King's College London

Author: Dr Michael A. Innes

General Bibliography

The Conflict Records Unit

The Conflict Records Unit specialises in primary sources of contentious, war-related provenance and enduring historical value. Conflict records - in their narrowest sense, captured enemy records, and in their broadest meaning, documents and media generated by parties to an armed conflict - are by virtue of their disposition difficult to access and at risk of loss or destruction.

The Sir Michael Howard Centre

The Sir Michael Howard Centre promotes the scholarly history of war in all its dimensions, trains research students and hosts research projects and conferences. It also runs a flourishing MA in the History of War. We promote the study of the history of war from the ancient world to the recent past, dealing not just with the history of all the armed services but also of all involved in warfare. War has been a central feature of human history which requires study by historians working in many traditions and fields. We study the history of war from many historiographical vantage points, from economic history to cultural history, from international history to the history of science and technology.

Table of Contents

New Additions

The following items have been added to this updated version of the General Bibliography:

• Byman, Daniel. "The Intelligence War on Terrorism." Intelligence and National Security 29:6 (2014): 837-863.

• Central Intelligence Agency. "November 2017 Release of Abbottabad Compound Material." Web page. URL: https://www.cia.gov/library/abbottabad-compound/index.html.
