow the upgrade procedures of their home institution. Any King’s-home students who do not upgrade to PhD may be awarded an MPhil, but this will be awarded solely by King’s College London.

R3.10 Any requests for changes to registration status should be referred to both institutions, usually via supervisors in the first instance, so that both hold accurate records.
R3.11 Students will follow the examination procedures of their home institution and will usually be examined by a panel of at least three examiners. This will normally take place at the home institution and may involve use of video conferencing.

R3.12 Students must submit final copies of their thesis to both institutions. Students should check with the partner institution for confirmation of the number of copies required and method of submission.

R3.13 Students must follow the procedures for ethical approval set out by the Research Ethics Office. If a student intends to conduct research requiring ethical approval in the country of the partner institution, approval must also be gained from that institution according to its procedures.

R3.14 Students on joint PhD programmes who wish to make a complaint will normally do so through the process of the institution where they are resident at the time, in so far as the complaint relates to their study at that particular university. Students who wish to make an appeal in respect of academic progress or concerning a decision of the examiners will do so by using the procedures of the designated home institution.

Split-Site PhD programmes

R3.15 Students on split-site PhD programmes should comply with the normal King’s College London Regulations, with the exceptions listed below.

R3.16 The minimum period of residence in the UK for students on a split-site MPhil/PhD programme will depend on the agreement between their Research Institution and their faculty at King’s, but will normally involve periods at induction, upgrade, submission and oral examination.

R3.17 Students on split-site programmes must have supervisors based in both institutions. The external supervisor will need to be approved by the faculty at King’s where the student is based, using their normal procedures.

R3.18 Supervisors should work together to monitor progress and comply with normal university processes and procedures for documenting this.

Public Research Institutions and Industrial Laboratories (MPhil and PhD programmes only)

R3.19 A person engaged in research in a non-degree awarding, government or other public research institution or in an industrial research laboratory is eligible to apply for registration as a non-resident student of the university for the degrees of MPhil or PhD and, if accepted, to carry out the major part or the whole of their research for the degree at the research centre concerned, subject to the special provisions below.
R3.20 Notwithstanding the above, the student must satisfy the faculty that they are following a prescribed programme of study appropriate to lead towards the award of MPhil/PhD. The nature of the programme offered by the institute or laboratory will determine whether part-time non-resident or full-time non-resident registration is applicable.

R3.21 For non-resident students under this scheme, the prescribed programme of study shall be carried out under the primary supervision of an external supervisor at the institution or laboratory at which the student is based. A second supervisor shall be appointed from an appropriate department at the university. The external supervisor must be eligible to act in accordance with the supervision regulations.

R3.22 External supervisors will maintain close contact with the university supervisor in regard to the general strategy of the research and, in order that the student may acquire background knowledge and skills relevant to their research, the prescribed programme of study should include elements requiring formal participation by the student, such as attendance at university lectures, tutorials, seminars, training sessions and appropriate consultation with the university supervisor.

R3.23 Students will normally have joint face-to-face meetings with both supervisors at least twice a year and monthly contact with the university supervisor. It is also expected that the external supervisor will ensure regular contact with the department at which the student is registered.

R3.24 The application for registration as a part-time or full-time non-resident must have the support of the authorities of the institution or laboratory at which the research is conducted, who shall confirm that:

a) the student will be able to attend the faculty for the prescribed programme of study;

b) no additional restriction will be placed upon presentation for examination of the thesis;

c) a successful thesis shall be made available in accordance with the academic regulations;

d) except in so far as these regulations make specific provision, the student will be required to comply with all relevant academic regulations and appendices both generally and those relating to progression, the transfer of registration from MPhil to PhD degree, and transfer to writing-up status specifically. If the institution or laboratory at which the research is conducted has progression monitoring procedures that the faculty of registration considers are appropriate, these procedures may be used in place of the university procedures.
R3.25 Where a student ceases to work at the centre for which their registration has been approved, their registration as a student for the MPhil/PhD degree shall cease at the same time. Where the new place of employment also satisfies the requirements for registration under these regulations the student may apply to the faculty at which they are registered for transfer of registration. The faculty shall inform the relevant university authority of any change in the place of research.

Written agreements and contracts

R3.26 For any work in collaboration with an external organisation, a contract or written agreement will detail the terms of the collaboration.

R3.27 If a student’s programme is supported by industrial or other external sponsorship, the student’s faculty will ensure a written agreement or contract includes the following:

a) the programme of research to be carried out;

b) the financial contribution and other assistance to be provided by the sponsor;

c) the names and addresses of the sponsor’s industrial supervisor, where appropriate, and the university academic supervisor;

d) the period of sponsorship.

R3.28 The contract will make provision for the supervisor at the partner institution who is identified in the contract to assist the student with the work; hold regular consultative meetings between the parties involved (at least two in each semester); and will define the responsibilities of the parties in respect of publication, disclosure of confidential information and of intellectual property rights.

R3.29 The written agreement or contract shall not prevent the inclusion of some or all of the information, or the conclusions, generated during the programme of study in the thesis submitted for examination. This is subject to the delivery of a complete final draft of the thesis to the sponsor not less than nine weeks prior to submission for examination. The university and the student will give sympathetic consideration to any suggestion received from the sponsor at least five weeks prior to submission concerning:

a) amendments to the thesis; and

b) the lodging of a copy of the thesis in the Library, with such limitations as may be requested by the sponsor in the event that publication would in the sponsor’s opinion be prejudicial to the obtaining of patent and/or
other intellectual property protection, or would harm the commercial interests of the sponsor.

R3.30 The student and their academic supervisors shall undertake to notify their faculty if:

a) work is terminated early or interrupted for a continuous period of more than three months without prior permission of the faculty and the sponsor; or

b) if the sponsor and the faculty agree that performance is unsatisfactory due to lack of reasonable diligence by the student and/or due to premature termination or interruption for a continuous period of more than three months.

R3.31 The contract may be terminated after the normal procedures for review of research students’ work as prescribed by the faculty have been completed.

R3.32 Other terms will be as specified by contract, but the faculty will ensure that arrangements for students whose research is subject to a studentship agreement are no less favourable than those for other students registered in the faculty and that the regulations of the university which govern research degree students are observed.

Centre for Doctoral Studies
Glossary

Exemptions: can be submitted by Associate Dean for Doctoral Studies for consideration by the Dean for Doctoral Studies. Apply here. All outcomes are reported to PRSS.
R4 Students must adhere to the minimum and maximum periods of registration for the degree they undertake as set out under the Research degree minimum and maximum periods of registration appendix.

Duration of the Programme

R4.1 Expected and required submission deadlines will be set out as part of the admissions offer letter and/or confirmed upon enrolment.

R4.2 Students are expected to submit their thesis within the following timescales:

a) for the PhD programme: within three years of full-time or six years of part-time registration;
b) for the MD(Res) degree: within two years of full-time or four years of part-time registration;
c) for the MPhilStud: within two years of full-time or four years of part-time registration;
d) for professional doctorates: within three years of full-time or six years of part-time registration.

R4.3 Excluding any period of interruption, students are required to submit their thesis within the following timescales:

<table>

<td>Part-time</td>
<td>4 years (48 months)</td>
<td>7 years (84 months)</td>
</tr>
</tbody>
</table>
R4.4  For Professional Doctorates a period of study as defined in the programme specification must be spent on the taught elements of the programme.

R4.5  Where a student fails to submit within the required timeframe as set out above and an exemption request has not been granted to extend or exceed their submission deadline, the student will be classed as having failed to meet the requirements of the programme. Students will have the opportunity to appeal against this outcome in accordance with the Academic appeals for research degree students appendices.

R4.6  An interruption to studies may be requested in case of mitigating circumstances, as detailed in the Interruption of studies for research degrees appendices.

Extending the Thesis submission Deadline

R4.7  In exceptional cases, students may apply for an exemption to the regulations in order to extend their submission deadline.

R4.8  Requests to extend a deadline will change the final submission deadline; however, the student will be classed as on-time submission provided they submit within the approved extended period.

R4.9  Extensions can be requested for circumstances that would otherwise be classified as a reason for interruption, for example illness or personal difficulties. Another possible example might be the sudden unexpected absence of the supervisor.

R4.10  Extensions will not be permitted in cases of bad planning, lack of academic progress or poor communication, for example if the supervisor is away at a conference at a time when the student needs to submit.

R4.11  Requests for an extension to a submission deadline must be made in advance of the deadline.

R4.12  If an exemption is requested based on medical/health problems, appropriate supporting evidence (e.g. medical certificate, counsellors report, etc.) must be provided by the student, noted by the supervisor and kept on the student file for future reference where required. These problems may have been ongoing throughout the research period. Without supporting documentation, an extension may not be granted.

