‘Studying at King’s has opened so many doors for me, I’ve loved my time here so far.’
 Mike
 Physiotherapy BSc

One of the top 10 universities in the UK
QS World University Rankings 2018–19
WELCOME

‘As we look forward to our 200th anniversary in 2029, we are striving to make a positive impact through our strategic vision. King’s will continue to inspire future generations to be the critical thinkers, problem solvers and change-makers the world needs.

By joining King’s, you will become part of our diverse and welcoming community of staff and students from more than 150 countries worldwide. You will benefit from our cross-disciplinary approach and research-led teaching, learning from academics whose cutting-edge research makes a positive impact on society; from gene research that will improve cancer diagnosis, to helping London solve its pollution problem.

We are London’s most central university and life in our incredible capital is an integral part of the King’s experience. Our outstanding partnerships with institutions such as The British Film Institute, leading NHS hospitals and our many global connections, will enable you to build networks and develop invaluable skills to support you in your future career.

Our students are a great example of our success and their experiences shared in this guide and on our webpages, demonstrate just that. You will have many opportunities to speak to them and discover life at King’s at our on-campus events, on social media and throughout our communications.

I hope you will join us as we pledge to work together to make the world a better place.’

Professor Edward Byrne, President & Principal AC

CHOOSE KING’S FOR:
OUR LONDON SETTING

King's Denmark Hill Campus, King's College Hospital and South London and Maudsley Hospital approximately 3 miles (5km).
In 1829 King George IV and the Duke of Wellington founded King’s College London, making King’s the fourth oldest university in England. When the University of London was established in 1836, King’s became one of its two founding colleges.

**MEDICAL EDUCATION**

The roots of medical education at King’s can be traced back to 1107, from the establishment of St Thomas’ Hospital, named after Thomas Becket, to the Florence Nightingale Faculty of Nursing, Midwifery & Palliative Care, established by Florence herself in 1860.

**NOBEL LAUREATES**

We are also famous for our distinguished contribution to arts and sciences. Some of the greatest minds have studied at King’s – from Professor Peter Higgs, who received the Nobel Prize for discovering the Higgs boson, to Michael Morpurgo OBE, author of the children’s book War Horse, later made into a critically acclaimed movie and West End play.

1. **Florence Nightingale (1820–1910)**
   - Founded the world’s first professional school of nursing at St Thomas’ Hospital in 1860.

2. **Dr Oliver Johnson**
   - Medicine MBBS & Director of King’s Sierra Leone Partnership
   - Studied Medicine at King’s from 2004.
   - From 2011, Oliver led the fight against Ebola as Director of the King’s Sierra Leone Partnership. He is currently a visiting lecturer at King’s.

3. **Michael Morpurgo OBE**
   - Studied English and French at King’s.
   - His novel War Horse was adapted first for the stage, followed by a film adaptation in 2011.

4. **Dina Asher-Smith**
   - Studied History at King’s from 2014.
   - Dina is currently Britain’s fastest woman and the 2018 European Champion at 100 and 200 metres and Olympic bronze-medalist from Rio 2016.

Nobel Prize winners have studied or worked at King’s.

‘I’m so proud to be a King’s graduate. With hard work you can do anything you set your mind to.’
Dina Asher-Smith
History BA
Choose King’s for...

OUR LOCATION

‘The combination of King’s connections with leading organisations and endless opportunities in central London made studying here an obvious choice for me.’

Calum, Law LLB
When you join King’s as a student, you also become part of one of the world’s most dynamic cities. With London as an extension of your campus, you’ll have constant opportunities to explore and enjoy this incredible city.

Our central location, convenient transport links and established relationships across the city provide the perfect environment for you to combine your studies with your social interests. You’ll have daily access to world-class resources such as libraries, galleries, museums and top research hospitals, as well as music, theatre, the arts and sport.

**DENMARK HILL**
Home to the Institute of Psychiatry, Psychology & Neuroscience while also providing facilities to the Dental Institute.

**GUYS**
The Faculty of Life Sciences & Medicine, Institute of Psychiatry, Psychology and Neuroscience and the Dental Institute are based at our riverside Guy’s Campus, right next door to the Shard.

**ST THOMAS’**
The Florence Nightingale Museum is based at St Thomas’, along with both medical and dental teaching.

**STRAND**
Located on the north bank of the River Thames, the Strand Campus houses King’s College London’s arts and sciences faculties. King’s Business School and English Language Centre are both situated in the newly acquired Bush House.

**WATERLOO**
Home of the Florence Nightingale Faculty of Nursing, Midwifery & Palliative Care and provides facilities for the Faculty of Life Sciences & Medicine, Faculty of Social Science & Public Policy and the Dental Institute.

**KING’S AND LONDON**
The future of King’s is interwoven with the future of London – as a place to live, work, learn and experience. Incorporating London’s many possibilities within King’s education, research and service, we are putting our expertise to work to address London’s challenges and opportunities and ensure its health and success. Our commitment to the communities and the city around us is shared across the university and is embedded in everything we do; from King’s Experience London Award, which recognises students’ contributions to local communities, to the London Air Quality Network that works to minimise air pollution health effects across the capital.

kcl.ac.uk/london
Being a student at King’s is not only an enriching experience from an academic perspective, but you'll also become part of a diverse and active student community with countless ways to get involved, meet like-minded people and develop new skills for the future.

KING’S COLLEGE LONDON STUDENTS’ UNION

KCLSU (King’s College London Students’ Union) offers you a huge range of ways to meet new people, join societies, campaign for the things that matter to you, relax with your friends and so much more. Led by students, for students, the Students’ Union is independent from the university and here to make sure you have the best student experience possible.

KING’S SPORT

Across the university, sport is run by King’s Sport and KCLSU. There are over 50 sports clubs on offer, four Health & Fitness gyms, a sports scholarship programme for high-performing athletes (King’s Sport Performance), a social sports programme (BeActive) and an online fitness rewards platform (King’s Move).

There really is something for everyone – whether you’re a first time participant, an elite performer or somewhere in between.

Choose King’s for...

OUR STUDENT COMMUNITY

‘The social scene here is fantastic... the Students’ Union always has events going on.’

OUR GLOBAL OPPORTUNITIES

‘My time abroad was one of the highlights of my course so far. If you have the chance to live and learn somewhere you have never been before, just do it!’

Andreea, Film Studies BA

in most cases you won’t have to extend your degree to study abroad, and you’ll make a significant saving on tuition fees for the period you are away

1. Shanghai, China
2. Great Wall Of China, Beijing, China
3. Potato Chip Rock, Poway, California, USA
4. Teotihuacan, Mexico City, Mexico
5. Nyhavn, Copenhagen, Denmark
6. Melbourne, Victoria, Australia
7. Sultan Mosque, Singapore
STUDENT MOBILITY
Expand your personal and academic horizons and boost your employability by spending a period of time abroad for a semester, a year, the summer or as part of a shorter, elective period.

Our exchange partners span the globe, so you could spend part of your degree in North America, Australasia, Asia, Latin America or Europe. Our summer exchange programmes are open to you in each year of your degree, so you can have multiple summer experiences overseas.

GLOBAL INTERNSHIPS
We also offer current students the opportunity to spend time in one of nine countries undertaking an internship on our Global Internships Programme. Find out more on the next page.

Learn more about our worldwide partnerships online:

OUR GRADUATE PROSPECTS

‘My internship taught me so many new skills and I gained invaluable opportunities to network with industry experts – it was great preparation for my future career.’

Geraint, Political Economy BA

300+ internships placed in 2018
Listing an undergraduate qualification from a top university on your CV is just the beginning. You’ll also be able to develop professional skills and experience to help you stand out from the crowd.

Our dedicated Careers & Employability Team offers an outstanding range of professional development support including careers advice appointments, a huge array of events including professional skills programmes and careers fairs, an exclusive jobs portal and multiple online resources. Whether you’re looking for networking opportunities or advice on what to do next, we can help you make it happen.

kcl.ac.uk/careers

INTERNSHIPS
An internship is an excellent way to practically apply the knowledge gained from your studies, enabling you to develop your professional network and enhance your employability. We offer exclusive opportunities in all business areas through our King’s Internships schemes here in the UK to help you do just that. Many students also have the option to gain academic credit through the completion of an internship as part of the Accredited Internships Programme embedded within their degree.

kcl.ac.uk/internships

GLOBAL INTERNSHIPS PROGRAMME
For those keen to venture overseas, our Global Internships Programme is an incredible opportunity to live and work in one of nine locations, including Beijing, Cape Town, Delhi and New York City, during the summer months.

kcl.ac.uk/global-internships

STUDENT LEARNING OPPORTUNITIES
Enhance your studies and university experience by undertaking one of the King’s Experience Awards. There are five specific awards which provide additional learning opportunities and increased employability to set you apart from your peers.

kcl.ac.uk/campuslife/ke

ASSOCIATE OF KING’S COLLEGE (AKC)
Broaden your perspective and tackle life’s big questions by reflecting on theology, philosophy and ethics with the Associate of King’s College. You can take this award free alongside your degree.

