Professor M.D. Houslay - List of Publications

B. INVITED REVIEWS AND CONFERENCE PROCEEDINGS

64. Houslay, M.D. (1989) Trends in Endocrinology & Metabolism 1, 83-99. Distinct functional domains on the insulin receptor β-subunit: do they provide a molecular basis for 'selective' insulin resistance?

phosphodiesterases in rat liver: a review of their characterisation, of their hormonal regulation by insulin and glucagon and their role in controlling intracellular cyclic AMP concentrations.

139. **Houslay, M.D.** (2011) Cancer Cell 19, 3-4. Hard times for oncogenic BRAF-expressing melanoma cells. (Preview Article)
