

Mathematics

Fellowships

The Department of Mathematics at King's College London welcomes applications from excellent candidates for fellowships. We encourage expressions of interest from underrepresented groups, including women and minority ethnic candidates.

We are currently accepting applications for the following fellowships:

- [EPSRC Postdoctoral Fellowship](#) (Opening 23 May 2023, Funder Deadline: 28 September 2023)
- [Marie Skłodowska-Curie Actions Fellowship](#) (Funder Deadline: 13 September 2023)
- [European Research Council Grants](#)

Expressions of interest, comprising a cover letter, a one-page draft research proposal and a link to an inspire/google scholar profile (or similar), should be submitted via our [online form](#), and **this must be at least 8 weeks prior to the funder's deadline**. Please indicate which fellowships you are interested in or are best suited to so we can match you with an academic who will serve as your mentor.

The selection process for these fellowships is conducted at College level. For any enquiries, please contact mathematics-research@kcl.ac.uk

The deadline for the following fellowships has now passed. Details for the next round of applications will be published in due course:

- [Royal Society University Research Fellowship](#)
- [STFC Ernest Rutherford Fellowship](#)
- [UKRI Stephen Hawking Fellowship](#)
- [Royal Commission for the Exhibition of 1851 Fellowship](#)
- [Leverhulme Early Career Fellowship](#)
- [Royal Society Newton International Fellowship](#)
