About the Biology of Ageing Conference

With aging the prevalence of non-communicable diseases is increasing: Alzheimer’s disease, sarcopenia, diabetes, cancer, cardiovascular diseases. During the conference research experts and leaders in the field will discuss various biological aspects of aging and especially interventions as well as related mechanisms to sustain and/or restore functional capacity in older adults. The interventions to be discussed include nutritional supplements, caloric intake regulation, exercise, drugs, and others, in both human and animal models. The musculo-skeletal, immune, metabolic and cognitive aspects of aging are among the topics to be covered. Scientists, clinicians and groups interested in restoring functional capacity and understanding the biology behind the effectiveness of these interventions are welcomed to attend this scientific conference. A*STAR and the National University of Singapore (NUHS) are very pleased to host you in the heart of Asia.

Confirmed Speakers

Keynote: Valter LONGO USC Longevity Institute, California, United States

Arne AKBAR
University College London, UK

Nir BARZILAI
Albert Einstein College of Medicine, USA

Roger Sik Yin FOO
Genome Institute of Singapore A*STAR / National University of Singapore, Singapore

Ciaran FORDE
Singapore Institute of Clinical Science A*STAR, Singapore

Tamas FULOP
University of Sherbrooke, Canada

David GEMS
University College London, UK

Jan GRUBER
National University of Singapore, Singapore

Barry HALLIWELL
Biomedical Research Council A*STAR, Singapore

Matt KAEBERLEIN
University of Washington, USA

Leonidas KARAGOUNIS
Institute of Nutritional Science, Nestlé Research Center, Switzerland

Brian K. KENNEDY
Buck Institute, California, USA

Woon Puay KOH
Duke-NUS, Singapore

Guido KROEMER
University of Paris Descartes, France

Anis LARBI
Singapore Immunology Network A*STAR, Singapore

Andrea MAIER
University of Melbourne, Australia

Suresh RATTAN
Aarhus University, Denmark

Catherine SHANAHAN
King’s College London, UK

Jan VAN DEURSEN
Mayo Clinic, Minnesota, USA