R4.13  Extensions based on purely financial reasons may be considered on an individual basis. However, it is noted that students should prioritise their studies and adhere to the expectations relating to work that are covered in the Research degree entrance requirements and mode of study appendices, and the Working and teaching during a research degree appendices.
R4.14 Applications for exemptions should be made through the Associate Dean for Doctoral Studies for the faculty of registration by completing the exemption request form. Exemptions relating to taught elements of professional doctorates will also require approval from the Faculty Board of Examiners.

R4.15 Once submitted by the Associate Dean for Doctoral Studies, exemption requests for postgraduate research programmes are approved via the Centre for Doctoral Studies. A centralised record is kept to monitor requests.

R4.16 The Centre for Doctoral Studies may decide to change applications to extend the deadline to be approved under the category of exceeding if it is not considered that a sufficiently strong case has been made or the application is submitted after the original deadline has passed.

Exceeding the Thesis Submission Deadline

R4.17 In exceptional cases, students may apply for an exemption to the regulations in order to exceed their submission deadline.

R4.18 Requests to exceed a deadline will leave the original submission deadline unchanged, but the student will be permitted to exceed their submission date and to remain registered in order that they can submit their thesis within an approved period of registration.

R4.19 Exceeding the submission deadline will result in a late submission within the key performance indicators. It is designed to enable a student who is close to submission but who will miss their deadline to submit rather than have their studies terminated.

R4.20 Applications in these circumstances could include requests for students who are approaching or have exceeded their original submission deadline where there is no strong reason for this, for example, lack of organisation, planning or progress.

R4.21 With both of the above types of exemption, the student must submit within the extended period or termination of studies procedures will be actioned.

Updates approved: PRSS May 2020, AB June 2020
R5 Faculties may register students under the Research degree advanced standing and transfer appendix

Advanced Standing

R5.1 With the approval of the relevant faculty, a student who is exceptionally well qualified may be permitted to register for the PhD without first registering for the MPhil. In such cases, the programme of study followed may not be less than two years of full-time or four years of part-time study.

Transfer

R5.2 Faculties may prescribe procedures to register a person who has commenced a programme of study for the MPhil or PhD degree (or equivalent degree) of another university of appropriate standing, or from another department within the university, for the MPhil or PhD degree with exemption from part of the programme of study already completed.

R5.3 Registration for the degree to which transfer has been made should normally date from initial registration for the original degree, although this may be varied in exceptional circumstances on the approval of the faculty.

R5.4 The period of time at the university following the transfer has to be at least one calendar year for full-time students or two years for part-time students. Students who have completed their research and have submitted their thesis for examination may not transfer.

R5.5 A student may transfer from the MPhilStud, the MD(Res) or a professional doctorate programme to the MPhil/PhD programme or vice versa with exemption from part of the programme of study already completed, subject to any requirements that may be set out by the faculty.

Updates approved: PRSS May 2020, AB June 2020
R6 Students may be permitted to undertake paid work, including teaching, during their research degrees

Working During a Research Degree

R6.1 During the registration period, the priority of a student and supervisor(s) is the completion of the research degree. However, with the prior approval of the supervisor, a student may undertake a certain level of work not directly related to their degree, which is undertaken in their own time outside of their degree.

R6.2 It is essential that the supervisor and student ensure that any such work undertaken is not detrimental to the studies. If it becomes apparent that a student’s progress is being affected by additional work then the supervisor should deal with this as a performance issue.

R6.3 Where appropriate, full-time students may also undertake one clinical session (not related to their studies) per week, and/or contribute towards research-related projects not directly related to their studies.

R6.4 Students who are studying on a visa must comply with the restrictions placed on their working hours at all times and if in doubt consult with the Visa Compliance team.

Teaching During a Research Degree

R6.5 Students may be given the opportunity, with the approval of the supervisor(s), to engage in education support by contributing to undergraduate teaching, lecturing, demonstrating practical classes, project supervision and taking tutorials.

R6.6 Students may also be given the opportunity to be involved in both formative and summative assessment activities for undergraduate degrees, with the agreement of their supervisor(s).

R6.7 The student’s teaching responsibilities must be clearly defined in writing, be compatible with their research responsibilities, supported by their supervisor(s), and should not exceed a maximum of six hours per week on average.

R6.8 All students must be provided with appropriate training before commencing any teaching.
R6.9 Students must be fairly paid for any teaching work.

R6.10 Research students who engage in education support under the Graduate Teaching Assistant (GTA) policy should be mentored by an academic member of staff and receive feedback on their activities from the students they have taught.

R7 Faculties are responsible for arranging the supervision of a research degree student as governed by the Research degree supervision appendix

Supervision

R7.1 The roles and responsibilities of the Faculty Postgraduate Research Students Committee, Head of Department/Division, Faculty Associate Dean for Doctoral Studies, supervisors and students are detailed in guidance provided by the Centre for Doctoral Studies.

R7.2 Each student will be allocated a provisional principal (first) supervisor at the time of offer of a place; the first supervisor and further supervisory team (at least one additional supervisor) will be confirmed before registration or shortly thereafter, but at least within the first month of registration.

R7.3 For professional doctorate programmes, the appointment of the supervisors should take place within three months of the student successfully completing the taught elements of the programme.

R7.4 Faculties will have in place procedures for the appointment of supervisors which will ensure that a first supervisor and a second supervisor, or panel of supervisors, is appointed to supervise the research of each student and that the supervisors have appropriate research experience.

R7.5 It is the responsibility of the Head of Department with support from the Faculty Associate Dean for Doctoral Studies, or their delegate, to ensure appropriate cover is provided in case of planned or unplanned absence of the first supervisor of more than thirty calendar days, for example because of illness.

R7.6 If it is deemed necessary to change a supervisor or supervisory team, and it is feasible to do so, it is the responsibility of the Head of Department with support from the Associate Dean for Doctoral Studies, or their delegate, to make arrangements within an appropriate timeframe.

R7.7 Students and supervisors are required to read and sign a student-supervisor agreement within the first month of registration, the format of which may vary. Please refer to the admitting Faculty for relevant details.

R7.8 It is the responsibility of Heads of Departments, line managers, and Associate Deans of Doctoral Studies, or their delegates, to ensure that all supervisors are aware of the standards of conduct and performance expected of them as supervisors. If the faculty Associate Dean believes these standards are not being met, the Associate Dean should raise their concerns with the Heads of...
Departments, who may escalate the matter further in line with university HR
disciplinary procedures.

R7.9 Procedures for monitoring the conduct and performance of supervisors can be
found in the Centre for Doctoral Studies webpages.

Supervisory team

R7.10 The supervisory team for a research student must consist of a minimum of two
persons, a first and second supervisor, co-first supervisors, or a panel of
supervisors.

R7.11 For co-supervision models, both supervisors are considered to be first
supervisors.

R7.12 Supervisors must not be studying for a research degree themselves.

R7.13 At least one of the student’s supervisors must have a contract with the university
that extends beyond the duration of the student’s degree.

R7.14 Supervisors must have obtained a PhD (or equivalent degree as relevant to the
student in question, e.g. MD(Res), DClinPsy).

R7.15 At least one of the supervisory team must have supervised a PhD (or equivalent
research degree as relevant to the student in question) to completion.

R7.16 All staff who supervise research degree students must have completed
supervisory development. The faculty Associate Dean for Doctoral Studies, or
their delegate, is responsible for ensuring that staff who supervise students on
research degrees are trained and informed about the processes of supervision and
progression.

R7.17 All staff who supervise must attend a formal refresher supervisory development
session once every five years.

R7.18 The maximum number of students a member of staff may supervise as first
supervisor or co-first supervisor at any one point in time is eight research degree
students (part-time or full-time).

R7.19 The maximum number of students a member of staff may supervise as either
first, co-first, second or third supervisor at any one point in time is twenty
research degree students (part-time or full-time).

R7.20 It is the responsibility of the supervisors to inform the student and the
appropriate authority in the faculty if they are suddenly unable to perform their
duties as supervisor for more than one month.

R7.21 The first supervisor should have regular supervision meetings with the student
either in person, via video conference or by phone, normally at least once every month, or part-time equivalent.

R7.22 The second supervisor should play a clearly defined role in the student’s supervision and should meet the student at least every three months, or part-time equivalent.

First supervisor

R7.23 The first supervisor role for a research degree student can be undertaken by:

a) a member of academic staff of the university appointed by the faculty.

b) an NHS staff member with an appropriate honorary academic contract with the university for the duration of the student’s study, for example clinical supervisors, adjunct academics.

c) a career development fellow, who has full salary support from a personal award with 4 years or more duration, including research funding, with an expectation of leading an independent research programme and equivalent status to Lecturer or above.