OUR GRADUATE PROSPECTS
Choose King’s for...

OUR ACADEMIC EXCELLENCE

‘King’s reputation was one of the main reasons I chose to study here. It’s fantastic to learn from lecturers who wrote our text books.’

Deborah, Global Health & Social Medicine BSc

At King’s you’ll be part of a world-renowned university that has been delivering world-class teaching and cutting-edge research for almost 200 years.

RESEARCH SUCCESS

At King’s, we’re very proud of our outstanding reputation for world leading research as a Russell Group university. Across the arts and sciences to many areas of health, our research has led to groundbreaking new discoveries and ongoing research including:

• Junior doctors Bhavagaya Bakshi (Medicine, 2011) and Miles Payling founded C the Signs in 2017 – a digital health start-up that uses artificial intelligence (AI) to help doctors diagnose cancer early.
• The development of a pioneering new method to diagnose autism in adults with just a quick 15-minute brain scan.
• Discovery of DNA structure by Maurice Wilkins and Rosalind Franklin in 1953.

During your time here we’ll do everything we can to support you to achieve your potential and help you adjust to a new academic environment.

PERSONAL TUTORS

All our undergraduate students are allocated a personal tutor from within their department or faculty. Your personal tutor will get to know you as an individual and support you academically as you progress.

ACADEMIC STUDY SKILLS

All students at King’s have access to free Academic English and Study Skills support classes to help with a successful transition to study at university level.

CHOOSE KING'S FOR:
OUR ACADEMIC EXCELLENCE
Choose King’s for...

**OUR FACILITIES & RESOURCES**

‘It’s great that we can use facilities from all campuses and we have access to many libraries across London.’

**Kadija, Digital Culture BA**

26+ languages available at all levels at King’s Modern Language Centre
At King’s, we have made significant investments in our estate, libraries and IT infrastructure to ensure you have easy access to cutting-edge facilities and resources for your studies. We also offer different methods of study to suit your individual circumstances and to add value to your learning experience.

MODERN LANGUAGE CENTRE
King’s Modern Language Centre (MLC) is the largest in the UK teaching over 9,000 students. As a King’s student you may have the opportunity to take a language module as part of your degree*.

The MLC also provides evening and Saturday courses, which are discounted for King’s students and alumni, we are also accredited by the CPD Certification Service.

* Please check with your department for eligibility.

LIBRARY SERVICES
Located at each campus, Library Services provides a huge multidisciplinary print and electronic information resource that includes over 1.2 million books and e-books plus thousands of journals to enhance your learning.

COMPUTING FACILITIES & IT SERVICES
To help you excel during your studies, we provide a variety of IT facilities across our campuses:

- Laptop loans service (located in King’s libraries).
- College-wide wireless network and broadband access in halls.
- Lecture capture: stream lectures recorded by your tutors.

‘During exams the libraries are open 24/7 so you always have somewhere to revise in peace!’
Mo, Medicine MBBS

£1bn
redevelopment programme for transforming King’s estate and facilities to enhance our teaching

OUR FACULTIES

‘Being part of my faculty really helped me settle in. They offer so many events and opportunities to enhance your time outside of the classroom.’

Mike, Physiotherapy BSc

Find out more about what you can study across all of our subject areas on pages:

22–77

9 faculties, institutes and schools of study
With world-leading academics from across the spectrum of disciplines, our academic faculties bring together experts in their fields. With nine faculties, institutes and schools of study and five Medical Research Council centres, research-enriched teaching is at the heart of our courses.

ARTS & HUMANITIES
Our prestigious Faculty of Arts and Humanities, ranked 6th in Europe (QS World University Rankings 2018), offers undergraduate degrees with global reach - covering culture, arts, history, languages and literature from around the world.

Our location in the heart of London means we enjoy partnerships with many renowned creative and cultural institutions, which helps to enhance the content of our courses. This includes influential establishments like the British Museum, Shakespeare’s Globe, National Gallery, Royal Opera House and Somerset House Studios.

From the traditional to the contemporary – our 13 departments offer interdisciplinary study across a diverse range of subject areas. Whether it’s exploring the ancient world, enhancing your skills in a modern language or discovering our digital future, our exciting courses will provide you with the skills and attributes sought after by today’s employers.

kcl.ac.uk/artshums

DENTISTRY, ORAL & CRANIOFACIAL SCIENCES
Ranked first in Europe and second in the world for dentistry (QS World University Rankings 2018), the Faculty is a centre of excellence for dental education, oral and craniofacial research and oral healthcare provision, and is based in the world-famous Guy’s, King’s College and St Thomas’ hospitals.

Our evidence-based, research-led degree courses provide a high level of clinical experience in ultra-modern spacious facilities. You will learn from internationally renowned expert teachers and practitioners and be exposed to a rich breadth of skills and knowledge in an exceptionally diverse clinical environment.

kcl.ac.uk/dentistry
THE DICKSON POON SCHOOL OF LAW

The Dickson Poon School of Law is one of the oldest law schools in England and is recognised as one of the best law schools in the world. With a dedicated team of legal academics and professionals with diverse backgrounds, and many international partnerships, King’s brings a global perspective to law.

Located in the heart of legal London and surrounded by major law firms, the Royal Courts of Justice and the Inns of Court. The school offers a suite of innovative courses and exciting opportunities to establish links with peers and researchers, building a wider network of professional colleagues.

kcl.ac.uk/law

FLORENCE NIGHTINGALE FACULTY OF NURSING, MIDWIFERY & PALLIATIVE CARE

2nd in the UK and 5th in the world for Nursing QS World University Rankings 2018

The Florence Nightingale Faculty of Nursing, Midwifery & Palliative Care is an internationally renowned centre for the delivery of world-class education, training and research, collaborating with many of the UK’s leading NHS trusts based across London. We teach our students to become the nurses and midwives of tomorrow, caring for people in the most effective way possible and developing skills to tackle the big questions that impact on the health and wellbeing of individuals, families and populations, whilst preparing them for success anywhere in the world.

kcl.ac.uk/nursing
kcl.ac.uk/midwifery

INSTITUTE OF PSYCHIATRY, PSYCHOLOGY & NEUROSCIENCE

At the Institute of Psychiatry, Psychology & Neuroscience (IoPPN), making a difference is at the heart of what we do. Our aim is to understand how the mind and brain work in order to improve mental health care in the UK and across the world.

Studying at the IoPPN means learning from world-leading academics at the forefront of groundbreaking research, and studying in brand new, state-of-the-art facilities in the very heart of London. The IoPPN is one of the world’s leading centres for neuroscience, and has more highly cited research papers in psychology and psychiatry than any other university in the world (Scopus).

kcl.ac.uk/ioppn
**KING’S BUSINESS SCHOOL**

King’s Business School continues to shape an innovative model of business education, developing leaders equipped to tackle the business and societal challenges of the future.

Located in the iconic Bush House building, the school is a hub for engagement with business, the city, government and NGOs. With London’s Square Mile – a global centre for commerce and finance – on their doorstep, students will find networking and employment opportunities plentiful. With students from over 80 countries, the school’s international student population brings diverse ideas and perspectives to an exciting learning environment.

---

**LIFE SCIENCES & MEDICINE**

17th in the world for Life Sciences & Medicine

*QS World University Rankings 2018*

The Faculty of Life Sciences & Medicine is one of the largest and most successful centres for research and education in the UK.

We provide a comprehensive education and training portfolio including health professions and biomedical science programmes. Through partnerships with major London teaching hospitals and links to industry and medical research organisations, we translate cutting edge research into excellent patient care, bringing lasting improvements to the quality of people’s lives.

[View website](kcl.ac.uk/ism)

---

**SOCIAL SCIENCE & PUBLIC POLICY**

Consistently ranked top 5 in the UK for social sciences (Times Higher Education World University Rankings 2014–18) and located at the heart of one of the world’s true global cities, our interdisciplinary approach provides us with a unique view across the past, present and future.

World societies and economies are transforming. It’s our job to understand that change, and to make a positive contribution to human welfare, new security challenges, social cohesion, sustainability and climate change. As one of the largest UK university social science faculties, we are committed to advancing research and education to help tackle some of the most important social, political and ethical issues of our time.

[View website](kcl.ac.uk/sspp)

---

**NATURAL & MATHEMATICAL SCIENCES**

The Faculty of Natural & Mathematical Sciences has a tradition of excellence, which includes world-leading research, six Nobel Laureates among our distinguished former staff and students, and a commitment to promoting the careers of women in science. The Faculty offers undergraduate courses in biomedical engineering, chemistry, computer science, electronic engineering, mathematics and physics. Our student societies offer a fantastic way to meet new people and broaden your knowledge and skills. By tackling global challenges and answering fundamental questions about our universe, we aim to develop and inspire you as the next generation of scientists and future leaders.

[View website](kcl.ac.uk/nms)
At King’s, we have a range of academic preparation courses to help you get ready for your undergraduate degree. Our courses are developed and delivered by experts within King’s faculties and the King’s English Language Centre.

