*EU undergraduate students may be eligible for the Maintenance Loan from Student Finance if they've lived in the UK for more than 5 years before the first day of the first academic year of their course. For further details about eligibility please visit the relevant [.gov](#) webpages.

** You must be in receipt of the maximum Maintenance Loan (and grant for students who started their course before 2016) available to you from Student Finance England/Wales/NI/SAAS, or you will not be eligible to apply for hardship funding. This involves sending evidence of your household income to Student Finance to be means-tested.

If you are not taking a student loan for religious reasons you should be aware that the assessment of your application will reflect the amount of funding that you would have received if you had accepted the loan. For us to determine the level of support you would have received you need to be means-tested by Student Finance. You will also need to complete this [Declaration Form](#) and ensure you have made other arrangements to fund your studies.