Second supervisor

R7.24 The second supervisor role for a research degree student can be undertaken by:

a) staff who meet the criteria to act as first supervisor and

b) external colleagues, with or without honorary academic contract with the university, who provide external academic expertise and enhance the research degree through a collaboration with the King’s first supervisor and student, for example, academic staff in other universities, NHS staff, cultural leaders such as Head of Collections at British Museum, industrial partners for iCASE awards, or legal professionals.

R7.25 The second supervisor should be able to act independently of the first supervisor.

R7.26 The second supervisor is expected to support the student, to assist in the monitoring of the student’s progress and to stand in in the first supervisor’s absence. Therefore, in cases where the second supervisor does not meet the eligibility criteria to act as the first supervisor, the faculty Associate Dean for Doctoral Studies, or their delegate, will appoint a new first supervisor if the first supervisor is absent for more than one month.

R7.27 Post-doctoral researchers are not normally eligible to act as first or second supervisor for research degree students. On a case by case basis, senior post-doctoral researchers who meet specific criteria may apply, with the support of
their faculty Associate Dean for Doctoral Studies, to be considered for an exemption to this regulation to act as a second supervisor.

Third supervisor

R7.28 The third supervisor, where appointed, would bring specialist knowledge or supervisory experience to the research project but is not responsible for monitoring the academic progression of the student. A third supervisor will be appointed via the faculty and could include the following:

a) staff who meet the criteria to act as first or second supervisor
b) members of staff who hold a post-doctoral researcher position
c) individuals who are external to the university but can provide expert knowledge as set in R7.24 b)
d) individuals who are external to the university but can provide local support for students who carry out fieldwork abroad or elsewhere in the UK.

Exemptions: can be submitted by the Associate Dean for Doctoral Studies for consideration by the Dean for Doctoral Studies. Apply here. All outcomes are reported to PRSS.
R8 The Faculty can approve an interruption of study in the case of mitigating circumstances.

Interruption of Studies

R8.1 An interruption to studies may be requested in case of mitigating circumstances.

R8.2 An interruption of studies is when a student is formally permitted by their faculty (and funder, where appropriate) to interrupt their studies for an agreed period.

R8.3 Although submission deadlines are adjusted accordingly for approved interruptions, the interrupted period does count towards the maximum registration period, as detailed in the Research degree minimum and maximum periods of registration appendices. Students should be aware of, and adhere to, the maximum period of registration for their programme.

R8.4 Students will be permitted to interrupt their studies for periods between two and twelve months in most circumstances, with a maximum of twenty four months interruption during their degree. For periods of interruption between twelve and twenty four months, approval should be sought from the Associate Dean for Doctoral Studies within the faculty of registration.

R8.5 The total period of interruption across a research degree programme will be a cumulative total of any/all periods of interruption.

R8.6 Interruptions to the course of study may be validly requested for a number of reasons, such as: illness, maternity/paternity leave, personal and family reasons, financial hardship, internships not directly related to the research project, periods of investigation of research misconduct or student complaints, and major restructuring of the department or research group. It should be noted that these reasons are not exhaustive, and faculties may grant interruptions for other reasons they consider acceptable.

R8.7 Interruptions will not normally be permitted based on a change of research topic, lack of progress, fieldwork, or time spent training or in industry where this is not part of the research programme.

R8.8 In cases of illness or injury, the student should inform the supervisors and department of absences of more than one week, and medical certification must be provided.
R8.9  Retrospective interruptions are not allowed. In such cases an exemption request should be submitted in order to extend or exceed the registration period.

R8.10  For maternity leave, up to nine months’ interruption will be approved automatically and the date of submission extended. Students can apply for up to three further months, and again, the date of submission would be extended.

R8.11  For paternity leave, students can take up to ten days automatically, which will not affect the date of submission. Students may also take up to thirteen weeks within twelve months of the birth or whatever is permitted by government legislation. If the additional time is taken, the date of submission will be extended by the appropriate period.

Last reviewed: May 2020
Updates approved: PRSS May 2020, AB June 2020
R9 Students are required to participate fully in the procedures of the university and faculties to monitor progress. Failure so to do will result in registration being terminated. Students are required to pursue a formal programme of study including induction and training programmes where prescribed or desired.

Registration Status and Monitoring Progress

R9.1 For students registered at King’s College London for a research degree there are six types of registration, as follows:

a) full-time,
b) part-time
 c) part-time non-resident,
 d) ‘writing-up (with access to library and computer facilities and supervision)
 e) submitted (with access to library and computer facilities, and supervision).

R9.2 The principles agreed within the university for monitoring the progress of research students are set out below. They represent a minimum level to which all faculties will adhere, although there will be some flexibility in their implementation in different faculties/schools, which may choose to implement stricter procedures than those set out below. For this reason, it is important that this is read in conjunction with the guidelines set out in the appropriate faculty and departmental handbooks.

R9.3 All students and members of staff, including supervisors, must comply with, and have access to, the university’s system in place for progress monitoring.

R9.4 Research degree students are required to pursue a formal programme of study including induction and training programmes where prescribed.

Skills Training

R9.5 It is recognised that the research project work itself constitutes the major training component of the study programme, but in line with Research Council requirements and QAA recommendations, students should also demonstrate that they are acquiring generic skills and skills in research methods.

R9.6 All research students have the right to undertake the equivalent of ten days (FTE) of training and development activities per year of study.
R9.7 The development needs for each new student must be assessed individually by the supervisors at the start of the study programme and a training plan must be agreed between students and supervisors. The training plan should be reviewed as part of the progress reviews of all students.

R9.8 The student’s training record must also be reviewed at the upgrade to PhD stage and any deficiencies highlighted and addressed.

R9.9 Faculties must ensure that students are supported to develop an appropriate training plan based on their individual development needs, and the activities to fill these needs can be drawn from workshops run centrally by the Centre for Doctoral Studies or by other providers within or external to the university.

R9.10 Attendance at training sessions run by the Researcher Development Programme and other training providers at King’s will be recorded and students should use their progress reports to log training undertaken outside of the university.

Regular Review of Progress

R9.11 The progress of all students will be subject to regular, formal review. The nature and management of formal progress reviews, including upgrade reviews, must involve three assessors, at least one of whom is independent of the student’s supervisory panel.

R9.12 During their first year of study, both full- and part-time students must have their progress formally reviewed within three months of initial registration and again after a period of nine months registration. Thereafter, the progress of all students will be reviewed at least every six months.

R9.13 A formal progress review will have one of three possible outcomes:

a) **Satisfactory progress**: the student’s registration is allowed to continue unconditionally;

b) **Conditional progress**: there is cause for concern about the student’s progress such that continued registration is subject to completing whatever conditions are set out in writing prior to a subsequent follow-up review. This may include cases where the lack of progress is due to supervision problems; in such cases the assessors should ensure that steps are taken to resolve those problems as part of the conditions set down;

c) **Unsatisfactory progress**: the student has not made the normal academic progress expected of all students and compulsory removal proceedings will begin in line with the Academic Regulation G28. A determination of ‘unsatisfactory progress’ and removal proceedings under the regulations shall only commence where there has been an earlier determination of ‘conditional progress’ and the follow-up review determines that the
student has failed to make satisfactory progress; or where the student has otherwise received prior written warning from the faculty in the manner specified the Academic Progress Regulations. In the event of removal under the Academic Regulation G28, the student has a right of appeal against the termination of their studies.

R9.14 Whenever ‘conditional progress’ is recommended the student must undergo a follow-up progress review to determine whether progress is satisfactory or if the student should be removed for failure to make the normal academic progress expected of all students. In the case of first year students undergoing their nine-month review, this follow-up review must occur before the end of the first year. For other students the follow-up review must occur no later than six months from the date of the initial review. The result of any such follow-up review will either be:

a) **Satisfactory progress**: the student’s registration is allowed to continue unconditionally until the next review; or

b) **Unsatisfactory progress**: the student has not made the normal academic progress expected of all students and compulsory removal proceedings will begin under the Academic Regulation G28. In the event of removal under the Academic Regulation G28, the student has a right of appeal.

R9.15 The result of all progress reviews must be proposed by the student’s principle (first) supervisor and signed off by the PG/research co-ordinator for the subject area via the university’s online progress monitoring system.

**Upgrade from MPhil to PhD**

R9.16 Unless exceptionally exempted from this requirement, a student following a PhD programme will initially be registered for the MPhil degree and will be permitted to upgrade from the MPhil degree to the PhD degree according to the procedures prescribed by the faculty of registration.