**KING’S INTERNATIONAL FOUNDATION**

Our nine full time pathways offer specialist academic preparation courses designed for ambitious international and EU students who want to study an undergraduate degree at King’s or other UK universities.

There are two entry points:

- **August (Extended King’s International Foundation)** – for students who require extra support with academic English prior to starting a Foundation course.
- **September (King’s International Foundation)** – for students who are ready to start their chosen Foundation course.

**PROGRESSION TO KING’S**

Our students progress onto a range of King’s undergraduate degrees including:

- Accounting & Finance BSc
- Business Management BSc
- Global Health & Social Medicine BA/BSc
- Digital Culture BA
- International Relations BA
- Political Economy BA/BSc
- Law LLB

Biomedical and life sciences operate at the frontier of human knowledge, pioneering new technologies or new applications to understand, model, treat or prevent conditions that limit or inhibit life.

Studying biomedical and life sciences at King’s will put you at the heart of one of the leading centres of bioscience in the UK and give you the flexibility to explore your interests as they develop.

COMMON YEAR ONE (CYO)
Most of our biomedical courses share a common first year († see course information) which means you will be able to enjoy the flexibility to choose your degree after your first year, with our Common Year One curriculum. All Biomedical Science disciplines are covered in the first year, making the decision for your future an informed one.

BIOMEDICAL & LIFE SCIENCES
CAREERS

Healthcare
Pharmaceuticals
Medicine
Bioscience
Management consulting
Finances
Academic research
Public health

‘The reason Biomedical Sciences BSc is so popular is because it’s so flexible.’
Dr Alison Snape
bit.ly/kcl-biomedical-sciences-video

To be taught by lecturers involved in world-leading research is a huge benefit of studying at King’s. The broad range of topics has allowed me to choose which area I am truly passionate about.’

Sara, Biomedical Science BSc
‘Lecture topics are combined with practical sessions, which enable you to understand the human body and its functions far better than any textbook.’

Mathilde, Sport & Exercise Medical Sciences BSc
CHEMISTRY

‘I see chemistry as the perfect balance between all scientific disciplines, and that is highly evident at King’s. In the Chemistry Department we are taught by academics who are experts in their respective fields, conducting world-leading research, in state-of-the-art facilities.’

Samer, Chemistry BSc

Chemistry is known as the central science, because it lies at the interface of the physical and life sciences, connecting both, and is important to a variety of different fields. Studying chemistry you will understand the laws that govern the behaviour of atoms and molecules, their interactions and reactions, and in turn, the world around us.

Our courses will provide you with a comprehensive theoretical and practical understanding of chemistry, and prepare you for a professional life in the ever-changing environment of the 21st century. To achieve these goals, our courses integrate the teaching of chemistry foundations with the application of chemistry principles and techniques using examples taken from the very broad range of chemical and biomedical research and practice at King’s. Our ambition is to produce graduates who have a wider vision of the applications of chemistry for the coming decades, and who are equipped for more flexible careers.

CHEMISTRY CAREERS

Drug development
Bio and nanotechnology
Research
Financial management
Medicine
Law
Technology
Our chemistry with biomedicine degrees are the first of their kind in the UK

REF 2014

Our students undertake 400+ hours of lab work each year.

‘The teaching staff have developed an individual understanding of each student and have taken a genuine interest in his or her development.’

Jonathan, Chemistry BSc, Alumnus

From advanced robotics to internet-based technologies, computer science is transforming the way we live, and the shortage of appropriately qualified talent means that there has never been a better or more important time to further your skills.

Demand for talented graduates with advanced computing skills extends to almost every sector of business and government, from faster trading systems and settlement processes in finance to security systems, mobile communications and environmental science.

Our expertise covers computer science and artificial intelligence, as well as telecommunications and robotics, and their application to bioinformatics, healthcare, security and engineering. This enables us to deliver a curriculum that gives our graduates the ability to work on the computer systems of today, and to create those of tomorrow.

COMPUTER SCIENCE CAREERS

King’s is home to the only academic department in the world to focus solely on the complexities of conflict and security. The Department of War Studies is world-recognised as a centre of excellence in the study of all aspects of war, conflict and international relations with a focus on war as a human phenomenon.

Combining international relations, security, history, military studies, psychology, philosophy and sociology, our courses offer a detailed and textured understanding of world affairs and the issues that lie behind news headlines – now and in the past.

Our academics are experts and pioneers in their fields and are at the forefront of world events as they happen. As a part of King’s community, they are within the largest grouping of scholars in Europe that researches and teaches on world conflict, peace and security.

**CONFLICT & SECURITY CAREERS**

- Cyber security capability lead
- Foreign policy fellow
- Fragility and crisis management policy officer
- Head of tactical analysis unit
- Open-source intelligence analyst
- Research advisor
- Threat analyst

‘With the wide range of module choices and support from a dedicated academic team, war studies continues to broaden my perspective in considering the dynamics of war and has greatly expanded my academic interests and understanding of conflict.’

Dasol, War Studies BA

Find out what it’s like to study war studies and international relations at King’s:

Established relationships with major London institutions including Chatham House, IISS, RUSI, Janes Defence, Visiongain and AKE

‘Studying international relations at King’s has improved my understanding of the political world and prepared me for a career within the field.’

DENTISTRY

‘We are taught by world renowned academics whilst practicing in state-of-the-art facilities. The student-staff relationships and our reputation makes King’s the ultimate place to read dentistry.’

Balraj, Dentistry BDS

Dentistry is a demanding and hugely rewarding field of healthcare. Dentists work to prevent oral disease, promote oral health and restore tooth function. From fillings and crowns to saving teeth after trauma, you’ll experience the intellectual challenge of diagnostics and the technical challenges of surgery.

Our evidence-based, research-led dentistry training provides you with early clinical experience and access to the diverse patient populations of Guy’s, St Thomas’ and King’s College hospitals during your degree.

To equip you for employment, you will gain experience acting as team lead and working alongside other dental care professionals on placements in years four and five, enabling you to develop leadership and business skills.

DENTISTRY CAREERS

- Dentist in NHS/private practice
- Hospital dentist
- Community dentist
- Armed forces dentist
- Postgraduate specialty training
- Academic research

Discover more about dentistry at King’s College London and watch our videos: bit.ly/kcl-dentistry
‘Clinical teaching in small groups allows staff to give personalised advice. Seeing patients is a great privilege – it’s the highlight of my week.’

Lauren, Dentistry BDS
ENGINEERING

‘The lecture content is supported by research assignments and laboratory sessions. The course is providing me with a strong foundation in electronic engineering and expertise in programming.’

Kantapong, Electronic Engineering MEng

Engineering at King’s focuses primarily on the synergies between fundamental engineering principles and leading-edge technologies in computing and telecommunications, robotics and biomedicine, enabling you to develop your expertise in some of the most influential topics of our time.

We offer electronic engineering, biomedical engineering and are introducing a new course in 2020 in general engineering. Our approach to teaching aims to be distinctive, combining both traditional teaching methods with modern, project-based learning, catering for the needs to our students and the industries in which they will work. Our ambition is to provide cohorts of graduates equipped to deal with real world challenges.

Our Biomedical Engineering Department is based in a UK Centre of Excellence for Medical Imaging in St Thomas’s Hospital.

Our courses benefit from close links with other disciplines.

GEOGRAPHY & THE ENVIRONMENT

‘I can’t imagine a better place to study geography than King’s, as it uses London as its classroom. We’re given opportunities to learn and explore the world and we’re taught by the very best in the field.’

Georgia, Geography BA

Studying geography at King’s enables you to examine some of the key issues facing the world today, including climate change, environmental degradation, global inequality, sustainability, and urban regeneration.

At undergraduate level, our geography degrees provide you with specialist knowledge and skills within a broad interdisciplinary education. Development, environment and society, Geocomputation and spatial analysis, urban and cultural or physical geography are thematic areas that you can concentrate on or combine.

In your first year you will have a field trip to Spain, followed by a choice of week-long international trips in your second year to destinations including China, India, Morocco and the USA.

Above: Image taken by geography student, Catherine, on her second year field trip to Kerala, India.

The study of history or classics is your opportunity to explore how the past has impacted our present. Our wide range of options ensures that you can shape your study around your interests. Whatever your passion – King’s has experts who share your enthusiasm.

Our history and classics degrees have unrivalled global reach – from the ancient Mediterranean or Middle East to Britain under Margaret Thatcher or contemporary China, or Iran.

We offer innovative teaching – which can involve hands-on classes in museums, fields trips guided by special podcasts or first-hand encounters with historical documents in our extensive on-site archives.

Our degrees provide the perfect springboard for many careers, including in social and political change, government, NGOs, journalism or law.

INTERNATIONAL AFFAIRS & DEVELOPMENT

‘The multidisciplinary nature of international development helps me to understand why today’s developing nations will one day become centres of global wealth and infrastructure.’

