

Joint PhD Scholarships for programmes with the University of Hong Kong; National University of Singapore and the University of Sao Paulo

Funding code: 2122-JOINT

2021/22 Guidelines for Applicants

Published by the Centre for Doctoral Studies January 2021

INTRODUCTION

About the Centre for Doctoral Studies

The Centre for Doctoral Studies provides advice on a wide range of postgraduate funding opportunities and will, where possible, guide applicants to the most appropriate sources of funding for their degree programmes. The Centre for Doctoral Studies also administers a wide range of funding schemes that are open to students in pursuit of a postgraduate degree at King's College London.

Information about the <u>Centre for Doctoral Studies</u> and what it does can be found online.

About this document

This document has been produced to provide information about the funding opportunities that are offered by the Centre for Doctoral Studies for joint PhD programmes between King's College London and three of its international partner universities for the 2021/22¹ academic year.

Within this document you will find details about the criteria, application process and selection process for the scholarships covered by this document. Also contained in this document are the full Conditions & Regulations of funding.

For details relating to other funding opportunities available at King's College London, which can include other schemes administered by the Centre for Doctoral Studies; schemes offered through academic faculties/departments/divisions at King's; and external funding opportunities, please refer to the online <u>Funding Database</u>.

¹ The 2021/22 academic year covers the period from September 2021 to August 2022.

KING'S JOINT PHD SCHOLARSHIPS 2021/22

Funding code: 2122-JOINT

Funding deadline: Friday 16 April 2021

Number of awards available for 2021/22: Three

Value of award

The scholarship covers the following:

- Tuition fees
- Annual stipend of £17,609
- Annual research grant of £1,500

Length of award

The award is offered for four years and depends on the successful progression of the candidate, as noted in the below Conditions & Regulations.

Eligibility criteria

Applicants MUST:

- be due to commence one of the below mentioned full-time joint PhD programmes run in collaboration between King's College London and the stated partners during the 2021/22 academic year;
- have applied to King's College London as the home institution;
- have provisional agreement from supervisors at both King's and the partner university;
- have submitted all the required application materials by the funding deadline, including the Travel Plan form, which can be found <u>online</u> or obtained via the Admissions office.

Please note that:

- scholarships cannot commence prior to September/October 2021;
- applications for joint PhD programmes must be approved by both King's College London and the
 partner university before a formal offer can be made. As such, the process may take longer than for a
 single PhD programme. Students are able to apply for the scholarship whilst their application is being
 considered in order to meet the set deadline;
- students are required to spend a set minimum amount of time at the partner university (12 months for the NUS and USP partnerships and 50% of the overall time for the HKU partnership). Students must be willing to do this and note their potential periods of candidature in the Travel Plan form mentioned above.

Eligible programmes

The funding is available for the following programmes. The funding is only offered for full-time study. Students applying for programmes not listed below will not be eligible:

King's-HKU programmes

- Chinese Studies Research with the University of Hong Kong MPhil/PhD
- Comparative Literature Research with the University of Hong Kong MPhil/PhD
- Dental & Craniofacial Sciences with the University of Hong Kong MPhil/PhD
- Digital Humanities Research with the University of Hong Kong MPhil/PhD
- English Research with the University of Hong Kong MPhil/PhD
- Film Studies Research with the University of Hong Kong MPhil/PhD
- Geography Research with the University of Hong Kong MPhil/PhD
- History Research with the University of Hong Kong MPhil/PhD
- Medicine Research with the University of Hong Kong MPhil/PhD
- Linguistics Research with the University of Hong Kong MPhil/PhD
- Mathematics Research with the University of Hong Kong MPhil/PhD
- Music Research with the University of Hong Kong MPhil/PhD
- Nursing & Midwifery Research with the University of Hong Kong MPhil/PhD
- Physics Research with the University of Hong Kong MPhil/PhD
- Psychiatry, Psychology & Neuroscience Research with the University of Hong Kong MPhil/PhD
- War Studies Research with the University of Hong Kong MPhil/PhD