R9.17 Transfer of registration from the MPhil degree to the PhD degree will be considered:

a) after the student has completed nine months full-time study, or eighteen months part-time study; but

b) before eighteen months of full-time study, or thirty six months part-time study.

R9.18 Transfer from MPhil to PhD status must be completed within the above timeframes. This includes a second attempt at the upgrade, if necessary, plus the completion of any associated tasks in order to complete the transfer.
Students must satisfy any conditions prescribed by the faculty of registration before being considered for upgrade.

Where a student is registered for a joint degree with an institution that does not offer the MPhil degree, or where it is an explicit condition of the funding of a studentship that a student must register directly for a doctoral degree, the student will be registered directly onto the PhD degree.

If it is a funder’s requirement that the student should be registered directly for the doctoral degree, then the student will still have to go through the upgrade process to confirm the final degree level.

The upgrade from MPhil to PhD registration is classed by the university as a formal milestone to be satisfactorily attained by students in their progress towards attaining their PhD.

The upgrade from MPhil to PhD registration should occur as the result of a formal review but does not lead to a qualification in its own right.

The upgrade from MPhil to PhD will involve the student producing either a substantial report, draft chapters or other pieces of work, along with:

- a research, schedule;
- a clear research question;
- evidence of a clear methodology;
- set of research procedures or framework of inquiry;
- a work plan to completion; Plus, a formal review meeting must take place to assess the submitted work.

The key principle for upgrading is for an academic panel, at least one of whom has to be independent to the supervisory team, to assess that the student is on course to produce research of the required standard for the final degree within the permitted timescale.

There will be three possible outcomes to a formal upgrade review:

a) unconditional pass: the student’s registration is transferred from MPhil to PhD with immediate effect;

b) refer for further review: the student does not meet the requirements to upgrade at this time and is required to meet conditions set by the panel and undertake a further formal review. This will follow the same process as the first review.

The student will be required to either:

- complete minor amendments for the current upgrade attempt, or
• repeat the full upgrade process including re-submission of documents and a panel meeting, at which the student must be physically present. (See also R9.36)

Following review of these amendments, the panel will determine the final outcome of the upgrade attempt as either an unconditional pass or a fail with the options as below.

c) fail: the review determines:
  ▪ that the student’s registration should remain at MPhil, or
  ▪ that proceedings to terminate the student’s registration under Academic Regulation G28 should commence.

R9.27 Formal notification of outcome(b) above to the student shall be classed as a written warning under Regulation G28, provided that this is made clear to the student in the notification.

R9.28 Removal under Regulation G28 shall only be permitted after a second upgrade review, except where the student was formally notified prior to their first upgrade review in the manner specified in the General Academic Regulations that their progress was not satisfactory.

R9.29 A student will only be allowed to undertake a maximum of two formal reviews to upgrade from MPhil to PhD registration, i.e. the initial upgrade review and one additional review under R9.26b above.

R9.30 Students have the opportunity to appeal against outcome R9.26c above, in accordance with the procedure set out within the Academic appeals for research degree students appendix.

R9.31 Students who remain at MPhil level will need to submit a final thesis and have an examination as per the normal examination regulations. The upgrade meeting does not automatically lead to an MPhil award.

R9.32 Students should not be allowed to continue their research without their registration status being clear.

R9.33 Students must produce a record of training and development activities undertaken for review at the upgrade stage.

R9.34 The faculty Associate Dean for Doctoral Studies is responsible for ensuring that the procedures outlined above are followed within the faculties. Where this responsibility is devolved to a PGR Committee based in departments or research centres, the Associate Dean for Doctoral Studies should ensure that the monitoring mechanisms are effective and that improvements are being made towards submission and successful completion times and to the quality of the supervisory process.
Faculty representatives on the university’s Postgraduate Research Students Subcommittee will be required to address the effectiveness of the process and any issues arising from it in their faculty’s annual report.

The upgrade review, including any following reviews, will normally take place in person with the student physically present. In exceptional circumstances, where a physical meeting is not possible, alternative arrangements may be agreed by the faculty in line with university recommendations.

MD(Res) review for transfer to year two

At one year from registration (or two years if part-time), MD(Res) students are required to give a presentation to the academic members of the relevant progression committee in order to transfer to the second year of the programme. This is a mandatory requirement and a satisfactory transfer review is required for the student to continue their registration. The aim is to satisfy the sub-committee that the student’s research is progressing satisfactorily, to ensure the student is on track to successfully complete their degree, and to help the student and supervisors anticipate any potential problems.

Transfer to ‘writing up’ Status

When a student has completed the data collection and research required for the PhD they may apply to transfer status from registration as a full-time or part-time student to that of ‘writing-up’ status according to the procedure established by the faculty of registration.

Transfer to writing up status will normally only be approved following three years of full-time study, or six years of part-time study.

Transferring to writing-up status is not an automatic right and the decision on whether to permit the transfer of registration status should not be made solely by the student’s supervisors.

The maximum period permitted for the writing-up registration period for both full- and part-time students is one year.

If a student does not submit within the one year allowed for writing-up but is permitted to continue their degree, they must be transferred back to full- or part-time status and charged the appropriate fee.

Should the transfer to writing-up take place after three years’ full-time registration (or six years’ part-time registration), then the student will not be entitled to the full year usually permitted for writing-up. In this instance, the required submission deadline will come before the end of the writing-up year and must always take precedence.
R9.44 Writing up fees will not be charged pro-rata.

R9.45 Progress during the period of writing-up must be monitored by use of regular progress reports.

R9.46 Students whose thesis examiners require them to resubmit within eighteen months will be transferred back to writing up status in order that their progress towards resubmission can be monitored via regular progress reports, and therefore will be charged writing-up fees.

R9.47 Students may also be transferred to writing up status during the period following the oral examination if the outcome is that the student must resubmit within eighteen months, as noted in the Research degree examination outcomes appendix.

R10 The decision to submit a thesis for examination rests with the student, subject to the faculty in which the student is registered confirming that the student has completed the programme of study, that the student meets the requirements of the programme and that they conform to submission timescales.

Entrance to Examination

R10.1 A student will present for examination in accordance with the timescales set out in the Research degree minimum and maximum periods of registration appendix.

R10.2 A student must give written notice to the university of their intention to submit via the examination entry form (RD1). This form has to be submitted to the Research Degrees Exams office at least four months prior to submission.

R10.3 The supervisor must use the examination entry form to nominate the examiners.

R10.4 Following notification of the intention to submit, the university will appoint the examiners in accordance with the Conduct of research degree examinations appendix.

R10.5 The examination entry form is valid for a maximum of eighteen months. If a student fails to submit their thesis within this period they will be required to submit a new form.

R10.6 A thesis must be presented for examination in accordance with the procedures and in the format specified by the university, which includes a requirement to submit an electronic version of the thesis (e-thesis).

R10.7 The oral examination will normally take place within three months of submission of the thesis, subject to examiners’ availability and the timely submission of the examination entry form.

R10.8 Once students submit they will not be charged any further fees, even if their registration period crosses over into a new academic year.

R10.9 Once a student has submitted their thesis they should continue to receive access to library, computer facilities and supervisory support as required to assist with preparation for their oral examination.

Exemptions: can be submitted by Associate Dean for Doctoral Studies for consideration by the Dean for Doctoral Studies. [Apply here](#). All outcomes are reported to PRSS.

Last reviewed: May 2020
Updates approved: PRSS May 2020, AB June 2020
The method of assessment for research degrees theses is by oral examination. The requirements for the conduct of the examination, including appointment of the examiners, are set out in the Conduct of research degree examination appendix.

Conduct of Examinations

R11.1 The examiners must prepare independent preliminary written reports on the thesis to assist in conducting the oral examination.

R11.2 The examiners must submit the preliminary reports to the Research Degrees Exams office prior to the oral examination for quality assurance purposes.

R11.3 If the examiners note cases of plagiarism or other research misconduct in the thesis they must alert the Research Degrees Exams office before the oral examination is due to take place to ensure that the correct research misconduct process is followed and that the oral examination does not take place.

R11.4 The examiners should exchange preliminary reports prior to the oral examination.

R11.5 After any oral examination a joint final report and list of required amendments (if applicable) must be submitted to the Research Degrees Exams Board via the Research Degrees Exams office within three weeks of the examination taking place.

R11.6 The examiners can inform the student of the outcome of the examination after the oral examination.

R11.7 Following ratification by the Research Degrees Exams Board, all examiner reports and the list of required amendments (if applicable) will be released to the student by the Research Degrees Exams office.