Rohan, International Development BA

How has globalisation affected different parts of the world? What are the successes and development challenges for emerging economies? How are health and social problems in one country tackled in another?

International affairs and development combines elements of economics, geography, health, history, philosophy, politics and social science to explore the relationships between different countries and regions and the way their evolving stories shape international relations.

Our international development course offers a distinctive approach to the study of development by focusing specifically on the middle-income countries (emerging economies) driving changes in the global economy. Our geography and global health and social medicine courses tackle some of the major issues confronting society today.

Studying one of our ancient or modern languages and literature degrees will enhance your skills in communication and analysis, and boost your employability in our globalised world.

Our modern languages courses are designed to equip you with the skills to understand how societies are structured and governed, and to become culturally aware citizens.

On our English Language & Linguistics BA, you’ll explore language across society, media, arts, mind, and education, and discover how language shapes our lives.

If you love literature, our comparative literature courses explore writing spanning over 2,500 years, across six continents and 12 languages – all taught in English translation.

Our English BA spans literature, drama and creative writing. We combine historical perspectives and contemporary theory, and explore connections with other art forms including through collaborative modules taught with our cultural partners.

‘My degree allows me to look into world literature – from French poetry to Palestinian theatre – and discuss works in terms of their context.’

* *See page 81 for other qualifications. ** See page 90 for English language requirements. *** 4 years with a modern languages pathway.

‘Studying modern languages has really broadened my cultural knowledge thanks to the breadth of modules on offer as well as the enthusiastic teaching.’

Tamina, French & Spanish BA
‘My experience at King’s was defined by its strong, diverse community. The Dickson Poon School of Law boasts a truly international student body, bringing together knowledge, culture and perspectives from around the world.’

Max, LLB, Alumnus

Law at King’s encompasses a broad range of options covering the earliest stages of legal qualification, advanced specialisms and joint honours degrees, many of which are delivered in collaboration with The Dickson Poon School of Law’s top-ranked international partners.

By studying at The Dickson Poon School of Law you will benefit from world-class teaching, strong global partnerships, and countless opportunities to boost your professional skills.

Our academic staff are globally recognised as leaders in their fields and King’s legal careers consultants provide support, guidance and internship opportunities during your studies.

‘You have a wealth of opportunities to meet actual lawyers and to attend recruitment events.’
Bryan, PPL student
bit.ly/kcl-law-videos
“King’s was a natural choice for me: in the legal heart of London, offering incredible study-abroad opportunities and boasting a host of renowned law alumni, it’s the perfect place to achieve my career goals!”

Arina, LLB Student

'My experience at King’s Business School has been fantastic so far. The course is challenging, varied and studying in London provides plenty of opportunities to build skills for my future career.'

Isabelle, Business Management BSc

How do organisations function? How do their disparate activities contribute to their success? And what does this mean for the corporate world and the wider economy?

Management, business and finance courses at King’s Business School explore modern business alongside organisational management theory and practice. You’ll discover cutting-edge ideas from finance, accounting, economics, social science, marketing and strategy. You’ll put your new knowledge to use evaluating different economic and political systems.

You’ll study in the heart of London. This global hub for commerce and finance gives you unlimited opportunities for networking – and plenty of career options to explore.

### Details

- Computer Science with a year in industry BSc: 35 points and 666 HL (including one of Mathematics, Further Mathematics or Computer Science 6 HL).
- Economics & Management BSc: 35 points and 766 HL (including Mathematics 6 HL and at least one Humanities or Social Science subject).
- Electronic Engineering with Management BEng: 35 points and 665 HL (including Mathematics or Further Mathematics 6 HL).
- Electronic Engineering with Management MEng: 35 points and 666 HL (including Mathematics or Further Mathematics 6 HL).
- French & Management with a year abroad BA: 35 points and 666 HL (including French 6 HL).
- German & Management with a year abroad BA: 35 points and 666 HL (including German 6 HL unless on Ab Initio pathway).
- International Management BSc: 35 points and 766 HL (including Mathematics 6 HL and at least one Humanities or Social Science subject).
- Mathematics with Management & Finance BSc: 35 points and either 666 HL or 765 HL (including Mathematics 6 HL). Further Mathematics will be accepted at AS Level grade A only if you additionally achieve a 3 in any STEP paper or a Merit in AEA Mathematics.
- Portuguese & Management with a year abroad BA: 35 points and 665 HL (including Portuguese 6 HL unless on Ab Initio pathway).
- Spanish & Management with a year abroad BA: 35 points and 665 HL (including Spanish 6 HL, unless on Ab Initio pathway).

*See page 81 for other qualifications. **See page 90 for English language requirements.

1 Course available with a year abroad (4yrs total BSc, 5yrs total MSci). Please check online for details.

---

‘King’s Business School puts you at the heart of a great global city, preparing you for the business challenges of the future.’

Dr Brian Bell, Senior Lecturer in Economics, Course Director, (Economics & Management BSc)
BUSINESS & FINANCE

Bush House, Strand Campus
MATHEMATICS

‘Studying mathematics at King’s offered me the opportunity to be both academically challenged and enlightened in a subject that I love.’

Gemma, Mathematics BSc, Alumna

Mathematics has always played a central role in science and society and this is especially true in the modern world. Mathematics covers a huge spectrum of fascinating topics and addresses some truly fundamental questions that underlie our existence, the universe and both natural and man-made constructs within it.

Studying mathematics at King’s will put you in one of the leading centres of mathematical teaching and research, working with and learning from some of the foremost mathematical minds in the world.

Our courses offer a wide range of required and optional modules and you can also choose to combine mathematics with various other fields, including management, finance and statistics, or to take a route with links to the humanities and combine mathematics and philosophy.

MATHEMATICS CAREERS

- Statisticians
- Actuaries
- Scientists
- Accountants
‘Overall my decision to pick King’s was due to a number of factors ranging from the academic reputation to the opportunities provided by both the university and its location. As I am arriving closer to the end of my four year journey at King’s, I can definitely say I made the right decision.’

Puja, Mathematics MSci

‘I feel privileged to have been taught by such inspiring teachers. King’s has prepared me to be a compassionate, caring, competent and safe doctor.’

Annabelle, Medicine graduate

Blending biomedical sciences, population sciences and clinical practice, our MBBS programme provides authentic clinical experiences to truly bring medicine to life.

King’s is one of the most highly respected teaching institutions for medicine, benefiting from partnerships with three prestigious London teaching hospitals – Guy’s, King’s College and St Thomas’.

King’s offers a number of different entry routes to medicine, including a fast-track graduate programme and an innovative programme aimed at broadening access to the medical profession.

NURSING & MIDWIFERY

‘As a King’s Nurse, I get to train at world class hospitals rated outstanding by the Care Quality Commission. To care for young patients and to gain experience in the process is a great learning curve and achievement.’

Chloe, Children’s Nursing BSc

With nursing and midwifery at King’s, we can help you find your own career path. You can study adult nursing or pick a different specialism that suits your interests. Help people with mental health issues. Work with children or in the community. Deliver babies. Whatever area you want to explore, we’ll help you learn the skills to succeed.

Our tutors and lecturers are leaders in their fields. Their cutting-edge research feeds into your course to keep you up-to-date with the latest thinking. But studying at King’s is about much more than the teaching staff. From fully-equipped simulation suites to a host of student societies, you’ll have everything you need to make the most of your time here.

Our courses lead to registration, providing a firm foundation for your career as a healthcare professional.

Combining theoretical and practical learning, and based at some of the UK’s leading teaching hospitals, there simply isn’t a better place to begin your career in nursing or midwifery.

PHARMACY & PHARMACOLOGY

‘King’s was my first choice when I applied for university because of its amazing reputation and, secondly, its diversity. Whatever we learn we put into practice – it’s clinical and theory hand in hand.’

Syeda, Pharmacy MPharm

Developing, prescribing and administering drugs lies at the heart of modern healthcare and the prevention and treatment of disease.

Our pharmacy and pharmacology courses provide insight into every step of the drug delivery process – from drug design to understanding the effects of the drug on the body and clinical administration.

All of our courses are delivered within one of the most extensive medical and bioscience teaching communities in the UK, making King’s an ideal place to begin or advance a rewarding career.

Our philosophy and religion courses will challenge and broaden your perspectives on cultures, religions and our place in the world. You can explore how ideas of humanity and obligation can influence the society we live in, and examine the origins and impact of religious radicalism and modern spirituality.

Our philosophy department is one of the largest and most distinguished in the country. Our modules cover all areas of contemporary philosophy and the history of philosophy without any gaps, including Islamic, Indian, and Chinese Philosophy.

We are also home to a vibrant Department of Theology & Religious Studies, with special expertise in Islam, Judaism, Christianity, Buddhism, and a variety of contemporary religious movements. Our teaching makes the most of London’s rich religious culture, incorporating many places of worship and the collections of the British Museum and the National Gallery.

‘My favourite thing about studying philosophy is that everyone has a chance to explore a wide range of topics taught by passionate lecturers at the cutting edge of the field, all whilst meeting like-minded people to learn with.’

