Our Aesthetic Dentistry MSc is an innovative course that will give you the skills and knowledge to provide high-quality functional dental restorations with optimal aesthetic value. The course focuses on training you to provide dental care where there is a clinical need to restore oral health and function, and also covers cosmetic and facial techniques. This course is mostly delivered online, so you can study anywhere in the world with minimum disruption to your professional and personal life while benefitting from world-class teaching.

Key benefits
• Internationally renowned centre of excellence for teaching and research in dentistry.
• Pioneers of distance learning in dentistry with over 20 years’ experience.
• Intensive face-to-face residential blocks to learn and practice contemporary clinical techniques at world-class training facilities.
• Course material delivered by a team of highly experienced clinical tutors and academics, many of whom are world-leaders in their field.
• Multi-authored online course text material supported by extensive references and access to institutional library facilities.
• Online support through regular webinars and tutorials presented by core staff and expert tutors.

Course details
This course is ideally suited to dentists who already have an established dental practice and want to study an evidence-based approach to aesthetic treatment. Our course director, Dr Subir Banerji, has helped many dental graduates, both nationally and internationally, to achieve their postgraduate goals, broadening their horizons and delivery of dental care.
• You will explore all aspects of smile design, from non-invasive to full coverage techniques involving a range of aesthetic materials.
• You will study all restorative aspects applicable to aesthetic dentistry with an emphasis on functional stability, predictability and longevity of the aesthetic outcome.
• The curriculum also includes comprehensive diagnosis, treatment planning, prevention, occlusion, minimal intervention techniques and ethical marketing.

Intensive face-to-face training blocks
Delivered primarily online, the course also provides 19 days of intensive teaching and practical training in London. Our expert tutors will give you guidance on complex dental procedures at our specialist postgraduate teaching centre, LonDEC, situated at our Waterloo Campus, which offers state-of-the-art dental training facilities. These blocks are an invaluable way to consolidate learning and progress to the final year.

www.kcl.ac.uk/aestheticdentistry
You will be taught mostly online through King’s E-learning and Teaching Service (KEATS) which provides information, interactive questions, assignments, use of bibliographic databases and reading material. Our students participate in online tutorials and discussion groups, interacting with expert tutors and their fellow students. Face-to-face lectures and hands-on training take place in blocks in the first two years. Students are required to undertake and build a reflective log of clinical work in their own general practice.

The provision of any clinical opinions, treatment planning, treatment plans and/or any advice in relation to care of individual patients will not be provided by the teachers and staff of the course. Patient treatment and care is the sole responsibility of the treating clinician. Advice regarding the suitability of a clinical case for submission for the clinical module can be given at the tutor’s discretion.

Typically, one credit equates to 10 hours of work.

**Assessment**

60% of each module will be assessed through exams and 40% through assignments, with the exception of:

- the Clinical Case Reports module which is assessed by case submissions, including presentations and write ups, of four small cases covering 40% of the module mark (one submission is formative and three are summative) and one multi-disciplinary case covering 60% of the module mark.
- the Dissertation module which is assessed by a 10,000-word written assignment.

**Regulating body**

King’s College London is regulated by the Higher Education Funding Council for England.
Fees and funding

Part-time tuition fees – UK/EU/International
The UK/EU/International tuition fees for the 2018–19 academic year are available on the course web page.

Please note that the tuition fees for subsequent years of study may be subject to increases in line with King’s terms and conditions.

Deposit
When you receive an offer for this course you will be required to pay a non-refundable deposit to secure your place. The deposit will be credited towards your total fee payment.

The UK/EU/International deposit is £1,000.

For further information, please visit the fees and funding section of our website: www.kcl.ac.uk/study/postgraduate/fees-and-funding/index.aspx

Additional costs
In addition to your tuition fees, you can also expect to pay for, or have access to:

• travel, accommodation and subsistence for the face-to-face training blocks in London during Years 1 and 2
• internet access
• computer equipment
• photography equipment (to be discussed further at enrolment):
  • a digital camera with a macro lens and ring flash
  • SD card
  • retractor and mirrors
  • a digital camcorder (does not need to be HD)
• photo editing software
• books if you choose to buy your own copies
• library fees and fines
• personal photocopies
• printing course materials
• society membership fees
• conference attendance (optional)
• stationary
• binding for logbooks/dissertations
• blank cd/usb sticks for submitting clinical cases
• postage for mailing assignments/clinical work to London
• Denar Mark II or a similar semi-adjustable articulator
• examination fees (if not taken at venue in London)
• graduation costs.

Students will also be expected to bear any costs relating to providing clinical treatment for the clinical cases required for the course. Access to reasonable and compliant equipment and materials will be expected.