R11.8 The joint final report of the examiners shall indicate whether the thesis meets the requirements listed in the Criteria for research degree thesis and award appendix and shall include a reasoned statement of the examiners’ judgment of the student’s performance. Where applicable the report should also have a list of required amendments for the student to make.

R11.9 Examiners have the right to make comments in confidence to the university in a separate report. Such comments should not normally be concerned with the performance of the student but may cover, for example, matters which they wish to draw to the attention of the Research Degrees Exams Board or the
The student may indicate on their examination entry form whether their supervisor(s) shall be present at the oral examination as an observer. The supervisor(s) does not have the right to participate in the examination of the student but may contribute if invited to do so by the examiners. Otherwise the oral examination shall be held in private.

The oral examination will normally be conducted in London, or at other King’s College London premises. The university may, however, exceptionally agree that the examination be conducted elsewhere if there are circumstances which make this expedient.

The examiners, after reading the thesis, shall conduct an oral examination with the student in accordance with university guidelines.

Students are required to present themselves for oral, practical or written examinations at such place and time as the university may direct, and to bring with them to the oral examination an additional copy of their thesis.

Exams will normally take place with both the student and examiners in the same physical location. In exceptional circumstances, where a physical meeting is not possible, alternative arrangements may be agreed by the faculty in line with university recommendations. Different arrangements may be in place for joint awards involving a partner institution. Details of that will be set out in the relevant Schedule of Activity.

Appointment of Examiners

For each student the Research Degrees Exams Board shall oversee the appointment of normally two individuals to act as examiners.

Both examiners will be external to King’s College London.

In exceptional circumstances the Research Degrees Exams Board can allow the appointment of an internal examiner.

If the student is a member of King’s staff, then the examiners will both have to be external to the university.

The Board may, if it considers it desirable or if it is a requirement of a programme, permit the appointment of three individuals to act as examiners jointly or an Independent Chair and two individuals.

The examiners formally appointed by the Subject Area Board or university are expected to perform this role through the entire examination process, including re-examination if applicable.
R11.21 Changes to approved examination panels following first examination will be allowed only in exceptional circumstances when the appointed examiners are not available in the case of major amendments or re-examination. In these cases, the Research Degrees Exams office will contact the supervisor with the request to propose a new examiner using the examination entry form (RD1).

R11.22 For students registered for a research degree that is jointly awarded with another institution, the Research Degrees Exams Board may, at its discretion and on application to it by the faculty concerned, approve a different composition to the oral examination (details of specific arrangements will be detailed in the relevant Schedule of Activity).

R11.23 The criteria for examiners shall be as follows:

a) examiners shall be expert in the field of the thesis and able to make an independent assessment of the student;

b) at least one examiner shall have experience in the examination of research degrees in the UK;

c) the examiners should have examined at least three research degrees of appropriate level between them;

d) examiners should not have had any significant research or other contact with the student, nor should they have had any role in the assessment or supervision of the student. There should be no personal link between the examiner and student;

e) reciprocal examining with a supervisor from another institution is not permitted. The repeated nomination of an examiner by a supervisor will not normally be permitted within a two year period;

f) former lay members of Council, students or employees of King’s shall not normally be appointed before a period of three academic years has elapsed;

g) the student’s supervisor shall not be an examiner;

h) an internal examiner will not have been involved in the supervision of the student during the research period;

i) an internal examiner will not have been part of the upgrade assessment panel of the student;

j) an internal examiner will not have been supervised by the student’s supervisors for their own degree or post-doc;
k) an internal examiner will not have a close personal relationship with the student’s supervisor;

l) a supervisor will not be able to use the same internal examiner more than once per academic year.

R11.24 An examiner from outside the UK or the Republic of Ireland shall be appointed where the faculty can demonstrate that there is no suitable examiner within the UK or the Republic of Ireland. If an examiner from outside the UK or the Republic of Ireland is appointed, the Board must be satisfied that the examiner is familiar with the British higher education system and the general requirements and procedures for the award of research degrees.

R11.25 All matters relating to the examination will be treated as confidential. Examiners are not permitted to divulge the content of previously unpublished material in a student’s thesis until any restrictions on access to the thesis, granted by the university, are removed.

Criteria for thesis and award (R12)
Glossary

Exemptions: can be submitted by Associate Dean for Doctoral Studies for consideration by the Dean for Doctoral Studies. Apply here. All outcomes are reported to PRSS.

Last reviewed: May 2020
Updates approved: PRSS May 2020, AB June 2020
R12 The criteria for theses and award vary according to the specific research degree, as set out in the Criteria for research degree thesis and award appendix

Criteria for thesis and award

R12.1 With the exception of students registered for joint degrees, a student will not be permitted to submit as their thesis one which has been or will be submitted for a degree or comparable award of this or any other university or institution.

R12.2 The greater proportion of a student’s investigations must be carried out during the period of registration.

R12.3 All theses for university degrees shall be written in English with the exception of students whose subject involves an element of study of a modern foreign language who may apply at the start of their degree to submit their thesis in a language other than English; all such applications will need the support of the supervisor and will be considered by the Research Degrees Exams Board. In this instance, an abstract in English of up to 5,000 words shall be submitted at the same time as the thesis.

R12.4 The part played by the student in any work done jointly with the supervisor(s) and/or fellow research workers must be clearly stated by the student and certified by the supervisor.

R12.5 For any thesis, publications derived from the work in the thesis but not forming a main part of the work described may be bound as supplementary material at the back of the thesis.

R12.6 In addition to a research component resulting in the submission of a thesis at doctoral level:

a) a professional doctorate programme shall include elements of a practical/work-related/professional nature and formally taught elements appropriate to support the academic objectives of the degree programme;

b) a Master in Philosophical Studies (MPhilStud) degree programme shall provide a student with advanced knowledge of three areas of the relevant discipline, including sustained research on a single topic (presented in the form of a thesis), and provide progressive research training which is an adequate foundation for doctoral study.
**Thesis incorporating publications**

**R12.7** Students are allowed to include in their thesis work that is already published, or accepted for publication, at the time of submission of the thesis, either by the student alone or jointly with others.

**R12.8** The majority of the research making up the publication must have been done under supervision at the university during the period of enrolment.

**R12.9** The thesis will require additional chapters and information for it to meet the requirements for a PhD degree, particularly that of the thesis being an integrated whole and presenting a coherent argument.

**R12.10** A series of papers alone, whether published or otherwise, is not acceptable for submission as a thesis.

**R12.11** A thesis incorporating publications should include at least one paper published in a peer reviewed publication, or a paper accepted for publication in a peer reviewed publication and presented in its final accepted form with appropriate referencing from the relevant publication.

**R12.12** The inclusion of a paper(s) accepted for publication within the thesis does not guarantee that the thesis as an entity will be judged to have met the standards required for the award.

**R12.13** The thesis must be accompanied by a signed declaration by the student that the work presented in the thesis is their own and explaining their contribution to jointly authored publications. Further information can be found in the online guidance document.

**Criteria for the award of PhD**

**R12.14** The PhD degree shall be assessed by a thesis submitted by the student against the relevant criteria listed below and by an oral examination. The scope of the thesis shall be what might be reasonably expected after three or at most four years of full-time study, or six or at most seven years of part-time study. It shall:

a) consist of the student’s own account of their investigations, the greater proportion of which shall have been undertaken by the student during the period of registration under supervision for the degree;

b) form a distinct contribution to the knowledge of the subject and afford evidence of originality by the discovery of new facts and/or by the exercise of independent critical power;

c) be an integrated whole and present a coherent argument;
d) give a critical assessment of the relevant literature, describe the method of research and its findings, include discussion on those findings and indicate in what respects they appear to the student to advance the study of the subject;

e) and, in so doing, demonstrate a deep and synoptic understanding of the field of study, (the student being able to place the thesis in a wider context), objectivity and the capacity for judgment in complex situations and autonomous work in that field;

f) be of satisfactory literary presentation;

g) not exceed 100,000 words (inclusive of footnotes but exclusive of appendices and bibliography, the word limit not applying to editions of a text or texts);

h) include a full bibliography and references;

i) demonstrate research skills relevant to the thesis being presented;

j) be of a standard to merit publication in whole or in part or in a revised form (for example, as a monograph or as a number of articles in learned journals); and

k) where ethical approval is required, indicate that such approval has been granted by the appropriate body.