SUBJECT AREAS:
PHILOSOPHY & RELIGION
PHYSICS

‘Studying Physics at King’s has allowed me to completely explore and question physical ideas and concepts in a department that is at the forefront of world-class research.’

Sigourney, Physics BSc

King’s has a long history of excellence in physics. This has included Charles Wheatstone, who developed the telegraph, James Clerk Maxwell, who unified the laws of electricity and magnetism, revealing the nature of light, and Rosalind Franklin and Maurice Wilkins, who played a pivotal role in the discovery of DNA. Six Nobel prize winners in physics studied or worked at King’s. All taught courses at King’s are supported and enhanced by internationally leading research. We carry out cutting edge experimental and theoretical research in a broad range of disciplines, including understanding the fundamental composition, origin and mechanics of the universe (with strong links to CERN and LIGO, the gravitational wave observatory), developing new nanomaterials, metamaterials and optical technologies, and continuing the legacy of Franklin and Wilkins in the drive to use physics to understand the structure and processes involved in life.

Vast financial, technological and health inequality means that societies and their leaders have to decide how to navigate the changes and challenges of the 21st century.

Our policy and society courses provide opportunities to explore diverse questions, conduct research and provide the insights that will help to steer governments, policy makers, NGOs and other bodies in determining how to confront some of the major issues affecting society – both in the UK and abroad.

Our new Social Sciences BA and established Global Health & Social Medicine BA and BSc offer unique and exciting training for a new generation of leaders passionate about social justice who want to make a difference in the world.

POLICY & SOCIETY

Growing up I’ve always had an interest in developing nations. Studying global health and social medicine at King’s enables me to explore what I can do to bring change and promote equality.

SOCIAL SCIENCES BA: NEW FOR 2019
Black Lives Matter, #MeToo, climate breakdown, resurgent nationalism, rising inequality, fake news... Questions about how we understand, structure and change society have never been more urgent. The Social Sciences BA is an innovative new programme for students who care about positive social change. It provides a rigorous, interdisciplinary grounding to theories and methodologies from across the social sciences, enabling students to engage with the issues that matter most to them. Our connections in the capital and internationally provide real-world learning opportunities for broader horizons and enhanced employability.

All applicants of our full time Global Health & Social Medicine BA or BSc are eligible for a £9,000 scholarship opportunity

POLITICS & ECONOMICS

‘London is a city unlike any other. It is an incredible place which attracts decorated and experienced politicians and speakers, which really enhances the course and teaching here.’

Peter, European Politics BA

Drawing together a wide range of disciplines, our portfolio of courses in politics and economics offers an enormous range of modules that examine, in depth, the factors that shape regional and global decision making.

You will have the opportunity to explore broad themes and detailed analyses, focusing on issues confronting specific regions, and to select optional modules that reflect your own personal interests and ambitions.

Located in the centre of London, minutes away from both the Houses of Parliament and the Bank of England, we offer students the opportunity to interact with political, governmental and financial institutions across the city.

Psychology and neuroscience provide an opportunity to explain behaviour in all its forms: from understanding the brain to analysing complex social interactions.

The study of the human brain is one of the most exciting areas in modern science. We explore why people behave the way they do and investigate a wide range of mental and psychological health conditions.

Our students benefit from world-leading facilities, unrivalled opportunities for clinical and other placements, and are members of a diverse academic community at the forefront of ground-breaking research.

Christopher, Psychology BSc

“...This subject thrives on applying knowledge to real world applications. Our teaching and facilities are second to none and I am thrilled to be at the forefront of the behavioural sciences here at King’s.”

Therapeutic health professionals play a vital role in delivering healthcare, either by tackling conditions and challenges before they become critical, or by supporting recovery and rehabilitation following medical intervention.

Our nutrition and dietetics and physiotherapy courses, accredited by the relevant professional bodies, will enable you to confidently take your place on the front line of healthcare delivery.

King’s is one of the most highly respected teaching institutions in medicine, benefiting from partnerships with three prestigious and busy teaching hospitals in central and south London – Guy’s, King’s College and St Thomas’ hospitals.

‘King’s has a well organised and integrated approach to the delivery of its dietetics programme, coupled with outstanding facilities, lecturers and campus environments.’

Joshua, Nutrition & Dietetics BSc, Alumnus

‘The quality of the teaching is excellent and I love the variety of the physiotherapy course.’

Frederick, Physiotherapy BSc

ENTRY REQUIREMENTS

With students from 150 different countries coming to King’s, our admissions staff are experienced in supporting home and international applicants and assessing a wide range of qualifications. In this section you will find information and advice about entry requirements, qualifications and how to apply.

USING THIS GUIDE
Please go to pages 22 to 77 to find the range of courses offered at King’s. For each listing, you will find A-level and International Baccalaureate (IB) entry requirements, English language requirements and study opportunities. You will also find the relevant UCAS code. This guide is designed to provide an overview of the courses King’s has on offer; however we would recommend doing further research using our online course pages.

kcl.ac.uk/ug

FINDING QUALIFICATION EQUIVALENCES
If your qualification isn’t shown next to the relevant course listing in this guide, please refer to the reference table on the right, which is intended to provide a general guide to grade equivalences for additional qualifications. There are many more equivalences also listed on the admissions web pages.

kcl.ac.uk/ug-international-erq

COMPULSORY AND PREFERRED SUBJECTS
Some of the courses we offer require you to have studied specific subjects to a certain level before starting your undergraduate studies. These are specified in the course entry requirements as compulsory subjects. Preferred subjects indicate that you may be at an advantage if you are studying the subject(s) and may make a smoother transition into the first year; however, it is not compulsory for admission. Full details of course requirements are available online.

kcl.ac.uk/ug

A-LEVELS
For the majority of our courses we would usually expect to see three subjects taken at A-level (excluding Critical Thinking, General Studies, Global Perspectives and Thinking Skills) in one sitting. Please check the course pages online before you apply.

TAKING EXAMINATIONS EARLY
While King’s encourages students to stretch themselves academically, students who are entered early for their examinations should have the potential to achieve the same grade as might be expected if they were entered in the standard year. Therefore, if you gain an A-level grade B in Year 12, this will not be considered as good as achieving a grade A in Year 13.

GCSE
Some of our courses also require students to have achieved a specific grade at GCSE level (or equivalent). These requirements are detailed online on our course pages. If you’re studying the 9-1 GCSEs in England or A*-C*-G GCSEs in Northern Ireland, please check the website for up-to-date information.

kcl.ac.uk/ug

EXTENDED PROJECT
The Extended Project Qualification (EPQ) has the potential to develop many skills that may prove beneficial when studying at King’s but will not be considered in place of an A-level requirement.

INTERNATIONAL BACCALAUREATE

Our offers ask for an overall points based score out of 45 (which includes the core/bonus points) as well as specifying grades in three Higher Level (HL) subjects and occasionally in Standard Level (SL) subjects.

ACCESS TO HE DIPLOMA

King’s welcomes applicants taking the QAA Access to HE Diploma to the majority of our courses. Please check our online prospectus carefully for the requirements for your chosen course. This is a popular choice for applicants returning to education after a break. To find Access to HE courses in your area visit:

cacetohdip.ac.uk

BTEC LEVEL 3 DIPLOMAS

Some of our courses will consider applicants with the BTEC Level 3 Extended Diploma, or combinations of other BTEC Level 3 diplomas and other qualifications. Please check our online course pages for details for your chosen course, and contact the Admissions Office if you are unsure.

COMBINATION OF QUALIFICATIONS

We understand that some applicants may offer a combination of qualifications taken at the same time; for example, A-levels and Cambridge Pre-U, or A-levels and BTECs at Level 3. Our Admissions Office is happy to advise you on the suitability of your combination.

RE-SITS

The majority of our courses will consider applicants who are re-sitting their exams to achieve higher grades, but we advise checking the course pages online for any guidance or restrictions on re-sits for your chosen course. Please note that we consider taking the same subject again at the same level – even if through a different qualification – to be a re-sit.

EXTENDED/KING’S INTERNATIONAL FOUNDATION

If your high-school leaving qualification is not quite suitable for direct entry to our undergraduate courses, you can take one of King’s International Foundation Programmes – see pages 22 to 23 for more information.

INTERNATIONAL QUALIFICATIONS

We consider a wide range of international qualifications for entry to our courses. Please refer to the qualification equivalences table above and check online for a wider range of information.

kcl.ac.uk/ug-international-erq

Find further information online about entry requirements to each course, visit:

kcl.ac.uk/study

*For more information regarding specific entry requirements, please visit kcl.ac.uk/ug-international-erq
We are delighted that you are considering applying to King’s and are keen to support you during your application. King’s seeks to admit the brightest and the best students with the potential to make the very most of our world-class facilities and academic staff.

This section provides you with more information as to how your application will be considered. Our admissions web pages have detailed step-by-step guidance and FAQs to help you through the application process and there is further information for applicants, parents, carers and teachers on our web pages.

