

## **General Practice Reading List**

Here are some suggestions to enhance your learning during your time in General Practice. This is an opportunity for a deeper insight into clinical practice in Primary Care and linked to some of the stage 3 Learning Outcomes. Feel free to read more widely.

### **The GP consultation**

These six references are chosen to deepen your understanding of the GP consultation as a series of encounters which have cumulative effect over time. The doctor as an expert generalist works with a patient whose life experiences will influence the presentation and process of the consultation.

## **Leadership**

This is an important feature of a sustainable NHS with clinicians who are able to identify and prioritise needs, and who can recognise when things have gone wrong and respond appropriately.