Criteria for the award of MPhil

R12.15 The MPhil degree shall be assessed by a thesis submitted by the student against the relevant criteria listed below and by an oral examination. The scope of the thesis shall be what might reasonably be expected after two years or at most three years of full-time study, or after four years or at most five years of part-time study. It shall:

a) consist of the student’s own account of their investigations, the greater proportion of which shall have been undertaken by the student during the period of registration under supervision for the degree;

b) be either a record of original work or of an ordered and critical exposition of existing knowledge and shall provide evidence that the field has been surveyed thoroughly;

c) be an integrated whole and present a coherent argument;

d) give a critical assessment of the relevant literature, describe the method of research and its findings and include a discussion on those findings;
e) be of satisfactory literary presentation;

f) include a full bibliography and references;

g) not exceed 60,000 words (inclusive of footnotes but exclusive of appendices and bibliography, the word limit not applying to editions of a text or texts), unless the thesis has previously been submitted and examined for a PhD and judged to be of MPhil standard regardless of when the student first registered; and

h) where ethical approval is required, indicate that such approval has been granted by the appropriate body.

R12.16 The thesis may incorporate one or more published articles as described above.

R12.17 More specific and additional requirements for particular programmes of study are set out below.

Arts & Humanities Research with a Practice-based Component

R12.18 In any field of Arts & Humanities research, a student may register to undertake research leading to a thesis submitted in accordance with the normal provisions. Alternatively, a student may submit, as part of a thesis, a practice component which meets the requirements of the examiners, and which has been produced specifically for the degree. This may take the format, for example, of a portfolio of compositions, performance materials, artworks, digital materials, literary texts or translations, which will exemplify and illustrate the ideas contained in the written part of the thesis. The practical component must demonstrate a publishable or exhibitable standard of originality and accomplishment as determined by the examiners, who will include those qualified in academic research as well as in the evaluation of the relevant field of creative practice. It must be presented in a form easily available to the examiners, whether as audio-visual recordings, printed texts, digital media or another suitable format.

R12.19 The practice component shall be accompanied by a written textual component, as determined by the specific subject programme, which may include, as appropriate: an exposition of the research questions, aims and concerns that generated the practical work, a methodological discussion framing and justifying its approach, format and presentation, and a critical discussion to demonstrate that the student is well acquainted with the disciplinary field in which they are working, and is able independently to analyse, interpret and evaluate debates and theoretical positions associated with it. However presented, the practical component must be accompanied by an adequate and approved form of retainable documentation, and the entire thesis, comprising textual and practice components, shall not exceed 100,000 words. In all cases, the submitted material must together fulfil the criteria for the PhD or MPhil set out above.
War Studies Research with a Practice-based Component

R12.20 War Studies is an interdisciplinary department and this is reflected in the research outputs of several members of staff and PhD projects. Visual methodologies have come to form an integral part of these projects. A PhD student may register to undertake research leading to a thesis submitted in accordance with the normal provisions. Alternatively, a student may submit, as part of a thesis, a practice component which meets the requirements of the examiners, and which has been produced specifically for the degree. This may take the format, for example, of artworks, photographic compositions, film, and literary texts, which will exemplify and illustrate the ideas contained in the written part of the thesis. The practical component must demonstrate a publishable or exhibitable standard of originality and accomplishment as determined by the examiners, who will include those qualified in academic research as well as in the evaluation of the relevant field of creative practice. It must be presented in a form easily available to the examiners, whether as audio-visual recordings, printed texts, digital media or another suitable format, including an exhibition of artworks or the projection of film.

R12.21 The practice component shall be accompanied by a written textual component, as determined by the specific subject programme, in this case War Studies. The written component will include as appropriate an exposition of the research question(s), aims and concerns that generated the practical work, a methodological discussion framing and justifying its approach, format and presentation, and a critical discussion to demonstrate that the student is well acquainted with the disciplinary field in which he or she is working, and is able independently to analyse, interpret and evaluate debates and theoretical positions associated with it. However presented, the practical component must be accompanied by an adequate and approved form of retainable documentation, and the entire thesis, comprising textual and practice components, shall not exceed 100,000 words. In all cases, the submitted material must together fulfil the criteria for the PhD or MPhil set out above.

Criteria for the award of MPhilStud

R12.22 The assessment for the MPhil Stud degree is in two parts: the assessment of the taught components and the assessment of the thesis. Students are required to pass both parts but may undertake the research and taught components concurrently.

R12.23 The recommendations of the Assessment Sub Board in respect of the assessment of the options shall be considered by the appropriate Postgraduate Assessment Board under the provisions of the relevant sections of the Taught Academic Regulations.

R.12.24 The scope of the thesis shall be what might reasonably be expected after two years of full-time study, or four years of part-time study. It shall:
a) consist of the student’s own account of their investigations, the greater proportion of which shall have been undertaken by the student during the period of registration;

b) be either a record of original work or an ordered and critical exposition of existing knowledge and shall provide evidence that the field has been thoroughly surveyed;

c) be an integrated whole and present a coherent argument;

d) give a critical assessment of the relevant literature, present the findings of research and include a discussion on those findings;

e) be written in English and with a satisfactory literary presentation;

f) not exceed 30,000 words (inclusive of footnotes but exclusive of appendices and bibliography, the word limit not applying to editions of a text or texts); and

g) where ethical approval is required, indicate that such approval has been granted by the appropriate body.

Criteria for the award of MD(Res)

R12.25 The MD(Res) degree shall be assessed by a thesis submitted by the student against the relevant criteria listed below and by an oral examination. The scope of the thesis shall be what might reasonably be expected after two, or at most three, years of full-time study, or after four or at most five years of part-time study. It shall:

a) deal with any branch of medicine, or surgery or medical science;

b) consist of the student’s own account of their investigations, the greater proportion of which shall have been undertaken by the student during the period of registration under supervision for the degree;

c) form a distinct contribution to the knowledge of the subject and afford evidence of originality by the discovery of new facts and/or by the exercise of independent critical power;

d) be an integrated whole and present a coherent argument;

e) give a critical assessment of the relevant literature, describe the method of research and its findings, include discussion on those findings and indicate in what respects they appear to the student to advance the study of the subject; and, in so doing, demonstrate a deep and synoptic understanding of the field of study (the student being able to place the
thesis in a wider context), objectivity and the capacity for judgment in complex situations and autonomous work in that field;

f) be written in English and with a satisfactory literary presentation;

g) not exceed 50,000 words (inclusive of footnotes but exclusive of appendices and bibliography, the word limit not applying to editions of a text or texts);

h) include a full bibliography and references;

i) demonstrate research skills relevant to the thesis being presented;

j) be of a standard to merit publication in whole or in part or in a revised form (for example, as a monograph or as a number of articles in learned journals); and

k) where ethical approval is required, indicate that such approval has been granted by the appropriate body.

Criteria for the award of Professional Doctorates

R12.26 The taught and practical elements shall be assessed by methods and at an intellectual level and at a time appropriate to the programme. Such assessment shall involve at least one examiner external to the university.

R12.27 The recommendations of the Assessment Sub Board in respect of the taught and practical elements of professional doctorate programmes shall be considered by the appropriate Postgraduate Assessment Board under the provisions of the Academic Regulations for Taught Programmes. Where a student has completed the taught and practical elements but is not eligible, or is not able, to progress to the research element of the programme the Postgraduate Assessment Board may consider the student for an appropriate exit award where available as specified in the relevant programme specification.

R12.28 Unless stated otherwise in the programme specification, a student should satisfy the examiners in all elements of the taught and practical assessment before being permitted to submit the thesis for examination.

R12.29 The scope of the thesis shall be what might reasonably be expected after three or at most four years of full-time study, or after six or at most seven years of part-time study. It shall:

a) be appropriate to the subject concerned, having regard to the other formally assessed elements for the degree;
b) consist of the student’s own account of their investigations and must indicate in what respects they appear to the student to advance the study of the subject;

c) form a distinct contribution to the knowledge of the subject and afford evidence of originality by the discovery of new facts and/or by the exercise of independent critical power;

d) be an integrated whole and present a coherent argument;

e) be at least 25,000 words in length and not exceed 55,000 words (inclusive of footnotes but exclusive of appendices and bibliography, the word limit not applying to editions of a text or texts);

f) be written in English and with a satisfactory literary presentation;

g) include a full bibliography and references;

h) demonstrate research skills relevant to the thesis being presented;

i) be of a standard to merit publication in whole or in part or in a revised form (for example, as a monograph or as a number of articles in learned journals); and

j) where ethical approval is required, indicate that such approval has been granted by the appropriate body.

Exemptions: can be submitted by Associate Dean for Doctoral Studies for consideration by the Dean for Doctoral Studies. Apply here. All outcomes are reported to PRSS.

Last reviewed: May 2020
Updates approved: PRSS May 2020, AB June 2020
R13 The recommendations available to examiners as results for ratification by the Research Degrees Exam Board are set out in the Research degree examination outcomes appendix.