**HOW TO APPLY TO KING’S**

You should apply for an undergraduate degree course at King’s through UCAS. UCAS applicants can apply independently of a school or college, but where possible it can be useful to apply through a school or college. Please see the UCAS website for further information.

[ucas.com](http://ucas.com)

If you are considering applying for study abroad or for one of the King’s International Foundation programmes, please check online for application guidance.

[kcl.ac.uk/ug](http://kcl.ac.uk/ug)

For postgraduate courses (except nursing postgraduate qualifications leading to registration) please visit the web page listed below.

[kcl.ac.uk/pg](http://kcl.ac.uk/pg)

**KING’S ONLINE PORTAL**

We have an online portal called King’s Apply for all students applying to our undergraduate courses. This allows you to:

- track the status of your application
- see if you’ve been invited to interview (where relevant)
- view the details of your offer
- view information specific to international student needs, such as information on visas.

Once you have submitted your application through UCAS we will email your username so you can access King’s Apply to track your application. King’s Apply also has a messaging function: this is how we will communicate with you regarding your application status and to invite you to any on-campus events, so please ensure you use your login regularly to keep up to date.

[apply.kcl.ac.uk](http://apply.kcl.ac.uk)

**DEFERRED ENTRY/GAP YEAR**

If you would like to take a year to gain some experience, earn funds in preparation for your studies or generally broaden your interests, we’re happy to consider your application for deferred entry. We suggest that you apply in the final year of your secondary or further education, indicating in your application that you will be deferring entry and outlining your general plans in your personal statement. You are also welcome to apply to King’s towards the beginning of your gap year after completing your qualifications.

For admissions guidance please visit:

[kcl.ac.uk/ug](http://kcl.ac.uk/ug)

Find further information online about applying to each course, visit:

[kcl.ac.uk/study](http://kcl.ac.uk/study)
ADMISSIONS CRITERIA

Our Admissions Office considers all aspects of your application, including examination grades, predicted grades, your personal statement and the reference. All applicants are required to disclose any relevant unspent criminal convictions in their application. Some of our courses also require additional checks through the Disclosure and Barring Service (DBS) or occupational health checks. Additionally, relevant work or voluntary experience is preferred for some of our courses; please ensure you mention this in your personal statement if relevant. It’s important to check our online prospectus for full entry requirements and specific application guidance for your course before you apply.

CONTEXTUAL DATA

King’s may also consider the educational context of an applicant’s formal achievement, as well as other indicators of potential and capability. Further information regarding our use of contextual data can be found on the website.

INTERVIEW

Many of our healthcare courses, such as Medicine, Dentistry, Nursing and Midwifery, require you to attend an interview as part of the application process. These will be in the multiple mini interview (MMI) format and you will receive further information about what to expect if you are invited to an interview. We may also interview applicants on other courses in order to assess qualities that can’t be seen from your application alone, or perhaps when a student is presenting non-traditional qualifications.

If you are invited to an interview, you will be given details of what to expect and the format of the interview when invited.

kcl.ac.uk/study

APITUDE TESTS

The majority of the courses listed below have compulsory aptitude tests that we require as part of our selection process. Please check this information carefully before you apply and make sure that you take the test before the required deadline.

<table>
<thead>

</tbody>
</table>

‘There’s no need to list everything you’ve done in your personal statement. The best applications focus and reflect on interests, qualities and activities that are most relevant to the course you’re applying to.’

Vicky, Senior Higher Education Liaison Officer

kcl.ac.uk/ug
At King’s we’re committed to admitting the best and brightest minds regardless of background. We want to ensure that the student body at King’s College London reflects the diversity represented in wider society.

**WIDENING PARTICIPATION**

Students from under-represented backgrounds are supported to gain access to higher education through our free widening participation schemes. We run a variety of schemes including our two-year programme K+ and Sutton Trust Summer Schools. You can read more about the work of the Widening Participation Department online.

kcl.ac.uk/wp

**MATURE APPLICANTS**

Applicants with relevant work/life experience must also apply through UCAS. Your application will be considered on its own merits, and relevant experience may be considered alongside or in place of formal qualifications where suitable. Please note that many courses do require previous study and demonstrable high attainment in certain subject areas. We recommend that you contact the Admissions Office before applying, with details of your academic background and appropriate experience.

If you are a mature student looking to take further qualifications with a view to applying in the future, you may want to consider Access to HE diplomas (where suitable); alternatively, you can seek advice from the Admissions Office, or see the website.

kcl.ac.uk/study/widening-participation/mature-students

**DISABLED STUDENTS**

If you have a disability, long-term medical or mental health condition and/or a specific learning difficulty such as dyslexia, we encourage you to disclose this in your UCAS application. We can then provide you with additional information and support. If your course requires an interview, the information that you provide can help us to ensure that we make suitable arrangements.

kcl.ac.uk/disability

**CARE LEAVERS**

We strongly advise all care experienced applicants to disclose this on their UCAS application form. This will allow admissions staff to take your circumstances into consideration and will not have a negative impact on your application. King’s College London has a significant system of support for care-experienced students, including bursaries and accommodation. We understand the difficulties students from a care background face and provide financial, academic and personal support to ensure these students achieve and succeed.

kcl.ac.uk/care-experienced

—I told King’s that I was in care and they helped me with my application and moving to university. They seem to really care and understand and have made sure I am supported throughout my studies.’

Jack, care-leaver student now studying at King’s
ESTRANGED/INDEPENDENT STUDENTS
If you are under 25 and studying without the support of your family, and are not in contact with them, you may qualify for the same support package as care-experienced students. We strongly encourage you to let us know so we can support you with your application and transition to King’s College London.

kcl.ac.uk/estranged

FORCED MIGRANTS
Currently, we offer eight Sanctuary Scholarships per year for students who cannot access student finance as a consequence of their immigration status. These scholarships cover the costs of tuition fees as well as providing a grant equal to the maximum student loan each year. Whilst we expect this scheme to continue annually, please check the website for up-to-date information before you apply.

kcl.ac.uk/forced-migrants

For further information please contact the Widening Participation Department:
kcl.ac.uk/wp
@KCLWP
FEES & FUNDING
HOME/EU

On the following pages you will find information on fees and funding options for students who are eligible for home/EU fee status. Our range of financial support is designed to help you achieve your potential, whatever your financial circumstances.

‘When you apply, search for scholarships and bursaries on the website. These can help fund your tuition fees and your time at uni. You’ll be surprised how many there are.’
Freddie, Higher Education Liaison Officer

TUITION FEES
Tuition fees may increase annually to take into account changes to the form and content of the course and the cost of inflation. Please check our fees and funding web pages for the most up-to-date tuition fees for all courses.

kcl.ac.uk/study/undergraduate/fees-and-funding/tuition-fees

IMPORTANT INFORMATION FOR STUDENTS FROM THE EUROPEAN UNION
In July 2018 the UK government confirmed that EU students starting their studies in English universities in 2019 will pay the same fees as UK students. Funding arrangements after 2019 have not yet been confirmed, but King’s is fully committed to being an international university and EU students are vital to our community.

bit.ly/the-post-brexit-fees-pledge
bit.ly/slc-student-finance

EXPECTED LIVING COSTS IN LONDON
We would recommend budgeting for living costs in London to be between £1,000 and £1,200 per month, excluding your tuition fees. The website www.gov.uk recommends students have £1,265 a month to cover living expenses. These figures are only intended as a guide and how much you need will depend upon your lifestyle.

Please also allow for annual inflationary increases as part of your budget planning and remember to consider your initial arrival costs. These could include accommodation deposits, household items, clothing, etc. For more information, please visit:

gov.uk
kcl.ac.uk/advice

ADDITIONAL COSTS
In addition to your course fees you may incur other costs, for example for field trips, equipment, materials, bench fees or studio hire. This will vary by course and so we provide information about these costs on the relevant course pages on our website. Please make sure you check these course pages before you apply.

kcl.ac.uk/ug

You only start to repay your student loan after you have left university and earn over £25K
FUNDING

STUDENT LOANS
Currently, for all home and EU students, all first-degree tuition can be paid for by a tuition fee loan. In addition, most home undergraduate, first degree students will be eligible for a maintenance loan to subsidise living expenses. Please note:

• Repayments are nine per cent of income above £25,000 and come out of your salary pre-tax.
• Your student loan does not affect your credit rating and all outstanding balances will be written off after 30 years.

