

# ADOS-2

## 11-14 May 2020

### Pre-course work

#### PLEASE READ THIS INFORMATION SHEET CAREFULLY

We ask that you complete and submit pre-course work. This provides you with a common foundation of knowledge, maximising your learning experience on the course itself.

Before the course you will need access to:

- An ADOS-2 manual
- An ADOS-2 Kit
- A video camera/filming device
- An ADOS-2 booklet

You will need to complete and film **one** ADOS-2 assessment (from any module) with a child or adult (any age). Ideally the assessment should be completed for someone with autism, but this is not essential.

To attend the course, you must complete and bring your recording on a memory stick or DVD on the first day of the training course.

The pre-course work is mandatory, and delegates will only be permitted to attend the training if this is completed.

If you have any queries regarding the pre-course work, please email: [Emma.woodhouse@kcl.ac.uk](mailto:Emma.woodhouse@kcl.ac.uk)