R13.1 The options open to examiners in determining the result of the examination are as follows and apply to all research degree students regardless of when they first registered:

- Pass
- Pass subject to minor amendments
- Pass subject to major amendments
- Re-examination of thesis (with or without second examination)
- Consideration for a lower, related award
- Academic fail

Pass

R13.2 Where the student’s thesis meets the criteria for the specified award and the student satisfies the examiners in all elements of the assessment, the examiners will make a formal recommendation for award to the Research Degrees Exams Board.

Pass subject to minor amendments

R13.3 Where the student’s thesis broadly meets the criteria for the specified award and the student satisfies the examiners in all other elements of the assessment, the examiners will make a formal recommendation for award to the Research Degrees Exams Board, subject to the completion of minor amendments.

R13.4 Where the examiners have made a recommendation for award subject to minor amendments the student will be given up to three months from the date on which the student receives notification of the corrections required from the Research Degrees Exams office following ratification of the report by the Research Degrees Exams Board.

R13.5 One examiner will be required to confirm that the amendments are appropriate and have been made within the specified timeframe. Which examiner will do this will be agreed between the examiners themselves and will be confirmed on the Decision form.

R13.6 If the student fails to make the amendments in the timeframe or the examiner is
unable to confirm that the amendments are satisfactory, the procedure under ‘Failure to satisfy after minor or major amendments or after re-examination’ below will apply.

Pass subject to major amendments

R13.7 Where the student’s thesis is thought to be able to meet the criteria for the specified award with additional work, the examiners will make a formal recommendation for award to the Research Degrees Exams Board subject to the completion of major amendments within six months.

R13.8 A further oral examination will not be required where a six month amendment period is given.

R13.9 Where the examiners have made a recommendation that the student be permitted to make major amendments to their thesis, the student will be given up to six months from the date on which the student receives the joint examination report and notification of the corrections required by the Research Degrees Exams office following ratification of the report by the Research Degrees Exams Board.

R13.10 Both examiners must confirm that the amendments are appropriate and have been made within the specified timeframe.

R13.11 If the student fails to make the amendments in the specified timeframe or the examiner is unable to confirm that the amendments are satisfactory, the procedure outlined under ‘Failure to satisfy after minor or major amendments or after re-examination’ below will apply.

Re-examination of thesis (with or without a second oral examination)

R13.12 Where the student’s thesis, though inadequate, is thought to be able to meet the criteria for the specified award, the examiners may determine that the student be permitted to re-present their thesis in a revised form within eighteen months for the PhD or Professional Doctorate examination and twelve months for the MPhil.

R13.13 The examiners should indicate on the examination pro-forma whether a further oral examination must be held.

R13.14 If the examiners indicate on the decision form that a second oral examination should be held, then they cannot change this result at the point of the re-examination and the second oral examination must take place. Examiners cannot request a second oral examination following the re-examination of the thesis if this was not indicated on the original decision form.

R13.15 Where the examiners have determined that the student’s thesis, though inadequate, is thought to be able to meet the criteria for the specified award, the
student will be given eighteen months (twelve months for the MPhil) from the
date on which the student receives the joint examination report and notification
of the corrections required by the Research Degrees Exams office following
ratification of the report by the Research Degrees Exams Board.

R13.16 As this is a re-examination to confirm degree, the examiners will examine the
amended thesis, submit preliminary reports (when a second oral examination
was required) and will provide a second joint examination report. The
examiners will be asked to confirm whether the amended thesis now meets the
criteria to award the degree.

R13.17 If the student fails to make the amendments in the specified timeframe or the
examiners are unable to confirm that the amendments are satisfactory, the
procedure outlined under ‘Failure to satisfy after minor or major amendments or
after re-examination’ below will apply.

R13.18 Students whose thesis examiners require them to resubmit within eighteen
months will be transferred back to writing up status in order that their progress
towards resubmission can be monitored, and therefore will be charged writing-
up fees.

Consideration for a lower, related award

R13.19 Where the student’s thesis does not meet the criteria for the specified award, the
student may be considered for a related, lower degree (where available).

R13.20 Minor or major amendments, or the re-examination of the thesis within eighteen
months, may be permitted by the examiners before the student is considered for
the related, lower degree.

R13.21 Where additional time has already been granted for major or minor amendments
or after the re-examination of the thesis, no further additional time will normally
be given to the student to prepare the thesis for examination.

R13.22 For examination for the PhD only: Where the examiners have recommended
that the student be considered for a related, lower degree, the examiners may
consider whether the student has met the criteria for the award of an MPhil
degree unless this is a joint degree with an institution that does not offer the
MPhil (although if appropriate the student may be offered an MPhil single
award from King’s College London only).

R13.23 If the student’s thesis does not meet the criteria, the examiners will recommend
to the Research Degrees Exams Board that the student be failed.

R13.24 For examination of Professional Doctorates only: Where the individual
programme specification permits, the final reports and outcome will be sent by
the examiners to the Research Degrees Exams office, who will forward the
information to the relevant Postgraduate Assessment Board for consideration of an exit award.

**Academic Fail**

**R13.25** Where the student’s thesis does not meet the criteria for the award of a research degree and the thesis is unsuitable for minor or major amendments or re-presentation within eighteen months the examiners will recommend to the Research Degrees Exams Board that the student be recorded as an Academic Fail.

**R13.26** A student who fails to satisfy the examiners will not be permitted to re-enter for the examination.

**Failure to satisfy the examiners after minor or major amendments or after the re-examination of the thesis**

**R13.27** Where a student fails to satisfy the examiners after minor or major amendments or after the re-examination of the thesis, the examiners will either:

- a) recommend to the Research Degrees Exams Board that the student be recorded as an Academic Fail; or
- b) recommend the student for consideration for a related, lower degree (as set out above).

**R13.28** The examiners have the discretion to permit an additional calendar month for the student to make further minor amendments before making a final decision.

**R13.29** In both cases the student has the right to appeal under the Academic appeals for research degree students appendix (R15).

**Additional Examiner**

**R13.30** When the examiners appointed are unable to reach agreement when approving major amendments or following a re-examination, they shall report this to the Research Degrees Exams Board, which shall appoint an additional examiner who is external to the university.

**R13.31** Whenever possible the additional examiner shall be of Professorial status and shall have considerable experience of examining for a research degree of the University of London.

R14 Theses resulting from a research degree undertaken at the university must be placed within the public domain once awarded. Students may apply for restriction of access on certain grounds.

Availability of Thesis

R14.1 It is a requirement that a thesis resulting from a research degree undertaken at the university is placed within the public domain once it has been awarded and ratified. Theses will be made available electronically, via the system determined by the university.

R14.2 A thesis will normally be placed in the public domain immediately after the award of the degree. Departure from this requirement will only be made when the student can demonstrate circumstances such as grounds of commercial exploitation or patenting, or where the thesis includes material which is of significance to national security or personal safety and/or where a funding body allows.

R14.3 Where approved, an embargo will normally be granted for a period of one or five years. A permanent embargo may be sought on very limited grounds relating to personal or national security, or where permission to include third party copyright material could not be obtained and exclusion of this material would significantly reduce the academic value of the thesis.

R14.4 Theses funded by a Research Council UK training grant must be placed in the public domain within a maximum of twelve months following award.

R14.5 A student may apply to the Chair of the Research Degrees Examination Board for restriction of access to their thesis, subject to the conditions noted above. The student’s application must be submitted after the date of award but before the final thesis is submitted to the library.

R14.6 The availability of theses produced as part of a joint programme must also conform to the publication requirements of the partner institution.

R15 There are two academic appeals processes available to research degrees students:

a) to appeal the PhD upgrade and MD(Res) transfer decisions;
b) to appeal the outcome of the thesis and oral examination.

Neither appeal process can be used to challenge academic judgement.

Appeals against PhD upgrade and MD(Res) transfer decisions

R15.1 The appeal procedure in respect of upgrade decisions should be completed at faculty level before the university will consider any appeal by the student under the failure to make sufficient academic progress regulation (G28).

R15.2 An appeal must be requested in writing on a form provided for the purpose and lodged with the relevant faculty registry office within twenty one days of the upgrade decision. The grounds of the appeal must be clearly stated in the appeal and appropriate documentation supplied.

R15.3 The Associate Dean for Doctoral Studies in the faculty will normally advise the student in writing of their decision on the appeal request within fourteen working days of receipt of the appeal, subject to collecting all relevant information and interviewing people. The Associate Dean for Doctoral Studies will allow an appeal to be heard if they are satisfied that one or more of the following criteria apply:

a) where there is evidence that the student’s performance may have been adversely affected by mitigating circumstances which the student was unable, or for valid reasons unwilling, to divulge to the examiners before the decision was reached;

b) where there is clear evidence of a significant administrative or procedural error on the part of the university in the conduct of the upgrade process and that this accounted for the student’s performance.