For up-to-date information on eligibility and entitlement, please visit the Student Finance zone within the Student Room website.

bit.ly/student-finance-zone

IMPORTANT INFORMATION FOR STUDENTS FROM THE EUROPEAN UNION
In July 2018, the UK government announced that EU students applying to start courses in the 2019/20 academic year will remain eligible for undergraduate financial support from Student Finance England for the duration of their course, providing they meet the existing residency requirements.

slc.co.uk

NHS FUNDING
Currently, NHS funding is offered for the fifth year of study onwards of five and six-year dentistry and medicine courses, and also for the second year of study onwards for graduate-entry courses. Subject to government review, this may change for new entrants in 2019–20. For more information and up-to-date figures, please visit the NHS website or visit our fees and funding web pages.

nhsbsa.nhs.uk/nhs-bursary-students
kcl.ac.uk/funding

SCHOLARSHIPS AND BURSARIES
King’s offers a number of scholarships and bursaries designed to help you achieve your potential, whatever your financial situation. Search our scholarship and bursaries database online to find funding opportunities available to you for your chosen subject area:

kcl.ac.uk/ug-scholarships

FURTHER HELP
King’s Student Funding Office provide information and guidance on how to apply for UK funding, as well as bursaries, scholarships and other financial help. If you have concerns about your eligibility for funding or need help proving your personal circumstances, the Money Advisors in Student Support & Wellbeing can assist you:

kcl.ac.uk/studentservices

For further information, please contact the student funding office:
kcl.ac.uk/funding
funding@kcl.ac.uk
+44 (0)20 7848 4204

Find out more about how to apply for student finance:
gov.uk/student-finance
FEES & FUNDING
OVERSEAS

We understand that coming to the UK as an overseas student is a big financial commitment and, before you start your degree at King’s, we want to ensure you have fully considered your finances.

HOW MUCH DOES IT COST?
Tuition fees rise annually to take into account changes to the form and content of the course and the cost of inflation. Please check our fees and funding web pages for the most up-to-date information for all courses.

kcl.ac.uk/ug/tuition-fees

TIER 4 VISA RULES
To apply for a Tier 4 student visa, international students must demonstrate they hold cash funds to cover both living costs and tuition fees.

MAINTENANCE FUND REQUIREMENT
Living costs to meet Tier 4 visa requirements are £1,265 per month of study up to a maximum of nine months, this amount is in addition to any tuition fees remaining for the first academic year. These figures are set by the government and are subject to change. Please check the UKVI website to confirm the requirements for your course before you apply.

For more information, please visit www.gov.uk and search for ‘Tier 4 visa rules’ or visit our web pages.

kcl.ac.uk/tier4

LIVING COSTS
As a minimum you should have access to the amount of living costs required for your visa. Living costs in London will vary depending on your personal circumstances and lifestyle. The Advice & Guidance Team can provide further information and guidance.

kcl.ac.uk/moneydoctors

To help with the living expenses, King’s students are eligible to apply for an NUS card, which offers discounts in a number of retailers and restaurants, as well as on public transport and leisure activities.

nus.org.uk

‘London is not too expensive for a student. Many restaurants, shops and events have student discounts, and King’s even offer financial advice to help you budget your money. There are also possibilities for earning money on the side with a part-time job, which I for example have as a student ambassador for King’s.’
Andrea, International Relations BA, Norway
ADDITIONAL COSTS
In addition to your course fees and living costs you may incur other costs, such as for field trips, equipment, materials, bench fees or studio hire. This will vary by course and so we provide information about these costs on the relevant course pages on our website. Please make sure you check these course pages before you apply.

kcl.ac.uk/ug

INTERNATIONAL STUDENT DEPOSIT
Once you have received an offer of a place at King's, you will be asked to pay a non-refundable deposit to secure it. This will be a part payment towards your first-year tuition fees. Further information is available on our website.

kcl.ac.uk/undergraduate/apply

STUDENT FUNDING OFFICE
King’s Student Funding Office provide information and guidance on tuition fees, bursaries, scholarships and other financial assistance at King’s. Please contact our staff if you need any help or guidance.

kcl.ac.uk/funding
kcl.ac.uk/study/undergraduate/fees-and-funding/contact-us.aspx

FINANCIAL SUPPORT
SCHOLARSHIPS AND BURSARIES
King’s offers a number of scholarships and bursaries for overseas students. Search our web pages to find funding opportunities available to you:

kcl.ac.uk/ug-scholarships

LOANS FOR US STUDENTS
US Federal Student Aid will be available for most US students. We would recommend checking our United States Student Loans pages for guidance about how to fund your studies using Federal Student Aid.

kcl.ac.uk/ug-us-loans

INTERNATIONAL HARDSHIP FUND
The university has set aside funds to assist international students experiencing unforeseen financial difficulty. Applicants may be eligible to receive assistance with living and tuition fee costs if successful. For further information, visit the student funding web pages.

kcl.ac.uk/funding

£1,265
is the minimum amount for monthly living costs outside of tuition that we advise all EU and overseas students to budget for
In accordance with Tier 4 visa regulations.
INTERNATIONAL STUDENTS

King’s welcomes more than 11,000 international students each year from over 150 countries across the globe. Our dedicated web pages for international students explain everything you need to know about applying and studying at King’s, and living in London.

VISIT OUR INTERNATIONAL WEB PAGES FOR DETAILS ABOUT:
- dates when King’s may be visiting your country
- advice on visa and immigration matters, working in the UK and other key issues
- accommodation
- international careers fairs and employment
- academic preparation courses
- fees, funding and international scholarships.

ENGLISH LANGUAGE REQUIREMENTS

To succeed on our courses successfully and fulfil student visa requirements (where applicable) you must have a good command of English and be able to apply this effectively in an academic environment. International students are usually required to provide certified proof of competence in all four English language skills (speaking, listening, writing and reading) before starting their studies. If we decide to make you an offer to study, one of the conditions of this offer will be to meet our English language requirements by a specific deadline.

Check the table below for English language requirements for each band. The band required for each course is labelled as ‘ELR’ in the course tables on pages 22 to 75.

* Requirements for Extended/King’s International Foundation are subject to change. Please check the website for up-to-date details before you apply.
The English language requirements for each course are listed on the course tables on pages 25 to 75.

If you don’t meet the English language requirements for direct entry, you may be eligible for a Pre-sessional course. Please check page 22–23.

UK STUDENT VISA
If you require a UK student visa and are applying to one of our academic preparation courses please note that we can only accept UKVI-approved IELTS tests. Visit our website for more information:
kcl.ac.uk/ug-english-req

INTERNATIONAL STUDENTS’ WELCOME AND ORIENTATION
When you first arrive in the UK you may be unfamiliar with aspects of life and study in the country. The aim of our orientation programme is to provide you with this information, as well as the opportunity to meet other new international students. More information will be made available online in July.
kcl.ac.uk/international-support

Please check online for the latest information before applying to any of our courses:
kcl.ac.uk/ug

The English language requirements for each course are listed on the course tables on pages 25 to 75.

Visit these links for further support:

@KingsGlobal

‘Making the decision to study at King’s has been life changing in all the best ways. I’m in an amazing city full of exciting opportunities, activities, and diverse people, studying with some of the best professors in the world, and feeling a part of an extremely vibrant, talented, and welcoming university community. I couldn’t ask for much more!’
Elana, English Literature BA, USA
While studying at King’s you will have the choice of living in King’s Residences (which includes those managed by Unite and Fresh), University of London Intercollegiate Halls, or their University Home scheme. You can also choose to live at home or in the private rented sector.

We guarantee accommodation for all first-year undergraduates as long as you meet our application criteria by the application deadline, which is published on our website annually. You will be eligible to apply for accommodation once you have been offered a place on an undergraduate course at King’s and you have firmly accepted your academic offer. Accommodation is also allocated to study abroad applicants who submit their application and meet the relevant criteria. For more details on our accommodation and the application and allocation processes, please visit our accommodation web pages.

ACCOMMODATION OPTIONS

The majority of our accommodation options are in central London, close to King’s teaching campuses, and are within London travel zones 1 and 2. Details on our accommodation options are available online, where you will also find images and information on each residence’s facilities, fees and how to book a viewing.

KING’S RESIDENCES

All of our residences are non-smoking and have a dedicated residence team that includes day and night reception and live-in residence associates and wardens. All utilities, including Wi-Fi, are included in the weekly rent and you can use laundry facilities at an additional cost.

UNIVERSITY OF LONDON INTERCOLLEGIATE HALLS

There are a number of rooms available for King’s students within the University of London Intercollegiate Halls, which provide an opportunity to meet and live with students from other London institutions. These halls are owned and managed by the University of London.

PRIVATE RENTED SECTOR

London offers an enormous and varied range of private properties to rent. King’s has a dedicated student housing advisor for accommodation, budgeting and tenancies, and you can also use the University of London Housing Services (ULHS), which specialises in helping students find private accommodation. Lists of vacant properties are available online, as well as on the ULHS flat share noticeboard.

PRIVATE STUDENT ACCOMMODATION

Private student accommodation halls are managed by accommodation providers with facilities similar to those offered at King’s. You can obtain more information directly or seek advice from our Student Advice Service (see details on the right).

SPECIFIC HOUSING REQUIREMENTS

If you have specific housing requirements, please contact our residences team as early as possible to discuss these needs. You will be asked to complete a medical self-assessment/personal statement form in liaison with your GP/specialist or relevant support.

Terms and conditions 2019–20: 1. Please visit our website for up-to-date information on fees for all of our residences before you submit your accommodation application: www.kcl.ac.uk/accomm 2. A number of rooms at Stamford Street are discounted as they may be smaller/have an obstructed view from the window.

