The aim of our Clinical Neuroscience MSc course is to give you a unique understanding of the principles underlying the clinical presentation and investigation of diseases affecting the brain. We place particular emphasis on the translation from basic science to clinical practice. Our course is suitable for students interested in neuroscience and its applications to neurological or psychiatric diseases.

### Key benefits

- Provides a deep and detailed understanding of brain diseases.
- Emphasis on the translation from basic science to clinical practice.
- Designed to introduce the basic scientific concepts which underlie clinical symptoms, signs and practice.

### Course details

Our Clinical Neuroscience course enables trainees in neurology, psychiatry and related health-care disciplines to study the anatomical, physiological and pathological basis of symptoms and signs of brain disorders. It will provide you with in-depth knowledge and skills related to specialist clinical practice and will systematically integrate advances in genetics, molecular neuroscience, electrophysiology and neuroimaging into clinical practice. You will have the opportunity to work independently within a multidisciplinary environment and at an advanced level to develop and sustain evidence-based practice, appraise and conduct clinical research and audit.

2018 entry

Duration: one year

Study mode: full-time

[www.kcl.ac.uk/clinical-neuroscience-msc](http://www.kcl.ac.uk/clinical-neuroscience-msc)
Teaching
You will be taught through a mix of lectures, seminars and tutorials.

<table>
<thead>
<tr>
<th>Module name</th>
<th>Lectures (hours)</th>
<th>Seminars/tutorials (hours)</th>
<th>Field/lab/studio/supervised learning (hours)</th>
<th>Self-directed study (hours)</th>

</table>

Contact time is based on 24 academic weeks, whereas self-study time is based on 31 academic weeks. Typically, one credit equates to 10 hours of work.

Assessment
You are assessed through a combination of coursework and examinations and may typically expect assessment by:

<table>
<thead>
<tr>
<th>Year</th>
<th>Examination</th>
<th>Coursework</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>50%</td>
<td>50%</td>
</tr>
</tbody>
</table>

The study time and assessment methods detailed above are typical and give you a good indication of what to expect. However, they may change if the course modules change.

Required modules
You are required to take:
- The Anatomical Basis of Neurological Disease (30 credits)
- Cellular & Molecular Neuroscience (30 credits)
- Neurology in Clinical Practice (30 credits)
- Research Methods in Clinical Neuroscience (30 credits)
- Dissertation (60 credits)

Course structure
Courses are divided into modules. Each year you will normally take modules totalling 180 credits.

Optional modules
There are no optional modules for this course.

Career prospects
Our graduates pursue clinical and non-clinical academic careers in neurology, psychiatry and allied health care professions. Many of our students also go on to study PhDs.

Location
Our course is primarily taught at the King’s College London Denmark Hill Campus. Students will also be able to attend weekly optional case presentations sessions, which are offered by King’s College Hospital. In addition, depending on the research project chosen, students may be required to attend sessions at partner organisations such as SLaM and KCH.

Regulating body
King’s College London is regulated by the Higher Education Funding Council for England.
Fees and funding

Full-time and part-time tuition fees – UK
The UK tuition fees for the 2018–19 academic year are available on the course web page.

Please note that the tuition fees for subsequent years of study may be subject to increases in line with King’s terms and conditions.

Full-time and part-time tuition fees – EU
Current regulations allow some students to pay UK tuition fees on the basis of their EU citizenship or residency. Until these eligibility criteria are changed, the EU tuition fee will remain the same as the UK tuition fee.

The UK tuition fees for the 2018–19 academic year are available on the course web page.

Please note that the tuition fees for subsequent years of study may be subject to increases in line with King’s terms and conditions.

Full-time and part-time tuition fees – International
The International tuition fees for the 2018–19 academic year are available on the course web page.

Please note that the tuition fees for subsequent years of study may be subject to increases in line with King’s terms and conditions.

Deposit
When you receive an offer for this course you will be required to pay a non-refundable deposit to secure your place. The deposit will be credited towards your total fee payment.

The UK/EU deposit is £500.

The International deposit is £2,000.

For further information, please visit the fees and funding section of our website:
www.kcl.ac.uk/study/postgraduate/fees-and-funding/index.aspx

Additional costs
In addition to your tuition fees, you can also expect to pay for:
• Books if you choose to buy your own copies
• DBS checks
• clothing for optional course related events and competitions
• library fees and fines
• personal photocopies
• printing course handouts
• society membership fees
• stationery
• travel costs for travel around London and between campuses
• graduation costs.
