# Intercalated BSc in Primary Care

Summary Infographic

"The course is so well run and well organised. You are supported ... the feedback you receive on work is brilliant."

#### Overview

The intercalated BSc in Primary Care is an exciting opportunity for you to engage further with a General Practice clinical experience whilst also studying aspects of Primary Care in more depth and undertaking a research project. It will inspire doctors and health care leaders of the future, and give an excellent generalist grounding to students planning a career in both General Practice and other medical careers, equipping them with the skills necessary to lead integrated and innovative care.

There is flexibility for you to pursue an area of interest in more depth so this course is highly desirable for those planning a myriad of careers, as well as future GPs.

- Support towards conference presentations and publication • Support with essay writing

## Student Feedback

"Loved having placement each week! It was so good to attend without being an official medical student as it meant we could have a little more free reign to choose what to do, and that freedom really let us explore many areas."
