

# HOW CAN WE HELP?

The Education Support Team (EST) is the first point of contact for current and prospective students at the Institute of Psychiatry, Psychology and Neuroscience (IoPPN). The team covers three main areas:

- Programme Support
- Assessment & Records
- Student Experience

The team responds to student queries on a wide variety of topics via email, and face to face on the drop-in helpdesks, and works closely with relevant departments across the College to provide an efficient and responsive service for students and staff.

Your **Programme Support Team** should be your first point of contact for any queries related to the programme itself. These may include assessment and feedback queries, timetabling issues, or questions relating to College processes and procedures.
