

# RESOURCE PACK FOR STAKEHOLDERS OF DAY CENTRES FOR OLDER PEOPLE

**Are you involved in running a day centre for older people or people with dementia in south London?**

**Do you have a professional or personal interest in day centres for older people?**

**If you answered 'yes' to one of the above questions, you could be involved in our research.**

**We are looking for people to help us develop a Resource Pack that will aim to support day centres' sustainability.**

## **There are several ways you could be involved:**

- You could speak to us (less than 45 minutes) about topics in which tools and resources are missing or under-developed (Kingston-upon-Thames, Lambeth, Lewisham, Merton only)
- You could join our Stakeholder Reference Group.
- You could 'road-test' the resources developed in your setting.

**If you cannot help but you know someone who might be able to, please pass on this information and encourage them to get involved. Many thanks.**