King's-NUS programmes

- Comparative Literature Research with the National University of Singapore MPhil/PhD
- Contemporary India Research with the National University of Singapore MPhil/PhD
- Digital Humanities Research with the National University of Singapore MPhil/PhD
- English Research with the National University of Singapore MPhil/PhD
- Geography Research with the National University of Singapore MPhil/PhD
- History Research with the National University of Singapore MPhil/PhD
- Language, Discourse and Communication Research with the National University of Singapore MPhil/PhD
- Life Sciences & Medicine Research with the National University of Singapore MPhil/PhD
- Philosophy Research with the National University of Singapore MPhil/PhD
- Politics/Political Economy Research with the National University of Singapore MPhil/PhD
- Political Science & China Studies Research with the National University of Singapore MPhil/PhD
- Psychiatry, Psychology & Neuroscience Research with the National University of Singapore MPhil/PhD
- War Studies Research with the National University of Singapore MPhil/PhD

King's-USP programmes

- International Relations Research with the University of Sao Paulo MPhil/PhD
- Pharmaceutical Discovery, Development & Use with the University of Sao Paulo MPhil/PhD

Application process

Applications open from: January 2021 Application deadline: Friday 16 April 2021 at 17:00 (GMT) Please follow the instructions below. Applicants who fail to apply as instructed will not be eligible for consideration.

- 1) Students must first apply to King's College London for one of the above joint PhD programmes using the online admissions portal (<u>https://apply.kcl.ac.uk/</u>). It is recommended that the programme application is submitted by 31 March 2021 to allow time for references to be collected and any missing information to be submitted
- 2) As part of the above application, students must have been in contact with potential supervisors at both King's and the partner university and obtained tentative agreement to work with them. Evidence of this (e.g. email correspondence) must be provided with the application materials
- 3) In the funding part of the online admissions application form, students must tick the box at item 5 (Award Scheme Code or Name) and enter the code 2122-JOINT. If this code is not entered, or is not spelled correctly, the funding application will not be picked up and the student will not be put forward for consideration
- 4) The student must have submitted all necessary information and supporting documentation, including the Travel Plan form and references, to the admissions portal by the funding deadline of **16 April 2021**. Students should refer to the relevant entry in the online <u>prospectus</u> for information on what is required for their programme. If any information is missing the funding application will be ineligible but the student can still proceed with the application for the programme itself, using alternative means of funding.

Please note that students who have already applied for admissions, and those who previously applied but deferred entry to 2021/22, will not be required to submit a new admissions application.

Selection process

Once the funding application deadline has passed, the Centre for Doctoral Studies will gather all the applications received. Applications that are deemed eligible will be circulated to a selection panel for final consideration. Assessment of applications will be based on:

- evidence and strength of academic qualifications gained and, where applicable, professional qualifications and/or relevant experience;
- strength of the research proposal;
- match of the applicant's interests with their potential supervisors.

Announcement of results:

All results will be announced via email in the first instance. Candidates who are deemed ineligible for the scholarship will be informed about their ineligibility within 3 weeks of the funding application deadline.

Final decisions will be made and all applicants informed by early June 2021.

Candidates who are successfully offered one of the scholarships will be asked to provide a decision on acceptance/decline by a given deadline. If a successful candidate fails to respond by the given deadline or declines the offer, the award will automatically be transferred to a reserve candidate who is next in line for the award.

If a candidate is offered a scholarship but their programme application is subsequently rejected by either King's or the partner institution, they will no longer be eligible for the award.

