Dear Colleague,

If you want to make a difference to the lives of people living with advanced disease, and their families, understanding what represents good evidence is an essential place to start. At the Cicely Saunders Institute we provide a highly acclaimed two week postgraduate course in Research Methods and Statistics for all professionals working in palliative and end-of-life care. In our highly interactive teaching sessions you will learn to make sense of research evidence and how to apply it to your work setting. You will also learn to develop and conduct rigorous and relevant research studies. During the two weeks you will become proficient in the following important areas:

- Critical appraisal skills and how to read scientific papers
- Quantitative and qualitative methods
- Survey research techniques
- Developing research questions
- Developing research protocols
- Designing and evaluating complex interventions
- Outcome measurement
- Health statistics and their interpretation
- Systematic literature reviews
- Health economics
- Epidemiological methods
- Clinical trials in palliative care
- Research ethics

For more information or to register visit www.csi.kcl.ac.uk/courses, or contact Michaela Eccles: mscpallcare@kcl.ac.uk, +44 (0) 20 7848 5435. As places are limited, you are advised to apply as early as possible. The deadline for applications is the 4th January 2016.

Looking forward to learning with you.

Professor Irene Higginson, Dr Jonathan Koffman & Dr Richard Harding