R15.4 The Associate Dean for Doctoral Studies will have the discretion to take into account grounds (including grounds of compassion) other than those stated above in deciding whether to allow an appeal to be heard.

R15.5 Where a student submits an appeal that their examination was adversely affected by alleged harassment, bullying or discrimination, or by any other factor, which, in the opinion of the Associate Dean for Doctoral Studies, requires an investigation which falls outside the remit of the appeal regulations
and which constitutes a complaint under the provisions of the Student complaints regulation (G31) then the matter shall be referred for consideration under those regulations. In these circumstances, the appeal may, at the discretion of the Associate Dean for Doctoral Studies, be held in abeyance until the consideration of the matter under the Student Complaints Regulations has been concluded.

R15.6 Any information supplied by the student at a later date will only be considered if, in the judgment of the Associate Dean for Doctoral Studies, there are valid reasons why it could not have been submitted as part of the initial appeal. However, the student shall have the right to receive copies of any documents provided to the appeals panel (including the information from the upgrade panel, the statement of the student’s supervisor, and any referee’s reports), and may submit comments for the panel’s consideration within seven days of being sent this information.

R15.7 An appeals panel shall be established comprising:

- the Associate Dean for Doctoral Studies or nominee, who shall act as Chair;
- two members of the faculty Postgraduate Research Committee;

and supported by a representative from the relevant faculty or registry office.

R15.8 The panel shall not include anyone involved in the original upgrade decision or the student’s supervisors. At the discretion of the Chair, the panel may be supplemented with additional member(s) with expertise in the academic area of the appeal.

R15.9 The quorum for the panel shall be the Chair and two other members. The decision of the panel shall be reached by a majority vote of the members, which may be conducted by email correspondence. The Chair shall have an additional casting vote where necessary.

R15.10 The upgrade panel which made the original decision will submit the outcome provided to the student together with a more detailed account of the factors which informed the decision.

R15.11 The student’s first supervisor will be asked to provide a statement indicating whether or not they support the appeal and whether they think that the student should be allowed to upgrade and the reasons for their recommendation.

R15.12 The panel will consider the upgrade outcome provided to the student, the supplementary information from the upgrade panel, the statement from the student’s supervisor(s), the written submission from the student appealing against the decision, and any further comments received from the student.
R15.13 Before making a decision the panel, at the discretion of the Chair, may decide:
   a) to request a further referee’s report;
   b) to seek clarification from any party involved;
   c) to interview the student and/or supervisor.

R15.14 The panel is not required to meet unless it is decided to interview the student and/or supervisor. In such circumstances, the student and the supervisor will be invited to attend the meeting of the panel and may each give evidence to the panel. The student may be accompanied by a colleague, friend or representative of the King's College London Students’ Union.

R15.15 The panel shall normally reach a decision on the appeal within thirty working days of receipt, subject to the need to compile the above information and to meet as appropriate.

R15.16 The panel may take one of the following decisions:
   a) to reject the appeal and uphold the decision to terminate the student’s registration;
   b) to reject the appeal and uphold the decision that the student’s registration should continue at MPhil level;
   c) to uphold the appeal and allow the MPhil to PhD upgrade;
   d) to uphold the appeal and allow the student a further opportunity to attempt the MPhil to PhD upgrade.

R15.17 In the event of a) being the decision of the panel, removal proceedings shall commence under the Academic Progress Regulations. The student has the right to appeal against the removal in accordance with these regulations.

Appeals concerning decisions of examiners: thesis and oral examination

R15.18 An appeal must be requested in writing on a form provided for the purpose and lodged with the Head of Student Conduct and Appeals (HoSCA) on behalf of the Principal within twenty one days of the date of notification to the student of the result of the examination. The grounds for the appeal must be clearly stated as part of the request and appropriate documentation supplied within the deadline for submission of the appeal.

R15.19 The Principal will normally advise the student in writing of their decision on the appeal request within forty two days of receipt of the appeal. An appeal will be permitted to be heard if the Principal is satisfied that one or more of the
following criteria apply:

a) where there is evidence that the student’s performance at the oral examination may have been adversely affected by mitigating circumstances which the student was unable, or for valid reasons unwilling, to divulge to the examiners before the decision was reached;

b) where there is clear evidence of significant administrative or procedural error on the part of the university in the conduct of the examination and that this accounted for the student’s performance.

R15.20 The Principal will have the discretion to take into account grounds (including grounds of compassion) other than those stated above in deciding whether to allow an appeal to be heard.

R15.21 Where a student submits an appeal that their examination was adversely affected by alleged harassment, bullying or discrimination, or by any other factor, which, in the opinion of the Principal, requires an investigation which falls outside the remit of these appeal regulations and which constitutes a complaint under the provisions of the Student Complaints Regulations, then the matter shall be referred for consideration under those regulations. In these circumstances, the appeal may, at the discretion of the Principal, be held in abeyance until the consideration of the matter under the Student Complaints Regulations has been concluded.

R15.22 If the Principal decides to allow an appeal to be heard they will appoint an Appeal Committee and will advise the student in writing of their decision on the appeal application. If an appeal is rejected reasons will be given.

R15.23 The student has the right to appear before the Appeal Committee. The student may be represented by another member of the university or a member of the King’s College London Students’ Union or, where the student is registered on a programme associated with professional practice, a member of their professional organisation. The student may also be accompanied by a family member or a friend (either from inside or outside the university) but that person will not be allowed to speak at the hearing. However, the Chair of the Appeal Committee will have the discretion to consider representations from the person accompanying the student to make a statement.

R15.24 If the student is to be represented and/or accompanied then the name(s) of the person(s) who is/are to attend must be received in writing by the HoSCA at least forty eight hours in advance of the hearing. The Chair of the Appeal Committee has the discretion to refuse to permit a representative or friend or family member to attend where prior written notice has not been given.

R15.25 The examiners shall be invited to attend the meeting of the Appeal Committee. The university reserves the right to call any other relevant individuals to present
evidence to the Committee.

R15.26 The Committee shall normally conduct the proceedings in the presence of both the student and the examiners. The student and/or their representative have the right to be present throughout the meeting of the Appeal Committee, as have the examiners, until such time as the Committee retires to consider its findings. The absence of the student or the examiners will not prevent the hearing from taking place nor invalidate the proceedings.

R15.27 Written notice of the date of the hearing will be sent to the student as soon as possible following the Principal’s decision to refer the matter to an Appeal Committee. The names of the Committee members together with all documentary evidence will normally be sent to the Committee and to the student at least seven days before the hearing date. Any concerns regarding documentation or membership of the Committee should be raised in writing by the student at the earliest opportunity in advance of the hearing to the HoSCA.

R15.28 The documentation with which the Committee is provided shall include:
   a) the written submissions of the student and of the examiners (should they wish to make a written submission);
   b) the final report(s) and the preliminary independent reports of the examiners;
   c) any documentation that either the student or the examiners wish to submit.

R15.29 In addition, the Committee may request to see any other documentation it considers relevant to the appeal.

R15.30 The procedure is for the student to address the Committee first and, during this part of the proceedings; they may call witnesses, if this has been agreed by the Chair of the Committee at least seven days in advance of the hearing. The examiners shall be invited to make any observations. Any questions by the student or the examiners shall be put through the Chair. The student may make any concluding remarks. The members of the Appeal Committee may put questions to any of those present at any time during the proceedings. The Chair has the discretion to vary the procedure in any case where they consider it just to do so.

R15.31 The Appeal Committee shall take one of the following decisions:
   a) to reject the appeal, in which case the result of the original examination stands;
   b) to request the examiners to reconsider their decision. The examiners shall normally be expected to hold another oral examination before reaching a
decision as to whether the result should be changed;

c) to determine that the original examination be cancelled and that a new examination be conducted. The new examination shall be conducted by examiners who did not take part in the original examination and were not involved in the appeal.

R15.32 The decision of the Appeal Committee shall be final and shall be provided to the student in writing normally within seven days of the appeal hearing. The Committee shall provide reasons for its decision.

R15.33 When a new examination is to be held, new examiners shall be appointed in accordance with the academic regulations and associated appendices for research degrees. However, all examiners should be external to the university. The examiners may make any of the decisions open to the original examiners. The examiners will not be given any detailed information about the previous examination except the single fact that they are conducting a new examination following an appeal.

R15.34 The result of the original examination having been cancelled, the result of the new examination shall be considered by the Research Degrees Examination Board.
