On-campus Medical Activity Days

On-campus Medical Activity Days are held on Wednesdays throughout the academic year. Priority booking is given to our target schools, as determined by levels of deprivation, attainment and progression to Higher Education.

For more information on our targeting or to book a Medical Activity Day, please visit the following webpage: www.kcl.ac.uk/lsm/study/outreach/teachers/index.aspx

OUR SPONSORS

As part of its 700th anniversary celebrations in 2008, the Worshipful Company of Barbers launched an appeal amongst its members which has enabled the Company to support the work of Outreach for Medicine for seven years. After the closure of the appeal, the Company decided to continue to support the work from its general Charitable Funds. In the Middle Ages, barbers once practiced surgery as Barber-Surgeons. The two skills separated when the surgeons left in 1745, ultimately to form the Royal College of Surgeons. Now nearly half of the Barbers’ Company members are from medical disciplines and the Company’s charitable activities are focused on medical education. Further information about the Company can be found at www.barberscompany.org or from the Clerk at Barbers-Surgeons’ Hall, London EC2Y 5BL.

MEDICAL ACTIVITY DAYS

This is an opportunity for a hands on day at the Medical School campus. The morning focuses on health and life style choices, followed by a tour of the campus. The afternoon is spent learning and practising clinical skills, such as blood taking, CPR and suturing. A fun and educational day that not only enriches the GCSE curriculum but allows your students to meet current medical students.

Maximum group size: 40 students

STUDENT DOCTORS IN THE CLASSROOM

This popular scheme places medical students in local schools every Thursday between September – November. Whilst there, they will observe and teach lessons on science/health-related topics and can give aspiration-raising talks about applying to medicine and life at medical school. Express your interest early for hosting a medical student in September – November 2018!

KEY SKILLS OF MEDICINE

Interactive workshops, delivered to your door. These practical workshops take place at your school and will introduce students to the work of healthcare professionals. Your students will meet current medical students, who will help them practice a selection of clinical skills.

Maximum group size: 30 students, but can run consecutive workshops.

HOW DO I MAKE A BOOKING?

Please visit our website and complete an online booking form. www.kcl.ac.uk/outreachmed

We recommend that bookings are made as far in advance as possible, as our events are heavily oversubscribed.

We are also happy to contribute to other events organised by the school subject to staff availability. These events can be organised on an ad hoc basis but please give as much advanced notice as possible.