‘My residence had all the essentials I needed; free WIFI, an on-site laundry room and communal areas to hang out with friends – I loved living here.’
Katie, Psychology BSc
STUDENT SUPPORT & WELLBEING

At King’s, we provide support, advice and guidance to all prospective and current students. This includes a range of services providing advocacy, counselling, pastoral support, health promotion and treatment, as well as proactive services which enable students to perform to their best ability.

STUDENT SERVICES
Student Services are here to help you make the very most out of your experience at King’s and in London, supporting your journey from welcome week to graduation and beyond. We can assist with any query, putting you in contact with the most appropriate team. All services are free and confidential. We provide information on, and access to:

STUDENT ADVICE SERVICE
The Student Advice Service provides advice and advocacy on money, immigration and housing issues via phone, email and in person, to current students and applicants. The team’s expertise includes:

- student visa applications
- Tier 4 rights and requirements
- housing rights and looking for somewhere to live
- money management and income maximisation
- student finance eligibility for forced migrants, estranged and care experienced students
- student parents’ funding and childcare information.

COUNSELLING SERVICE
The Student Counselling Service provides a free, confidential service, offering support to students across all four campuses. Our experienced team runs drop-in sessions, appointments and a variety of groups and workshops.

DISABILITY SUPPORT
King’s Disability Support provides information, advice and guidance to disabled students and applicants; this includes people with a disability, long-term medical or mental health conditions or specific learning difficulty such as dyslexia. Wherever possible, our aim is to put support in place before you begin your course, so please get in touch with Student Services at your earliest convenience.

HEALTH CENTRE
King’s has a comprehensive NHS student health centre at the Strand Campus. It is strongly recommended that all students register with an NHS GP on arrival in London. Our dedicated team is here to treat minor ailments as well as providing specialist management of long-term conditions, issuing repeat prescriptions and clinics covering a wide range of healthcare issues.

WELLBEING
King’s Wellbeing aims to empower and equip students to invest in and use their wellbeing as a tool for growth, learning and achievement. We offer:

- one-to-one confidential coaching to help students set goals and create action plans to foster positive change
- workshops to help students explore wellbeing topics through interactive sessions and discussions
- campaigns and events to encourage students to be intentional about looking after themselves.

‘Considering the unusual nature of my requirements, everything was made to appear simple by speaking with the Student Advice Service. It’s comforting to know there is someone willing to help and listen.’
King’s student
ADDITIONAL SUPPORT

ENGLISH SUPPORT AND STUDY SKILLS

King’s English Language Centre offers support to native English speakers or those with near-native proficiency who want more academic skills training, such as in using sources effectively, presentation skills and writing critically.

kcl.ac.uk/elc

CHAPLAINCY

The Dean’s Office and Chaplaincy are part of the pastoral provision and are available to students of all beliefs and backgrounds. King’s has chapels and quiet rooms that are open to everyone for private prayer and reflection. Male and female Muslim prayer rooms are available on all campuses. A full-time Anglican Chaplain heads the Chaplaincy, which also includes Roman Catholic, Orthodox and Free Church Chaplains, and two part-time Muslim Chaplains. The Rabbi to Jewish students in London works as an associate of the Chaplaincy.

kcl.ac.uk/chaplaincy

KCLSU ADVICE

KCLSU Advice is independent from the university and therefore offers impartial, confidential advice relating to your rights and responsibilities as a student.

kclsu.org/advice

EXPERIENCE KING’S FOR YOURSELF

This guide should help to answer some of your questions about what King’s has to offer, but we know that this is only the start of the research you will want to do. King’s offers a number of other ways that you can find out more.

COME TO AN OPEN DAY
Get an insight into what it’s like to study at King’s at an open day. Meet current and other prospective students, school liaison officers, and attend a variety of sample lectures and tours.

STRAND CAMPUS: ARTS AND SCIENCES SUBJECTS
- Saturday 22 June 2019
- Saturday 7 September 2019

GUY’S CAMPUS: HEALTH SCIENCE SUBJECTS
- Saturday 8 June 2019
- Saturday 6 July 2019

For more details and to register, visit:
kcl.ac.uk/openday

GO ON A CAMPUS TOUR
If you can’t attend an open day, King’s also organises campus tours every week. For further information, and to book onto a tour, visit:
kcl.ac.uk/campuslife/visit/tours

For detailed, up-to-date course information:
kcl.ac.uk/ug

Discover when King’s is visiting your country, get advice on visas and country-specific information:
kcl.ac.uk/international

CHAT ONLINE WITH OUR STUDENTS
We understand that it can sometimes be difficult to travel to London to visit our campuses for fairs, open days and events. As an alternative, you can chat to some of our students online via Unibuddy or attend one of our online events. Register for Unibuddy online via our website to message current King’s students who will respond to your query within 24 hours – or sooner if they are online. We also host online events where you can chat to King’s staff and students via the Unibuddy platform. Find out more:
kcl.ac.uk/unibuddy
kcl.ac.uk/online-events

REGISTER
Sign up to Unibuddy online via our webpages to chat to King’s students. You’ll be sent login details so you can chat straight away.
kcl.ac.uk/unibuddy

CHAT
You can see if our students are online however if not, just send a message and they will get back to you within 24 hours. You’ll receive a notification once they reply and you can even get updates through WhatsApp.

Discover what life at King’s is really like, from our students point of view:

IMPORTANT INFORMATION

DIVERSITY AND INCLUSION

KEY PRINCIPLES

King’s College London is a thriving and diverse community of over 31,000 students, completing a wide variety of courses from study abroad, through undergraduate and postgraduate degrees and including executive education courses.

The university is committed to the recruitment of students based solely on academic ability and potential, irrespective of social, cultural or economic background. All applications are considered on their individual merits and treated in a fair and equal way, utilising a holistic approach, based on all information provided to the university through the application process.

King’s College London is committed to embedding diversity and inclusion into all of its activities to ensure that the university becomes a richer and more diverse place to work and study. The Diversity and Inclusion Team promote best practice in diversity and inclusion, to enable all staff and students to achieve excellence. The team does this through developing initiatives to support staff and students from particular groups to succeed; the provision of training; reviewing and developing policies and practices that promote equality of opportunity and undertaking steps to ensure the university is compliant with the Equality Act 2010. Please contact us for more information about diversity and inclusion at King’s.

diversity@kcl.ac.uk

CHANGES TO COURSES AND GUIDE INFORMATION

The following message contains some very important information. Please read it before you use this guide. This guide was printed in the spring of 2019. It contains information on the courses that King’s College London (‘King’s’) intends to run for students who are planning to start university in the autumn of 2020. King’s has made every effort to ensure that the information provided is both helpful and accurate as at the date of publication. However, some changes, for example to courses, facilities or fees may become necessary due to legitimate staffing, financial, regulatory and academic reasons.

King’s will endeavour at all times to keep any changes to a minimum and to keep students informed appropriately.

For this reason, it is particularly important that you should check the website for updates or contact King’s using the contact details contained within this document.

kcl.ac.uk/study

NO LIABILITY TO PARENTS, SPONSORS OR OTHER THIRD PARTIES

King’s dealings and contracts with students and prospective students do not create a contract or other legally binding relationship between King’s and anyone else, for example parents, guardians or sponsors.

DEGREE AWARDING POWERS

In July 2006 the Privy Council granted King’s degree-awarding powers in its own right. King’s exercises these powers whilst remaining a constituent College of the University of London. Therefore, all students who start a course in 2020 will study for a King’s College London degree. Your degree certificate will record that your degree is awarded by King’s and that King’s is a member of the University of London. The enactment of this change in awarding authority does not affect the degree course curricula, the teachers or the methods of teaching, the modes of assessment, or the high quality of the academic and associated support provision.

UNDERGRADUATE QUALIFICATIONS AT KING’S

• BA: Bachelor of Arts
• BDS: Bachelor of Dental Surgery
• BEng: Bachelor of Engineering
• BMus: Bachelor of Music
• BSc and MSci: Bachelor of Science and Integrated Master of Science
• FdA: Foundation Degree
• LLB: Bachelor of Laws
• MBBS: Bachelor of Medicine and Bachelor of Surgery
• MEng: Master of Engineering
• MPharm: Master of Pharmacy
• DipHE: Diploma of Higher Education.

TERM DATES

The provisional dates are (please check the website for any changes):

28 September to 11 December 2020
15 January to 1 April 2021
4 May to 4 June 2021

REGISTRATION FOR FIRST YEAR STUDENTS

21 to 25 September 2020
King’s is ranked one of the top 10 universities in the UK* and based in the heart of London. With nine faculties, institutes and schools of study and five Medical Research Council centres, King’s offers world-class teaching and research.

Our extensive range of subjects include the arts, business, humanities, law, the sciences (including a wide range of health areas such as psychology, medicine, nursing, midwifery and dentistry) and social sciences including international affairs.

*QS World University Rankings 2018–19
