

# Field of Study

(to be stated on RD1 examination entry form)

**Please note: this will be printed on your degree certificate**

All students in the Dickson Poon School of Law will have the field of study 'Law'.

Students in the Florence Nightingale Faculty of Nursing and Midwifery & Palliative Care, the Institute of Psychiatry, Psychology & Neuroscience and the Faculty of Life Sciences and Medicine should select the appropriate field of study from the list below

Students in other faculties should discuss the field of study with their supervisor prior to completing the RD1 examination entry form

## FLORENCE NIGHTINGALE FACULTY OF NURSING AND MIDWIFERY & PALLIATIVE CARE

- |                            |                             |
|----------------------------|-----------------------------|
| 1 Health Studies Research  | 8 Clinical Trial Statistics |
| 2 Midwifery Research       | 9 Clinical Research         |
| 3 Nursing Research         | 10 Epidemiology             |
| 4 Palliative Care          | 11 Health Statistics        |
| 5 Palliative Medicine      |                             |
| 6 Rehabilitation           |                             |
| 7 Health Services Research |                             |

## INSTITUTE OF PSYCHIATRY, PSYCHOLOGY & NEUROSCIENCE

- |  |   |
|--|---|
| 1 Addiction Sciences                                       | 46 Neuroscience                                 |
| 2 Applied Neuroimaging                                     | 47 Old Age Psychiatry                           |
| 3 Behavioural Genetics                                     | 48 Pain mechanisms                              |
| 4 Biological Psychiatry                                    | 49 Pharmacogenetics                             |
| 5 Biostatistics  | 50 Pharmacological fmri                         |
| 6 Biostatistics and Health Informatics                     | 51 Pharmacological imaging                      |
| 7 Biostatistics of Brain Imaging                           | 52 Pharmacological Neuroimaging                 |
| 8 Child and Adolescent Health Economics                    | 53 Psychiatric and Mental Health Nursing        |
| 9 Child and Adolescent Mental Health Services Research     | 54 Psychiatry                                   |
| 10 Child and Adolescent Psychiatric Epidemiology           | 55 Psychological Medicine                       |
| 11 Child and Adolescent Psychiatry                         | 56 Psychology                                   |
| 12 Child and Adolescent Social Psychology                  | 57 Psychology and Neuroscience                  |
| 13 Child Neuropsychology                                   | 58 Psychopharmacology                           |
| 14 Child Psychiatry  | 59 Psychosis                                    |
| 15 Child Psychology  | 60 Public Health                                |
| 16 Clinical Neuroscience                                   | 61 Social Psychology                            |
| 17 Clinical Psychopharmacology                             | 62 Social, Genetic and Developmental Psychiatry |
| 18 Cognitive neuroscience                                  | 63 Sociology as Applied to Medicine             |
| 19 Developmental Neuroscience                              | 64 Social Epidemiology                          |
| 20 Developmental Psychopathology                           | 65 Statistical Genetics                         |
| 21 Epidemiological Psychiatry                              |   |
| 22 Epidemiology  |   |
| 23 Epidemiology and medical statistics                     |   |
| 24 Forensic Health Service and Population Research         |   |
| 25 Forensic Neuroscience                                   |   |
| 26 Forensic Psychiatry                                     |   |
| 27 Forensic Psychology                                     |   |
| 28 Genetic Epidemiology                                    |   |
| 29 Health Economics  |   |
| 30 Health Informatics                                      |   |
| 31 Health Service and Population Research                  |   |
| 32 Health Services Research                                |   |
| 33 International Child and Adolescent Public Mental Health |   |
| 34 International Public Mental Health                      |   |
| 35 Molecular Biology                                       |   |
| 36 Molecular Genetics                                      |   |
| 37 Neural Injury and Repair                                |   |
| 38 Neurobiology  |   |
| 39 Neuroimaging  |   |
| 40 Neuroimaging Analysis                                   |   |
| 41 Neuroimaging Physics                                    |   |
| 42 Neuroimmunology   |   |
| 43 Neuropharmacology                                       |   |
| 44 Neurophysiology   |   |
| 45 Neuro-Rehabilitation                                    |   |

## **FACULTY OF LIFE SCIENCES AND MEDICINE**

- 1 Aerospace & Extreme Physiology
- 2 Analytical Science
- 3 Analytical Toxicology
- 4 Aviation Sciences
- 5 Biochemistry
- 6 Bioinformatics
- 7 Biomedical Engineering
- 8 Biomedical Sciences
- 9 Biometry & Medical Statistics
- 10 Biophysics
- 11 Biosciences
- 12 Cancer Bioinformatics
- 13 Cancer Biology
- 14 Cancer Genetics
- 15 Cancer Imaging
- 16 Cancer Studies
- 17 Cardiac Imaging
- 18 Cardiac surgery