CONDITIONS & REGULATIONS OF FUNDING

- Awards are offered on the condition that the candidate has met/will meet all the conditions required for acceptance by their chosen faculty of study within both partner institutions.
- Each award will be made on the assumption that there are adequate resources for the research project, and that the candidate's proposed course of study is acceptable to the department/division and faculty in which they wish to study.
- New awards offered in 2021 are valid only to commence in the 2021/22 academic session; deferral of an award to a later academic session is not permitted.
- Awards granted for the 2021/22 academic session cannot be used retrospectively for whole or part of any earlier session.
- Awards cannot be transferred to another institution.
- An award-holder must be registered as a full-time student for the length of their research degree.
- Award-holders must comply with King's regulations to submit their thesis within the required time frame.
- If an award-holder wishes to make a change to: a) the research project, b) the supervisor, or c) department/division specified on their application form, they must first seek approval from the Centre for Doctoral Studies. The award-holder would need to outline the changes proposed and provide confirmation of a) the department/supervisor's support of such changes, and b) the tuition fees (if they are different from the amount attached to the original research project). Failure to inform the Centre for Doctoral Studies of such a change may impact on the continuation of an award.
- If an award-holder needs to take time out from their studies due to illness, accident, fieldwork or for any other serious cause, they must report this as soon as possible to the relevant faculty/registry office to request an interruption of studies. The award-holder must also inform the Centre for Doctoral Studies to request a temporary suspension of award funding. If the Centre for Doctoral Studies is not informed and continues to pay for a student who is absent from their studies, a refund will be sought for overpayment, and it may also impact on the continuation of an award.
- If an award-holder: a) already holds another funding award from an organisation; b) is otherwise financially supported by another organisation; or c) is to secure another funding award later on during the course of their research degree programme, and the Centre for Doctoral Studies considers the fund(s)/award(s), or other form of support to be sufficient to cover maintenance and/or the programme tuition fees, the award-holder will not be permitted to hold these funds/awards concurrently. The rule to remember is that if two funds/awards cover the same amount, e.g. both provide funds to cover full tuition fees, they cannot be held concurrently.

- Award-holders who receive funding from alternative source(s) will be required to disclose details of those funds to the Centre for Doctoral Studies so that an assessment can be made regarding any potential overlap of funding.
- Applicants must be aware of all the additional financial commitments involved when attending their chosen course of study at King's. Awards are granted on the understanding that the award-holder will take responsibility for any additional expenses incurred for the duration of study.
- An award can be terminated at any time under the following circumstances:
 - 1) If an unsatisfactory progress report on the award-holder is received from the student's supervisor/department
 - 2) If an award-holder ceases to be a full-time research student
 - 3) If an award-holder receives other overlapping funding
 - 4) If an award-holder completes and is awarded their PhD before the funding end date.
- All awards covered by these conditions may not be used to cover writing-up fees.

CONFIRMATION OF AWARDS

- The initial offer email sent to successful students will include instructions on how to accept the award, and the deadline for doing so. If the student is unable to take up the award, they should provide a reason why (this information is used for statistical purposes only).
- Awards must only be accepted on the understanding that the student has read, understood and agrees to comply with the Conditions & Regulations of Funding as set out in this booklet.
- Successful candidates who confirm acceptance for the award(s) will be sent an official award confirmation letter detailing the terms and conditions and the exact value of the award(s) granted.
- Where an offer-holder accepts an award but later decides that they are unable to take up the opportunity for whatever reason, we ask that, as a matter of courtesy, the student informs the Centre for Doctoral Studies as soon as possible so that the opportunity could be passed on to another candidate.
- A scholarship will only be fully awarded once it is confirmed that the joint PhD application is accepted by both institutions.

PAYMENT OF AWARDS

• Where an award provides funds directly towards tuition fees, an internal transfer will be arranged by the Centre for Doctoral Studies and no money will be paid to the award-holder.

- Where an award provides an annual student stipend, payments will be made on a monthly basis into a UK bank account.
- Research grant payments will be made to departmental accounts and students should discuss with their supervisor how they plan to use this.

RENEWAL OF AWARDS

- All research degree awards are granted for one year in the first instance but will be renewed for the remaining length of the funding period, subject to the award-holder's satisfactory progress.
- Awards are renewed only if the award-holder adheres to the Conditions & Regulations of Funding.
- The maximum tenure of awards is 4 years, providing the award-holder is still engaged in the full-time postgraduate research programme at King's.
- Award-holders are not required to apply for renewal of their award; the Centre for Doctoral Studies will contact the relevant faculty/registry office and/or supervisor(s) for a progress report. If renewal is recommended, the award will automatically be rolled over into the next academic year. If there are any queries over the renewal of an award then the award-holder will be notified.

SUBMISSION OF THESIS

• Award-holders are required to follow the College regulations when it comes to the submission of their thesis and completion of their research degree, which requires students to submit their thesis within a maximum of 4 years (full-time) of initial registration.
