

Compassionate Care

Professor Jill Manthorpe

@scwru

Compassionate Care: why this subject?

- Surely we should have chosen Uncompassionate Care?

Our reasons

- ▶ To explore what is meant by compassion
- ▶ To think about the many areas of care for older people where it may be needed
- ▶ To reflect on the many other things we have said are priorities
- ▶ To ask if compassion is to do with individuals or much wider social relationships

What we have learned so far

Compassion

What we want to learn

- ▶ Where is the passion in compassion?
- ▶ Should everyone be compassionate all the time?
- ▶ Older people are different – do they all want compassion?

Thanks for helping us today !
