Twentieth meeting of the
London Myology Forum
At King’s College London, in the Harris lecture theatre,
Hodgkin Building, Guy’s Campus, London, SE1 1UL

Wednesday 6th December 2017

1.00 pm: Professor Simon Hughes
King’s College London
‘Nature and nurture in building zebrafish muscle’

1.40 pm: Dr. Julie Dumonceaux
Institute of Child Health, University College London
‘Myostatin expression in neuromuscular patients’

2.20 pm: Huscar Ortuste Quiroga
King’s College London
‘Role of Eph/Ephrin Signalling in skeletal muscle’

2.40 pm: Lukasz Ciszewski
Royal Holloway - University of London
‘Novel epigenetic mechanisms regulating DUX4 expression’

3.00 pm: Coffee Break

3.50 pm: Dr Joana Domingos
Dubowitz Neuromuscular Centre, University College London
‘Outcome measures in Duchenne muscular dystrophy’

4.10 pm: Professor Giulio Cossu
University of Manchester
‘Origin and fate of pericytes during muscle development and regeneration’

4.50 pm: Professor Hanns Lochmuller
MRC Centre for Neuromuscular Diseases, Newcastle University
‘Inherited disorders of neuromuscular transmission’

5.30 pm: Dr Anne-Gaëlle Borycki
University of Sheffield
‘Remodelling of the satellite cell niche: a mechanism to ensure long-term regenerative capacity?’

6.15 pm: Drinks and Nibbles in the Gordon Museum
